

AAA IS OUTLAWED

Roosevelt Bares 31 Billion National Debt In 1937

MESSAGE ON BUDGET READ TO CONGRESS

Says New Taxation Will Be Necessary if Bonus is Paid This Year

WASHINGTON, Jan. 6.—President Roosevelt today submitted to congress a balanced budget for regular federal expenditures in the 1937 fiscal year but forecast a work relief deficit of \$1,000,000,000 to \$3,000,000,000 for that period.

Mr. Roosevelt withheld from congress estimates of the size of the work relief appropriation to be sought this spring. He said, only that the appropriation would be "far less" than the \$4,800,000,000 which congress grudgingly voted last year.

The message forecast the second

largest annual revenue in American history for the next fiscal year—\$5,654,000,000. Mr. Roosevelt said that income would give him a \$5,000,000 surplus of receipts over regular expenditures in the 1937 fiscal year—still excluding the prospective relief appropriation which will be determined and revealed in March or later.

This budget showed that seven depression years will more than double the national debt—from \$15,000,000,000 in 1930 to \$31,000,000,000 in 1937. Mr. Roosevelt promised only that the 1937 deficit would be smaller than the \$3,234,000,000 estimated for 1936.

Billion For Defense
He asked for \$1,000,000,000 for national defense. This draft on the treasury for men and guns gave emphasis to his January 3 warning that the threat of war is upon the world.

Without mentioning the bonus, Mr. Roosevelt reiterated to congress that it must impose new taxes to meet cash payment or any other burden imposed on the treasury beyond budget items.

This message committed President Roosevelt to permanent federal efforts to control American agricultural crops. If the supreme court outlaws the AAA the New Deal will seek new legislation.

Overall appropriations recommended in this budget aggregate

DOG'S FRIENDSHIP FATAL FOR WOMAN

WOODLAND, Calif., Jan. 6.—The friendly leap of a pet setter discharged a shotgun which killed Shirley Bendix, 24, in a field northeast of here at dusk last night.

Mrs. Bendix and her husband had practiced shooting and were about to return to Sacramento when the woman thought she saw something to "shoot at." As she raised the gun, the Bendix dog barked and leaped playfully.

Bendix said his wife tried to ward off the dog with the gun, the weapon was discharged and the shot struck Mrs. Bendix in the chest, killing her instantly.

SEVEN KNOWN DEAD IN HOTEL TRAGEDY

WESTFIELD, Mass., Jan. 6.—The known death toll in a fire which destroyed an apartment hotel here rose to seven today when firemen recovered three additional bodies from the smoldering ruins.

Bodies recovered today from the charred Van Deusen were identified as those of:

Miss Beale J. Malone, 45, Westfield Savings bank clerk.
Miss M. Grace Pickett, 64, state normal school teacher.
Glenn Bonadine, about 46, brush manufacturer.

TWO SAILORS KILLED IN AUTO ACCIDENT ON COAST HIGHWAY

F. D. R. Asks Billion For U. S. Defense

Seeks New Appropriations of 551 Millions for Navy Department

WASHINGTON, Jan. 6.—President Roosevelt met the war threats of a troubled world today with a request that congress put American national defense on a billion dollar annual basis for the second consecutive year.

Echoing the references to foreign crisis in his message to congress, Mr. Roosevelt's budget estimates called for new appropriations for the navy department totaling \$551,308,399 and for the war department, \$443,699,305, a grand total of \$995,007,704.

This represents an increase of more than \$200,000,000 over the \$792,481,265 the president asked for the two services in his last budget, and some \$92,000,000 over actual appropriations.

These figures, however, included pay for important non-military activities, such as the work of the U. S. army engineers on rivers and harbors works, construction projects, etc.

The appropriations asked for strictly military activities of the war department total \$369,586,298, an increase of about \$20,000,000 over expenditures for similar purposes during the current year.

Increase For Navy
The navy's entire appropriation for military purposes. The actual appropriation asked is an increase of \$69,839,520 over the \$483,468,875 appropriated last year. However, when there is added to this year's estimates the amounts available from "carry-over" from previous years' appropriations and allotments, there will be available to the navy only \$18,000,000 more than was available last year.

In his budget message, the president said he was asking an increase of \$193,000,000 for national defense "to meet the policy of the congress and the executive in making up for the delay . . . in bringing the navy up to strength contemplated by the naval treaties . . . and to provide for replacement and improved equipment and additional personnel for the army."

In this \$193,000,000, however, the president seemingly included some of the non-military activities of the army, since the budget tables do not bear out this increase for strictly military purposes.

Recalls Policy

The president pointed out that in 1935 congress adopted a policy of increasing enlisted strength of the army from 118,750 to 145,000.

TARIFF PACT WITH CANADA FACES FIRE

PHOENIX, Ariz., Jan. 6.—Cattlemen from 19 states flocked to Phoenix today to attend the 39th annual convention of the National Livestock association, to begin tomorrow and to conclude Thursday.

The convention was expected to bring out sharp criticism of the recently-approved reciprocal tariff treaty with Canada, under terms of which import duties on Canadian cattle were reduced, and to see a bitter fight of Arizona cattlemen against the Taylor grazing act.

Nationally prominent speakers were to discuss aspects of the Roosevelt administration agricultural and other kindred policies.

M. L. Wilson, assistant secretary of agriculture, was expected to defend the Canadian treaty in the feature address of the convention's general session tomorrow afternoon.

DEPRIVED OF MOTHERHOOD HEIRESS CHARGES IN SUIT AGAINST MOTHER, DOCTORS

SAN FRANCISCO, Jan. 6.—Attorney Russell P. Tyler announced today that Ann Cooper Hewitt, 21, supposedly one of the nation's wealthiest heiresses, instructed him to file suit in San Francisco seeking \$500,000 damages against her mother and two prominent San Francisco surgeons charging them with conspiracy which assertedly operated her to a sterilization operation which deprived her of motherhood "as part of a plot to deprive her of a fortune left by her father," the late Peter Cooper Hewitt of New York, noted inventor.

"I will file the suit today," Tyler said. "It will be against Miss Hewitt's mother, Mrs. Maryon Brugiere-Denning-Hewitt-D'Erlanger-McCarter, and Mrs. Tilton E. Tillman and Samuel G. Boyd."

Dr. Boyd told the United Press and the San Francisco News that he had sterilized Miss Hewitt, "but it was at the request of the girl's mother because the girl was feeble-minded."

Doctor Explains
Boyd said Mrs. McCarter wanted the operation performed "not because she didn't want her daughter to have children but because she was afraid that her mental condition would lead her into moral difficulties."

Tillman, who described himself as a "childhood friend of Mrs. McCarter," said he was present during the operation but took no actual part in it.

FOUR DROWN IN SAN JOAQUIN RIVER SUNDAY

ANTIOCH, Calif., Jan. 6.—Police and firemen dragged the San Joaquin river today, seeking to recover the bodies of four Antioch high school boys who drowned only 200 yards from safety after a carefree Sunday hunting expedition on a river island.

Hysterical and shaken by the tragedy, Gordon Brooks, 14, only survivor of the group, was in Antioch hospital under treatment for exhaustion.

The dead:
Fred Walker, 18, Antioch high school employee.
Jerry Guadagna, 16, high school student, son of Mr. and Mrs. Frank Guadagna.

Ted Heckmiller, 15, junior high school student, son of Mrs. Susie Heckmiller.

Junior Wendell Brooks, 15, junior high school student, son of Mr. and Mrs. Clyde Brooks.

On Hunting Trip
Young Brooks, brother of Junior, told authorities that the boys, armed with three .22 calibre rifles, had gone on a hunting trip to West Island.

They were returning in a small skiff and were 200 yards from the Antioch river pier, he said, when a high wave struck the boat. One of the boys arose and started to walk from the bow to the prow.

A second wave struck the tiny craft as he stood amidstships and it overturned, throwing all five boys into the water, swept by a heavy ebb tide.

CHINA CLIPPER AGAIN DELAYED

ALAMEDA, Cal., Jan. 6.—Already delayed two weeks on a scheduled trans-Pacific flight with a Christmas consignment of air mail, Pan American Airways' four-motored China Clipper was held at its Alameda base today by new complications.

The big ship struck an obstruction of undisclosed or unknown nature as it taxied from its landing base into San Francisco bay yesterday, preparing for a 3 p. m. takeoff.

Capt. R. O. D. Sullivan, who replaced Veteran Capt. Edwin C. Musick as skipper for the flight, said the craft apparently had fouled a hidden obstruction on a sandy shoal. He ordered the plane back to its mooring to determine the extent of damage.

Always officials divulged little information of the mishap. They said they could not say definitely what the Clipper had struck and declined to disclose the extent of the damage.

SACRAMENTO, Cal., Jan. 6.—Gov. Frank F. Merriam announced today he intended to appoint A. T. Jergins, Los Angeles oil man, to the state fish and game commission, succeeding Elmer Houchin, Bakersfield, who resigned.

Jergins, who controls the Jergins oil interests, was recommended by conservation groups of Southern California, Merriam said.

Houchin resigned because he did not have sufficient time to devote to the unsalaried position.

Others members of the commission are I. Zellerbach, San Francisco, and Dr. E. C. Moore, Los Angeles.

Eight Other Persons Are Cut, Bruised

Seven Accidents Reported to Police Over Week-end in County

DEATH, with the alleged assistance of liquor and fog, gained two more victories on Orange county highways, over the week-end, as two sailors died following a head-on collision of automobiles two miles west of Huntington Beach, on the coast highway, at 2:30 a. m. yesterday.

Earl Gately, 26, driver of one car, and his companion, B. Hall, 24, connected with the Naval Training station at San Diego, were the death victims. Gately dying en route to Seaside hospital, Long Beach, and Hall, shortly after his arrival there. A. G. Sibley, 46, of 418 Fourteenth street, Huntington Beach, driver of the second car, suffered a fractured right leg and dislocated shoulder and was being treated today at St. Joseph hospital, where he was taken after emergency treatment at Orange county hospital.

Witnesses told investigating officers that the sailors had been drinking and that it was foggy near the scene of the crash. It was reported the accident occurred in the center traffic lane. State Officer Vernon Barnhill was called to the scene to investigate. An inquest was to be held at Long Beach today. Since the men died outside of Orange county, Coroner Earl Abbey will not conduct the inquest. It will be in charge of Los Angeles county coroner's office.

Eight Injured
Eight other persons were injured in seven accidents reported to police and hospital officials during the week-end.

Two Los Angeles men, a pedestrian and a motorist, were involved in an accident last night at 9 o'clock, at Ellis place and Spadra road, Fullerton, R. R. Reeder, 1955 Holmes avenue, Los Angeles, a weekend visitor at the home of his son-in-law, H. Moore, 515 North Pomona, Fullerton, suffering cuts and bruises when knocked down by a car operated by J. Holman, Los Angeles man, according to police.

When a tire on the car they were riding in near El Toro Saturday afternoon, blew out, Miss Damsby McFeer, 41, of 573 Boyle avenue, Los Angeles, suffered an injured back, cuts and bruises, as the car turned over.

SHIP WORKERS GET FEDERAL WARNING

WASHINGTON, Jan. 6.—Secretary of Labor Frances Perkins today warned Pacific coast maritime workers not to strike in their grievances against the ship owners on penalty of turning the award of the arbitration board of last April into a "scrap of paper."

Miss Perkins wrote Harry Lundberg, president of the Maritime Federation of the Pacific Coast, Seattle, acknowledging his charges that the Western Ship Operators have refused to abide by the award of the arbitration board last April and added:

"No doubt you are aware that the ship owners in numerous communications also claim that they have been similarly grieved by violation of other sections of the award, in that the maritime crafts have resorted to strikes and walk-outs without regard to the arbitration clauses."

NEW TAXES TO FOLLOW HIGH COURT RULING

WASHINGTON, Jan. 6.—New taxes and new crop control legislation are expected to result from the Supreme Court six-to-three decision today which outlawed the agricultural adjustment administration.

The taxes must be raised to pay approximately \$500,000,000 in contracted benefit payments to farmers. President Roosevelt's budget message, submitted to Congress as the court revealed its decision, announced that federal crop control had become a permanent New Deal policy.

The processing tax cases are bound closely to the government's revenue and budget problems. Last September President Roosevelt warned that invalidation of the processing taxes meant substitution of some other yet unrevealed tax. The government will have to pay the benefit contracts regardless of the court's decision.

Transfers Revenue

Under that program Mr. Roosevelt

MYSTERY OF 'SACK MURDER' DEEPENS

PHOENIX, Ariz., Jan. 6.—Investigation of Phoenix's "sack murder mystery" was thrown wide open again today when local authorities were notified that a fingerprint identification of the victim was erroneous.

Maricopa county authorities had been informed that fingerprints of the man found beaten to death and trussed into a cotton picker's sack on the desert near here, were those of J. C. Kalb, alias J. C. Costello, a former San Quentin prison, Calif., convict. This information came from the California and federal bureaus of criminal identification, Sheriff J. R. McFadden said.

Last night, he said, he was notified that Kalb was alive and living in San Jose, Calif. San Jose police chief, J. N. Black, reported Kalb was there and San Francisco police chief, W. J. Quinn, told of interviewing the man recently, the sheriff said.

Owen J. Roberts, justice of the United States Supreme Court, who read the opinion of six members of that body, who ruled unconstitutional the New Deal Farm program.

NEA

STUNNING BLOW DEALT NEW DEAL BY SUPREME COURT OPINION TODAY

WASHINGTON, Jan. 6.—The Supreme Court today struck down the New Deal's farm recovery program provided for in the AAA by holding the law an unconstitutional attempt to control production. The court was divided 6 to 3 in its ruling.

The decision was rendered with an opinion so sweeping as to make reenactment of any similar measure seem impossible without constitutional amendment—a long and difficult task.

Sweeping Decision

The court's opinion, presented by youthful Justice Owen J. Roberts, was a condemnation of the New Deal keystone so sweeping that it carried with it:

The whole scheme of AAA crop control and reduction.
The Jones-Costigan Sugar Control Act.
The Bankhead Cotton Act.
The Kerr-Smith Tobacco Act.
The newly enacted Potato Control Law.

Only by constitutional amendment did it immediately appear possible for the New Deal to repair the gaping hole rent in its recovery structure.

Striking at the very heart of the law, the decision held that control of crop production even by voluntary agreements and the payments of bounties exceeded the limitations placed on the power of the Federal government.

Stunning Blow

A stunning blow at what the New Deal considers its outstanding recovery achievement, the decision left officials at least momentarily uncertain as to their immediate course.

The decision was in such forceful terms that it left no doubt that the Bankhead Cotton Control act also would be declared invalid.

It also appeared definitely to scrap the Kerr-Smith Tobacco Act and the Potato Control Law.

The decision served to strike down processing taxes on wheat, rice, tobacco, corn, hogs, sugar beets and sugar cane, paper, jute, peanuts and rye, as well as cotton.

Crop production control programs for all these commodities fell with the decision.

Important Decision

The decision was considered the most important in political significance since the Civil War.

Briefs and arguments submitted during consideration of the case showed the deepest sort of cleavage between the industrial attackers and farm defenders of AAA.

Reverberations over the court's decision were expected to sound furiously through the coming political campaigns.

The issue of a constitutional amendment was regarded as an almost inevitable outcome, although the exact form it would take was uncertain.

The court based its decision on the finding that AAA was an invasion of the right of the states. It also held that the plan itself was "in itself not voluntary."

It was planned by administrative leaders to submit substitute legislation to congress without delay to replace the AAA to whatever extent is deemed necessary and possible. The exact legislation will be uncertain until study of the decision.

The government was expected to be liable for benefit payments to farmers already contracted for.

Roberts Reads

Justice Owen J. Roberts, who read the opinion, said as he proceeded that the Bankhead act was merely "a step further" along the same route as AAA, compulsory as was AAA.

Striking at the very heart of the law the decision held that

CASH AVAILABLE TO MEET RELIEF NEEDS

SACRAMENTO, Cal., Jan. 6.—Cash sufficient to meet immediate unemployment relief needs will be available by tomorrow, Gov. Frank F. Merriam intimated today.

The executive said he believed he had a plan worked out which would obviate the necessity of issuing individual interest-bearing registered state warrants to persons on relief rolls.

He declined to outline the plan, saying he may have something definite to disclose later.

Earlier today he indicated sums would be borrowed from the highway fund, and this system may still be followed in an effort to eliminate the necessity of issuing 200,000 registered warrants to relief workers this month.

STUNNING BLOW DEALT NEW DEAL BY SUPREME COURT OPINION TODAY

WASHINGTON, Jan. 6.—The Supreme Court today struck down the New Deal's farm recovery program provided for in the AAA by holding the law an unconstitutional attempt to control production. The court was divided 6 to 3 in its ruling.

The decision was rendered with an opinion so sweeping as to make reenactment of any similar measure seem impossible without constitutional amendment—a long and difficult task.

Sweeping Decision

The court's opinion, presented by youthful Justice Owen J. Roberts, was a condemnation of the New Deal keystone so sweeping that it carried with it:

The whole scheme of AAA crop control and reduction.
The Jones-Costigan Sugar Control Act.

Earlier today he indicated sums would be borrowed from the highway fund, and this system may still be followed in an effort to eliminate the necessity of issuing 200,000 registered warrants to relief workers this month.

FLEET LAUNCHES SPRING MANEUVER

SAN DIEGO, Cal., Jan. 6.—Virtually the entire fighting strength of the Pacific fleet was concentrated off the Southern California coast today in opening of secret spring tactical exercises.

Movements of the 100 battle vessels and approximately 400 fighting planes accompanying them were not divulged by naval officials, but were understood to include extensive battle drills.

Eleven battleships, including the U. S. S. Pennsylvania, flagship of Admiral Joseph M. Reeves, commander-in-chief of the fleet, sailed from San Pedro.

Aircraft carriers Lexington, Ranger and Langley accompanied the fleet, providing open-sea bases for the naval fighting planes. The three sailed from San Diego.

PRISON DIRECTOR CALLED BY DEATH

OROVILLE, Calif., Jan. 6.—Raymond A. Leonard, 55, president of the state board of prison directors, died at a local hospital early today following an illness of several months.

A native of Illinois, Leonard came to Oroville in 1909. He was admitted to the bar in 1910 and later served as city attorney of Oroville and district attorney of Butte county. He was considered an authority on water laws and played a prominent part in organizing irrigation districts in this vicinity.

Leonard had been a member of the prison board since January 12, 1930. He was named president of the board following the death three years ago of Charles Neumiller, Stockton attorney.

He is survived by his wife, Mrs. Lucille Leonard, and two children, Raymond, Jr., and Madeline.

JOHNSON WILL FILE WITHOUT PROTEST TODAY

(Continued from Page 1)

G. K. Sevel, who appointed Special Administrator H. C. Head as executor. The fixing of bond for the executor was postponed one week. In view of a petition filed by Head today, requesting that the assets of the estate be turned over to a trust company for safe keeping.

This action, authorized under the state banking law, would save the estate several hundred dollars per year in the form of premium for the executor's bond, Head explained.

With the will admitted, the remaining assets of the estate, listed by Head at \$101,750, will go to legatees under the will, relatives and friends of the late publisher and his deceased first wife, Mildred Johnson.

Threat Remains

The threat of another contest by the Beverly Hills woman, on behalf of her self and her 15-year-old daughter, Beverly, fatherhood of whom also was repudiated by Johnson, remained today, however, as Isadore Dockweiler, attorney for Mrs. Elvira Johnson, intimated that he might take advantage of the legal period allowed in which to file a contest of the will. This period dates from the probate of the will today.

Executor Head, however, expressed belief that no contest would be brought.

"They didn't dare take their case before a jury," he said. He referred to the contention of Mrs. Elvira Johnson that the granting of her \$300 per month family allowance, dating from Johnson's death May 15, 1935, was legally established by the state as a widow, and that of Beverly as daughter of the publisher. Head said that it was not yet decided whether the estate would appeal from the family allowance order.

Besides the \$300 per month allowance, Mrs. Johnson had been awarded \$4500 in bonds of the estate at a previous hearing, and the will provided \$4500 for the girl, Beverly, although Johnson, in his will, declared that he was not the girl's father, despite his signing papers admitting parentage. Coercion and threats had been used to obtain that admission, the will said.

The will also pointed out that Johnson had provided the Beverly Hills woman with a \$25,000 home in that city.

Married in Ventura

He married her at Ventura in November, 1932, following the death of his first wife, and the granting of a mail order Mexican divorce to her from her first husband. The girl, Beverly, was born in 1920, 12 years before the marriage.

When the family allowance was granted last November, the court refused to declare the Ventura marriage invalid, although Johnson, in his will, and the executor, in court, questioned legality of the ceremony.

If the will stands uncontested, the \$101,750 would be distributed according to its directions, as follows:

Charles Johnson, of Montrose, former Santa Ana mail clerk, a brother, \$15,000; Marvin Johnson, of South Pasadena, a brother, \$15,000; Virginia Remington, Los Angeles, a cousin of the first Mrs. Johnson, \$10,000; Mrs. L. A. Coepper, Los Angeles, family friend, \$10,000; Mrs. Cordelia Whitney, San Francisco, a sister of the first Mrs. Johnson, \$500; Grace Johnson, Santa Ana, niece of the first Mrs. Johnson, \$150; Mrs. O. B. Evans, Fullerton, friend of the first Mrs. Johnson, \$250. Total, \$50,900.

Under a provision of the will that the above named legatees shall divide the residue in proportion to the size of their legacies, and since the residue would approximately equal the total of their legacies, the share of each legatee would thus be almost exactly doubled. The two brothers would receive approximately \$30,000 each.

The assets as listed by Executor Head in his petition filed today consist of \$23,250 in cash, \$55,500 in building and loan certificates, \$23,000 representing a balance due on the contract for sale of the Fullerton newspaper formerly owned by Johnson. Other securities listed were said to be without market value.

BREAKFAST MENUS AT COOKING CLASS

Three different breakfast menus will be prepared and demonstrated by Margaret S. Lackland, director of the home service department of the Southern Counties Gas company, at the regular weekly cooking school class tomorrow at 2 P. M. at 207 Second street, Santa Ana, it was announced today.

A Sunday "Brunch" (combination breakfast and lunch) menu consists of chilled pineapple juice or grapefruit halves, eggs scrambled with tomatoes, bacon curls, orange-topped coffee cake and coffee. A January breakfast menu to be prepared and demonstrated includes prune juice with lemon slices, crisp cereal, apple pancakes and syrup, sausage, coffee or milk. The third menu consists of orange and grapefruit juice, ham and cornbread shortcake, baked bananas and coffee or hot cocoa.

Mrs. Lackland announced that at tomorrow's class session, the first in the new year after holiday vacations, an attendance contest will be announced.

STUNNING BLOW DEALT NEW DEAL BY SUPREME COURT IN OPINION ON FARM PROGRAM

(Continued from Page 1)

control of crop production even by voluntary agreement and the payment of bounties exceeded the limitations placed on the power of the federal government.

That there was no possible chance of a new AAA without constitutional amendment was assured when Roberts said that even if the plan was unquestionably voluntary it would fall because it used federal funds "to purchase compliance."

The court's division on the case was announced as six to three, with Roberts writing and reading the opinion of the majority group.

Liberals Opposed

Only the three regular liberals, Justices Harlan F. Stone, Louis D. Brandeis and Benjamin N. Cardozo stood for the law.

After he had announced the court's finding, Roberts continued for some time, seemingly in argument in defense of the finding.

AAA's theory were upheld, he said, the government might go into a state with its taxing and spending power and redistribute the industrial population in violation of the state's powers.

"For the appeal from unwise laws the recourse is not to the court but to the ballot," Justice Stone said in a dissenting opinion.

The court's opinion almost voided the necessity of rulings in the appeal against amended processing taxes brought by Louisiana rice millers and in the attack on the Bankhead Cotton act brought by Lee Moor, Texas cotton grower.

Cites Bankhead Act

The issues raised in the rice case are of no practical importance since the whole AAA was invalidated. The Bankhead act was characterized by Justice Roberts in his AAA opinion as an even greater exercise of compulsory crop control than the unconstitutional AAA.

"We are not now required," Roberts said in his opinion, "to ascertain the scope of the phrase 'general welfare' of the United States or to determine whether an appropriation in aid of agriculture falls within it."

"Wholly apart from that question, another principle imbedded in our constitution prohibits the enforcement of the agricultural act."

Besides the \$300 per month allowance, Mrs. Johnson had been awarded \$4500 in bonds of the estate at a previous hearing, and the will provided \$4500 for the girl, Beverly, although Johnson, in his will, declared that he was not the girl's father, despite his signing papers admitting parentage. Coercion and threats had been used to obtain that admission, the will said.

The will also pointed out that Johnson had provided the Beverly Hills woman with a \$25,000 home in that city.

Married in Ventura

He married her at Ventura in November, 1932, following the death of his first wife, and the granting of a mail order Mexican divorce to her from her first husband. The girl, Beverly, was born in 1920, 12 years before the marriage.

When the family allowance was granted last November, the court refused to declare the Ventura marriage invalid, although Johnson, in his will, and the executor, in court, questioned legality of the ceremony.

If the will stands uncontested, the \$101,750 would be distributed according to its directions, as follows:

Charles Johnson, of Montrose, former Santa Ana mail clerk, a brother, \$15,000; Marvin Johnson, of South Pasadena, a brother, \$15,000; Virginia Remington, Los Angeles, a cousin of the first Mrs. Johnson, \$10,000; Mrs. L. A. Coepper, Los Angeles, family friend, \$10,000; Mrs. Cordelia Whitney, San Francisco, a sister of the first Mrs. Johnson, \$500; Grace Johnson, Santa Ana, niece of the first Mrs. Johnson, \$150; Mrs. O. B. Evans, Fullerton, friend of the first Mrs. Johnson, \$250. Total, \$50,900.

Under a provision of the will that the above named legatees shall divide the residue in proportion to the size of their legacies, and since the residue would approximately equal the total of their legacies, the share of each legatee would thus be almost exactly doubled. The two brothers would receive approximately \$30,000 each.

The assets as listed by Executor Head in his petition filed today consist of \$23,250 in cash, \$55,500 in building and loan certificates, \$23,000 representing a balance due on the contract for sale of the Fullerton newspaper formerly owned by Johnson. Other securities listed were said to be without market value.

MESSAGE ON BUDGET READ TO CONGRESS

(Continued from Page 1)

\$6,400,000,000 although the president promised to hold his regular expenditures within the smaller sum expected in tax and other revenue. The \$6,400,000,000 recommended today is \$1,254,000,000 greater than the overall appropriations proposed in the budget presented one year ago.

Conditions Improved

Mr. Roosevelt said conditions were improving and that his policies were aiding the nation to better times. He revealed that New Deal spending was far behind schedule.

Mr. Roosevelt's failure to include his prospective relief appropriation recommendation prevented accurate estimate of the prospective deficit or of the probable national debt when the next fiscal year ends on June 30, 1937.

One year ago Mr. Roosevelt estimated the national debt would aggregate \$34,238,823,656 on June 30, 1936, when this fiscal year ends. Today's message revised that estimate downward to \$30,933,375,017 and forecast that 18 months hence, when the 1937 fiscal year ends, the national debt will aggregate \$31,351,000,000 plus any appropriations congress may make this year for relief.

This message covers the 12 months beginning July 1, 1936 comprising the last half of this year and the first half of next, designated as the fiscal year 1937.

The president revealed a fundamental change in New Deal policy structure. He announced that the agricultural adjustment administration, the Civilian Conservation corps and the major public works program of the future had been shifted from the emergency to the regular category of the federal establishment.

Public Works Program

That means Mr. Roosevelt believes time has proved those agencies to be desirable as permanent parts of government. Coincidentally, the president launched the nation upon a policy of spending approximately \$500,000,000 annually on a planned public works program designed to re-make the face of nature.

Mr. Roosevelt asked congress to appropriate \$405,000,000 to be spent for that purpose in the next fiscal year. The money will be spent on rivers and harbors, roads, power dams and reclamation. He announced there would be no further appropriations for public works loans and grants to cities and states.

Public Works Administrator Harold L. Ickes, however, will continue to circulate his revolving loan fund. It consists of sums previously appropriated and loans and subsequently repaid to be loaned elsewhere. The \$405,000,000 does not include funds for further housing projects.

Few think an airplane will damage their homes. Many lose heavily.

enforcement act. The act invades the reserved rights of the states.

"It is a statutory plan to regulate and control agricultural production, a matter beyond the power delegated to the federal government."

"The tax, the appropriation of the funds raised, and the direction for their disbursement, are but part of the plan. They are but means to an unconstitutional end."

Audience Breathless

As a breathless audience listened in the marble-pillared courtroom, Justice Roberts, speaking with only a glance or two at his opinion, condemned the AAA as "a statutory plan to regulate and control agricultural production, a matter beyond the powers delegated to the federal government."

Not a listener was in doubt of the significance of the opinion as Roberts, with rising voice, said: "The tax, the appropriation of the funds raised, the direction for the disbursement, are but part of the plan. They are but means to an unconstitutional end."

"The act invades the reserved rights of the states." The court's decision placed a crushing financial burden upon the administration on the very day that President Roosevelt, with optimism submitted a 1937 budget that was within balance, except for relief expenditures.

Must Meet Contract

It meant that the government is obligated, according to latest AAA estimates, to pay \$602,000,000 which it has contracted to give to farmers under the AAA crop scheme. To meet the payment, it must find some new form of taxes as the whole system of processing levies under AAA was swept away.

In addition it meant loss of some \$200,000,000 impounded in federal courts pending the supreme court ruling.

President Roosevelt met the situation with a smile.

Secretary of War George Dern, who was with President Roosevelt when the news was received, reported: "He just held the sheet of paper in front of him on his desk," Dern reported, "and smiled."

Officially, the White House reported "no comment."

In spite of the sweeping nature of the decision agriculture department officials clung to hope some substitute measure might be evolved.

Study Substitutes

They had been prepared, at least partially, for such a ruling and have been studying substitutes for weeks. New taxes will certainly be sought to replace the lost processing levies. A drive for a constitutional amendment to permit such a form of control may be launched. This, however, would take many weeks.

There was some hope a form of state AAA organizations, roughly similar to grants-in-aid now made by the federal government for state road systems might be tried.

ROOSEVELT IS SILENT OVER NEW TAXES TO FOLLOW HIGH COURT RULING

(Continued from Page 1)

from commenting until they have had an opportunity to study the decision, indicated they believed it would not be difficult to remedy the situation.

Plans New Program

Republican Leader Charles McNary of Oregon announced he would introduce his three-way farm program as a substitute for the AAA. It provides for export debentures, equalization fees and a domestic allotment plan.

"If the AAA is dead, it's dead as hell," McNary said, "and something will have to be done about it."

"The decision was not unexpected," said Vice-President John N. Garner.

Sen. John H. Bankhead, D., Ala., accepting incomplete reports of the decision, said he believed the situation could be remedied by passing a new law operating the processing tax feature from the production control provisions.

House Excited

The court's decision threw the house into excitement. The news reached the floor as the president's budget message was being read. Republicans hailed it as a victory in their fight against the New Deal. Administration supporters were glum.

Indications were that a substitute program would be attempted immediately to replace that outlawed by the decision but leaders were not prepared to discuss its scope beyond that "we will try to keep within the bounds set out by the court."

The decision was seen as probably delaying adjournment of the present session.

Rep. John R. Mitchell, D., Tenn., member of the house agriculture committee, said it was regrettable that the farm program could not be permitted "to afford the relief for which it was designed."

"Some other legislation will be needed immediately," he said.

"It will have to be revised," said Sen. Arthur Capper, R., Kan., adding that the decision was "anticipated."

Sen. George W. Norris, R., Neb., suggested that a constitutional amendment "may be the only way out." He added, however, that such a procedure would require a long time before its completion and "the opposition of political leaders may make it impossible."

BANK CALL

WASHINGTON, Jan. 6.—Comptroller of Currency J. F. T. O'Connor today issued a call for condition of national banks, as of Dec. 1. It was the customary year-end condition call.

NEW TAXES TO FOLLOW HIGH COURT RULING

(Continued from Page 1)

velt transferred the revenue from processing taxes to the general treasury, fund and charged AAA benefit payment disbursements among regular government expenditures.

At least \$200,000,000 tied up in much-needed federal revenues was involved in the court's decision.

Since the first attack on the AAA benefit program there had been a steady dwindling in federal processing tax collections. Taxpayers believing the program unconstitutional either withheld payment or paid their taxes into escrow awaiting the high court's decision.

F. D. R. SEEKS BILLION FOR U. S. DEFENSE

(Continued from Page 1)

Funds appropriated, he said, were sufficient to maintain an average strength of about 147,000 up to 1936.

The new estimates would be designed to maintain this average through 1937, he added, with a view to providing in the 1938 budget funds necessary to achieve an average enlisted strength of 165,000 by the end of the fiscal year 1938.

"It is felt that this is as fast as the government should proceed . . . in the light of the present forecast of fiscal affairs," he said.

The estimates provide for a continuation of the naval construction program to give the United States a "treaty navy" by 1942; for expansion of both the army and navy air forces by purchase of approximately 800 new planes for the two services, and increases in the regular enlisted strength of both services, and for increased officer strength in the navy and marine corps. Pay and allowances for this greater personnel account for several millions of the increased appropriations.

Proposes Increase

The navy department proposes to increase its enlisted strength by 6500 men, to a total of 100,000 by June 30, 1937. This increase is deemed necessary to man the new warships which will be launched and commissioned during the fiscal year.

It proposes to spend \$243,000,000 on new construction, which includes continuation of construction

DEPRIVED OF MOTHERHOOD, HEIRESS CHARGES IN SUIT AGAINST MOTHER, DOCTORS

(Continued from Page 1)

"The girl is feeble-minded," Tillman said. "Mrs. McCarter came to me and said she wanted her daughter examined. I had her under observation for six or eight months. Mrs. Scally (a state psychiatrist) gave the tests and confirmed my observations as to the girl's condition. The actual operation was performed by Dr. Boyd. In such a case Mrs. McCarter was within her legal rights in deciding on an operation."

Tyler vigorously denied his client is feeble-minded. He said she was a normal girl whose education had been retarded.

Miss Hewitt is a great granddaughter of Peter Cooper, "America's first millionaire," who founded Cooper Union college in New York City.

Her father, Peter Cooper Hewitt, was the third of Mrs. McCarter's five husbands, one of whom was Baron D'Erlanger of Paris. Her grandfather, Abraham S. Hewitt, was an early day mayor of New York and a member of the house of representatives.

Mother in East

The mother, Mrs. George W. C. McCarter, reportedly is in the east, probably in New York City.

on 94 ships now building, and the launching of 12 new destroyers and six submarines during the fiscal year. These are all so-called "treaty" navy ships.

No appropriation is asked in the budget for commencement of construction of new capital ships to replace the seven aging battleships now comprising the "backbone" of the U. S. fleet.

The navy proposes to spend \$27,660,000 for new airplanes, including the appropriations of \$22,250,000 asked in the budget, the "carriers" from previous appropriations and future contract authorizations.

An increase of \$1,664,000 asked for the U. S. marine force provides primarily for the addition of 20 second lieutenants, and an increase from 16,000 to 17,000 in the enlisted strength of the "sea soldiers."

MYSTERIOUS GLOVE HUNT IS FAILURE

TIFFIN, O., Jan. 6.—An anonymous telephone call to police set them on a desperate search for two persons and a pair of gloves.

A woman told officers over the telephone, that gloves had been stolen from her automobile. Inasmuch as she was suffering from a serious skin disease, she said, "the joke will be on the thief." Then she hung up without revealing her identity. Police were unable to trace the call.

ROBERT ASCOT WINNER

LOS ANGELES, Jan. 6.—Floyd Roberts, veteran Burbank auto pilot, yesterday won a close 50-lap main race victory over Ray Pixley by a quarter of a lap at Ascot.

"Tex" Peterson finished third in the inaugural Cup race while Ted Horn was fourth and Bruce Denlow fifth. Roberts' time was 23:02.8.

EIGHT OF THE PERSONS ARE CUT, BRUISED

(Continued from Page 1)

twice. Both were treated at Santa Ana Valley hospital after being rushed there by Harrell and Brown's ambulance. The couple was returning home from a trip to San Diego.

Arturo Vega, 50, Route 4, Santa Ana, received a fractured knee last night at 8 o'clock, when run down by a hit-and-run driver. He was treated at Orange county hospital.

Three-year-old Charles Deaver of Santa Fe Springs, also was treated at Orange county hospital, for lacerations and bruises of hands and pavement burns to his face, resulting when he fell out of an automobile in which he was riding Sunday afternoon. The car was traveling 20 miles per hour at the time of accident, according to reports.

No one was reported injured in a collision of cars Sunday morning at 2:30 o'clock at 111 South Broadway. Drivers of the cars were reported to be W. F. Lindner, 614 Orange avenue, Huntington Beach, and Howard McClain, 219 West Third street, Santa Ana.

Ernest Parra, 59, 1912 West Second street, was jailed for drunk driving at 1 a. m. yesterday, after he almost ran into the city police radio car driven by Officers C. V. Adams and L. H. Nicholson, who arrested him. He was arrested at Fourth and Ross streets. After running into a car parked in the 1900 block of South Main Sunday night, Susano Orrego, 56, of 502 Adams street, Glorieta, was arrested by City Police Officers J. W. Foster and J. B. Stephenson for being drunk. He was jailed.

STORE CLOSED TOMORROW ALL DAY

Our store will be closed all day tomorrow, to arrange stock and mark prices way down low, in preparation for a sensational Selling Event.

SALE STARTS WEDNESDAY AT 9 A.M. THE GREATEST SALE

This will be the greatest price cutting event in the history of this business. Not just a sale of odds and ends, or discontinued lines, but a store wide sale, with prices cut on every item.

SALE STARTS WEDNESDAY AT 9 A.M. PRICES SLASHED

Tremendous price concessions are being made on every dress, every hat, every sweater, in fact everything in the store is being marked at drastic price reductions. We must unload at least one-half of this stock.

STARTING WEDNESDAY AT 9 A.M. SEE FULL PAGE ADV. TOMORROW

Check over your needs, then carefully read the large adv. of Bargains in tomorrow evening's paper. Don't fail to act, as there are many feature values that may never be duplicated.

Visitor Here Is
Called by Death

After an illness of several days, Grover Stanley, 46, Clear Lake Highlands, who had been visiting relatives here, died yesterday at St. Joseph's hospital. Funeral services will be announced later by Smith and Tutthill.

In addition to his sister-in-law Mrs. Lola B. Stanley, Santa Ana, at whose home he had been visiting, Mr. Stanley is survived by three brothers, Louis Stanley of Elmore, Kan.; Walter Stanley, La Mesa, Kan.; and Charles Stanley, of Blue Mound, Kan., and two sisters, Mrs. Erna Johnson, Bronson, Kan., and Mrs. Winifred Watson of Elmore, Kan.

EL TORO CCC CAMP AWARDED DISTRICT HONOR

Rated the best of the 17 CCC camps in this district, the El Toro CCC camp was presented with a blue flag by Major L. A. Walton, district commander of March field, at ceremonies held Saturday afternoon. A number of city and county officials attended.

The flag was received by Capt. William M. Thomas, camp commander. Guests at dinner in the evening included Mayor Fred Howland, Santa Ana; Mayor Charles Mann, Anaheim; Sheriff Logan Jackson, Councilman Plummer Bruns, Santa Ana; E. T. McFadden, James Bouldin, chief of police of Anaheim; Allison Honer, commander of the Santa Ana post of the Legion; Glenn Hendrickson, commander of the Jack Fisher post of the V. F. W.; Al Steffins, Anaheim; Capt. and Mrs. Ray Smith, Anaheim; Col. and Mrs. Fred Smith, Anaheim; Mr. and Mrs. Fred M. Nelson, El Toro, and others.

The El Toro camp specializes in soil conservation work. The camp is open at all times to visitors. It was announced it is operated jointly by the United States Army and the United States Department of Agriculture. Walter Bauer is project superintendent.

BURGLARS RANSACK TWO ORANGE HOMES

Burglars, active in Orange during the weekend, cut screens at the home of Ed Bertman, 454 North Olive street, and C. E. Lush, 461 North Shaffer avenue, and ransacked the rooms, taking property valued at approximately \$55 to \$60.

While the Bertmans were away from home yesterday afternoon, thieves cut out screens from windows at the home and, according to Officer John Elistie, who investigated, took a purse, a 1936 diary belonging to Beverly Bertman and keys. At the Lush home, thieves cut a screen door sometime Friday night, taking a gold wedding ring, two coral pins, flashlights, a gold Elgin watch, a Chinese basket and several other jewelry trinkets, valued at \$50.

Regarding the third basic foreign policy, the Monroe doctrine, Talbott said that its present interpretation is favorably received by America's Latin neighbors.

The open door policy presented as No. 4, was referred to as one which America has always applied to the Far East, specifically China. The second phase of the policy stresses the maintenance of China's sovereignty over her territories, the speaker said. "Whether or not America will scrap her open door policy with China, and abide by Japan's Monroe doctrine

Freedom of the seas and neutrality was named as the second foreign policy, over which three wars—an undeclared conflict with France in 1793; the war of 1812, and the World war, have been fought, he declared. How America's conception of this neutrality doctrine has changed during the past few months was explained. "To keep America out of war, we completely change our conception of the freedom of the seas policy," he said.

"To keep America out of war, we completely change our conception of the freedom of the seas policy," he said.

Regarding the third basic foreign policy, the Monroe doctrine, Talbott said that its present interpretation is favorably received by America's Latin neighbors.

The open door policy presented as No. 4, was referred to as one which America has always applied to the Far East, specifically China. The second phase of the policy stresses the maintenance of China's sovereignty over her territories, the speaker said. "Whether or not America will scrap her open door policy with China, and abide by Japan's Monroe doctrine

NATION'S FOREIGN POLICIES OUTLINED BY PEACE WORKER

"PEACE for the people—war for the governments." Reiterating these words of the late President Woodrow Wilson, E. Guy Talbott gave a forceful address yesterday afternoon in the Y. W. C. A. rooms. Charging individual American citizens with a share of the responsibility for maintaining peace, he upheld the friendly neighbor policy stressed by President Roosevelt in his latest speech before Congress.

"International anarchy is ahead of us if the league fails now in its function as concerns the present Italo-Ethiopian conflict," the speaker stated in climaxing his talk on "America's International Relations." He pointed out that Italy's present overstepping followed Japan's infringement on Chinese territory, and Hitler's breaking of the Versailles treaty, with resulting league censure.

Outlines Policies

Talbott presented a general survey of America's six important foreign policies in the light of the present serious situations. The last of these policies, the substitution of law for force as a method of settling disputes between nations, he referred to as a dream which prominent American statesmen have carried down through the ages. "By refusing to join the World Court, United States congress thwarted this dream," he pointed out.

The speaker credited Father Coughlin and William R. Hearst with the responsibility for America's vote against joining the World Court. He added that Coughlin's public appeal was directed to the emotions with such success that people flooded the legislators with telegrams against joining the court. Talbott urged the alert support of organizations and individuals on all matters which pertain to world peace. As a member of the National Council for the Prevention of war, he had peace bonds for sale.

"Almost all of our legislation is based on the assumption of isolation," Talbott stated, in reviewing America's foreign policies. "Were our forefathers living today, they no longer would consider isolation a policy," he said, pointing out that so-called isolationists will give serious conflict on various matters up before the legislature at present.

Policy Changed

Freedom of the seas and neutrality was named as the second foreign policy, over which three wars—an undeclared conflict with France in 1793; the war of 1812, and the World war, have been fought, he declared. How America's conception of this neutrality doctrine has changed during the past few months was explained. "To keep America out of war, we completely change our conception of the freedom of the seas policy," he said.

Regarding the third basic foreign policy, the Monroe doctrine, Talbott said that its present interpretation is favorably received by America's Latin neighbors.

The open door policy presented as No. 4, was referred to as one which America has always applied to the Far East, specifically China. NATIONAL WHIRLIGIG

— News Behind the News —

BY PAUL MALLON
Copyright, 1936, by Paul Mallon
SANDSAGGING

WASHINGTON, Jan. 6.—If the facts ever get out about Postmaster General Farley's Jackson Day dinner promotional campaign, there may be a public clamor to make him director of the budget. The few insiders who have learned about his newly developed genius in putting over the \$10-a-plate light snack repeat are already calling his name—sotto voce, of course.

It may be too late for this year. The budget is today limping toward congress. But next year, some New Dealers feel, a healthier appearance for it would be assured if the Farley epicurean-sandwich cure were tried on it.

Modesty and opposition may forbid. The general's friends are manifesting a reluctance to talk, and he cannot be expected to. However, there are a few government employees in at least one department who are insisting that such genius should not go unnoticed. They will talk, if certain that no one will hear them. Through them you may get the details of this remarkable cure for deficits.

SUGGESTIVE POWER

It seems the general's friends were correct in denying recently that the invitations to the \$50 dejeuner were sent to all government employees. In one large government bureau, they were sent only to employees earning more than \$5000 annually. There is reason to believe that a similar distinction was made in all government departments. But this was only the initial come-on inducement.

A follow-up man was sent around later. He merely went politely through the offices of this particular department with a list of names, asking each prospective guest whether he intended to come. Nothing more was required. The employees had been talking the matter over among themselves. Certain of them pointed out that, after all, \$50 is only 1 per cent of \$5000 and 1 per cent is a rather reasonable fee to pay for holding on to a job.

GENTILITY

The follow-up man worked his way up to the office of a rather prominent official on the fourth floor of this particular department and asked: "Are you going to take pot-luck with us Wednesday night?"

The official was hesitant. He was afraid to say no and reluctant to say yes.

The follow-up man, noticing his predicament, broke in to say: "Oh, that's all right. I'll mark you off the list. I have not had a declination today, and there should be at least one."

TECHNIQUE

In the same department, there was a New York lawyer who carries his change in one of those old-fashioned clasp-lock purses, now generally used only by the ladies. Before the follow-up man came around, he told his associates brusquely that he was not going to lay out fifty bucks for anyone. One of his friends confided:

"Things will be happening to you around here in thirty days, if you don't. They can make it very rough for you."

When the follow-up man arrived, the lawyer unclasped his moth-eaten pouch. There emerged a check for \$50.

You can readily see what a national campaign like that would do for the federal deficit. A gentler sandbag or a more effective one would be hard to conceive.

CAUTION

You may have noticed President Roosevelt made no detailed recommendations on neutrality in his Friday night message. This was not an oversight, but in keeping with the inside strategy of letting his congressional leaders get as much as they can. Both the White House and state department will lay low.

Also, the ringing message was far more pleasing to the conservative groups outside congress than their published comments indicated. To them it meant a continuation of the breathing spell. They noticed it contained no new recommendations. The liberal groups also seemed to be pleased by the expressions of idealism.

That is one reason why his White House associates have been telling him ever since it was the best message of his career.

NOTES

Only one member of the house seemed to be artificially exhilarated for the opening session, which is probably a new low record.

If anyone wants to make a serious study of legislative problems, he should read the book of that name by Congressman Luce.

The depression is over. Far more senators than usual dressed for the opening sessions in frock coats. Some wore a scent of moth balls, but others were obviously newly purchased. No one in the plebeian House of Representatives, however, was formally attired.

Best fitting frock coat of the senatorial lot was not on a senator. It was worn by Colonel Ed Halsey, capable secretary of the senate.

Michigan's Senator Couzens looks well after a series of operations. It was not generally known, but his family despaired of his recovery at one time last fall.

Senator Borah, possessor of the

noblest mane in congress, prepared for the new session by getting a haircut. Borah never wears formal clothes.

The only congressional change noticeable since the last session was the absence of Senators Long and Schall, who died during the recess. They were the two most violent debaters in the chamber and their passing will be noticed for a long time.

Congressmen were far more interested in expected decisions from the Supreme Court than they were in the budget or their own business.

GERMAN PEASANTS REBEL

Return of Rationing Cards Expected

By W. STEPHEN BUSH

The Nazi regime, which has triumphed over the republic and its parliament, relegated monarchy into the background and subjected the church, has even forced the dogged resistance of the German farmer to excessive control and regimentation. What Hitler himself has described as the great "granitic block" in the structure of German fascism has been turned into a stone of offense.

It is too early to venture a prediction in a country like the Germany of today, where the men in power possess and freely use every means of repression to impose an outward appearance of conformity and obedience. The supervision of the foreigner, slightly relaxed at the height of the tourist season, swings back into rigid enforcement of every bit of red tape when the season is over. It begins at the border and thereafter pursues one with relentless and often unceasing vigilance.

The passive rebellion of the farmers has been at the bottom of the recent food riots, the empty markets and the battles among enraged housewives. The German press attributes these disturbing phenomena to the poor crop of last year and the diminishing exports. These may have been contributing causes, but they would never have created such an acute crisis and such violent outbreaks.

Under the present system the German farmer may produce as much as he likes—indeed, he is constantly urged to set new records in production. On the other hand he has practically no control of the prices of his products or the method of their distribution. That part of it is in the hands of a few so-called agricultural dictators, who in turn act upon instructions from the general headquarters and its far-flung bureaucracy.

All this is in shrieking contrast to what the Nazi regime had promised during its struggle for power. The lures then held out to the farming class were more freedom from governmental interference, a sharp reduction of the interest on borrowed money and above all things higher prices for the products of the farm. These promises rallied the peasantry to the support of Hitlerian standards. About the rest of the Hitler program—concerning racial purity, sterilization, increase of armaments, etc.—they cared comparatively little.

Now that all these promises have been broken and the farmers have once more been forced under the yoke of governmental regulation and control, just as in the hardest days during the war, the revulsion of feeling has been deep and general. As to their adherence to the Nazi slogan "You must increase your production," the best evidence may be found in the official statistics which show that within the last year the untilled areas have steadily increased.

The raising of cattle, pigs, goats and other animals used for slaughter likewise show a falling off on paper, but this is not confirmed by the facts. The farmers explain the alleged shortage to the agents of the government by pointing to the high cost of fodder. It is an open secret, however, that there has been no substantial reduction, but that cattle and particularly pigs have found their way into the hands of speculators instead of into the next distributing station of the government. The farmers sell them to these so-called "black dealers" on a "speak easy" plan. The latter manage to dispose of the animals at a good profit even after outbidding the government. Besides the speculator pays cash on delivery, while the government resorts to deferred payments. Sometimes the farmer has to wait for a month or more before he gets his money. Out of these deferred payments the government deducts all overdue and all current taxes, leaving the total for the farmer far below his most modest expectations.

To escape the watchfulness of governmental control the farmers have devised a system of signals which the necessities of war times taught them in the past. The movements of every inspector are closely followed by the farmer's own men. In this way they learn of the coming of the examining officials hours ahead of their arrival at the farm. They use this time for loading their products on trucks and driving them to remote hiding places in the woods or in the moors. There have been arrests and heavy punishments but the practice is still going on more or less successfully.

The leniency heretofore accorded to farmers in arrears with their taxes has given way to a draconian severity, as attested by the rapidly increasing tax sales of farm lands in all parts of the Reich. In the first three months of 1935 forced sales of farms for non-payment of taxes have increased 90 per cent over the number of such sales reported for the corresponding three months in 1934.

Another source of disappointment and dissatisfaction to the German farmers has been a new law intended to insure the creation of a German yeomanry of select and sturdy character. This law establishes the right of entail in favor of the oldest son in all cases where property used for agricultural pur-

BIRTHDAY BALL GROUP TO MEET TUESDAY NIGHT

ANAHEIM, Jan. 6.—The general committee to work with John A. Morgan on plans for the President's Birthday ball, scheduled for January 30 at the Elks club, has been appointed and will meet tomorrow evening at 7:30 o'clock at the Elks club for the first time.

H. H. Benjamin, manager of the Bank of America, will serve as treasurer. Others on the committee are Mrs. Leo J. Fria, president; Miss Florence Backs, president; Junior Ebell; Mrs. W. R. Ward, president Anaheim council P. T. A.; Mrs. Mabel Dixon, president Business and Professional Women; Mrs. John Kirach, president Young Ladies' institute; Herb Eldred, president Lions club; Ernest DuBois, president Kiwanis club; K. B. Rigby, president Rotary club; Dr. William Stahly, president 20-30 club; Dr. C. O. Patterson, president Toastmasters club; Earl Fuller, commander of the American Legion; A. P. M. Brown, worshipful master of the Elks; J. F. Wagg, noble grand of the Odd Fellows; Edwin Daly, deputy grand knight of Knights of Columbus; Arthur M. Bradley, exalted ruler of the Elks and Lotus H. Loudon, publisher.

Morgan announced that the same distribution of funds will be made this year as last. The 70 per cent which stays in the community amounted to \$86 last year and was placed in a fund to be used to buy vaccine should infantile paralysis ever take epidemic proportions in Orange county. This fund will be handled by a committee composed of a representative of the Crippled Children's Relief association, Ebell club and Junior Ebell. The remaining 30 per cent goes to the foundation at Warm Springs, Ga.

poses has been in possession of the same family for three or more generations. The idea seemed to be founded on sound premises but it worked out badly in practice.

The present owners of such estates, of which there are many especially in the western and southern parts of the country, are forced to do without needed improvements as the banks hesitate to make any loans on such property.

On many occasions recently the natural play of supply and demand has resulted in higher prices for farm products. Naturally the producer expected to get the benefit, but to his chagrin he discovered that the higher profits had been absorbed by the enormous cost of maintaining the machinery of distribution by the state. This machinery gives steady employment to a large number of orthodox members of the National Socialist party.

The existing laws also confer upon the state the right of expropriating any owner of farm lands who, in the judgment of the Nazi courts, does not utilize his possibilities of production to the fullest extent. Hundreds upon hundreds of such proceedings are now pending in the "Courts of the People," in which the majority of the judges are laymen of proven party faith. Frequently the defendants make only a feeble effort to present their side of the case, feeling that the chances are overwhelmingly against them. One of the expropriated men remarked that he had not been the real owner, but only a hired man of the government ever since the Nazis came in. Another expressed the sarcastic hope that the police might be able to run his farm better than he himself had been working on it for more than 20 years.

The Nazi government is worried by the fear that the continued shortage of food, especially of pork products and butter, must lead to the re-introduction of "rationing cards" as in the days of the war. To prevent such an emergency the regime is answering the insurgent spirit among the farmers by increasing expropriations and inflicting exorbitant punishment on "all defaulters on production." For the first time in the history of the third Reich farmers, small freeholders as well as the owners of large estates are being sent to jail and to the concentration camps.

So far these methods have failed to bring about the desired increase in production. Nor have they been able to arrest the disaffection of the German farmers. The unrest is growing. It shows itself not only in riots and minor acts of violence at forced tax sales of farms, but also in open resentment against interference in the management of farms and the intrusive espionage of governmental agents.

FURTHER PLANS FOR COMMUNITY DINNER EVENT

Announcement of naming of sponsors, members of the reception committee and honor guests for the big annual chamber of commerce community dinner to be held at 7 p. m., January 21, in the American Legion hall was made today by Secretary Howard I. Wood, of the chamber.

The speaker of the evening will be Dr. Frederick P. Woelner, of the University of California at Los Angeles, whose subject will be on "On the Upgrade." The speaker is a personal friend of Secretary Wood and of Directors F. A. Henderson and James N. Harding, of the chamber. He made an outstanding hit in a talk to merchants and their employees here recently.

All residents of Santa Ana are invited to the dinner, and reservations can be made by calling the chamber at 222. The chamber committee in charge of arrangements includes Rex Kennedy, chairman; James Harding, Ellis Diehl and John Estes.

Honor Guests

Honor guests at the event will be L. A. Bortz, president of the Farm Bureau; Roland D. Flaherty, Farm Bureau executive secretary; J. W. Crill, past president of the Farm Bureau; Harold Walberg, farm advisor; Dixon Tubbs, agricultural commissioner; A. E. Christensen, president of the Anaheim Farm Center; James A. Baker, president of Cypress-Magnolia Center; W. C. Armstrong, president of Foothill Center; William Feldner, president of West Orange Center; Don Munger, president of Yorba Linda Center; H. Clay Kellogg, president of Garden Grove Center; Fred Wilson, president of Tustin Center; Howard Jackson, president of La Habra Center, and D. S. Halladay, president of Placentia Farm Center.

Sponsors and members of the reception committee include Mayor and Mrs. Fred C. Rowland, members of the city council and their wives, J. P. Smith, William Penn Plummer, E. H. Layton; W. H. Spurgeon, president of the chamber; Allison Honer, commander of the legion post here; H. P. Rankin, president of the Business Men's association; Milan Miller, breakfast club president; Stanley Goodie, Rotary president; Dr. Melbourne Mabey, Kiwanis president; C. W. Harrison, Lions president; Wayne Harrison, 20-30 club president; and Lorraine French, B. and P. W. club president. Husbands or wives of those on the committee also will act.

The seeds known as Job's tears, sometimes used for beads, are cultivated like corn in Manchuria.

BANKS PREFER ADVERTISING IN NEWSPAPERS

Newspapers are the preferred advertising media for banks in the United States and Canada, according to preliminary reports on a national survey which has just been completed by the Financial Advertisers association with headquarters in Chicago.

Ninety-eight per cent of the banks replying to a questionnaire sent out by the association said they will use newspaper advertising in 1936.

Almost 37 per cent of the banks will increase their advertising expenditures in 1936, approximately nine per cent will decrease expenditures, and 64 per cent will spend as much as they did in 1935.

The increasing attention which banks are paying to the problem of public relations is shown all through the questionnaire. For instance, 60 per cent of the banks will have officers make regular calls on customers, 46 per cent will conduct staff meetings on customer and public relations. Programs of educational talks before schools, clubs and other organizations are planned by 26 per cent of the banks included in the survey.

WESTMINSTER, Jan. 6.—Mr. and Mrs. Glenn Wells, of Orange, former local residents, called on friends in Westminster Thursday. A number from Westminster attended the races at Santa Anita Wednesday, including Mr. and Mrs. O. J. Day, Mr. and Mrs. Virgil Ferguson, Wandle Bealer, Mr. and Mrs. George Clough, Mr. and Mrs. Clyde Day and Miss Annabelle Day. The Days remained overnight as guests of Mr. and Mrs. Pat Foren at Beverly Hills.

Miss Annabelle Day, who has spent the three weeks at home from San Jose college, leaves Sunday for the north to resume her studies.

LA HABRA, Jan. 6.—Alexander Klein will preach at the La Habra Four Square Gospel church the evening of January 12. He will talk on "What the World Owes to the Jews."

Mrs. C. E. Netherton, sister of Mrs. S. L. Treff, a house guest at the Treff home over the holidays has returned to her home in Hillmar.

CLOSEUP and COMEDY

WHEN MARY CARLISLE WAS 15 SHE HAD TO GIVE UP HER SCREEN CAREER FOR A SHORT TIME BECAUSE HER FAMILY INSISTED THAT SHE RETURN TO SCHOOL ON ACCOUNT OF HER YOUTH.

JACK BENNY AND PAT O'BRIEN WERE SAILORS AT THE GREAT LAKES NAVAL STATION DURING THE WORLD WAR.

JOHN BOLES ONCE STUDIED MEDICINE AT THE UNIVERSITY OF TEXAS.

HOLLYWOOD HAPPENINGS

By PAUL HARRISON, Staff Correspondent

HOLLYWOOD, Jan. 6.—In black-and-white films, and on the stage, a lot of upstart stars have refused to play in scenes with babies or animals. This is because an audience will center its attention on a child or animal almost regardless of other action or spoken drama that's taking place.

Now, with color pictures coming in, there are dozens of new scene-stealers to contend with. Imagine, for example, a baby in a red dress playing with a spotted dog in a garden of yellow flowers set against a squared trellis and a bright blue sky. Chances are that half a dozen murders could be committed near the edge of the screen without ever being noticed by the audience.

Problems such as that are part of the worries of Henry Hathaway, who's directing "The Trail of the Lonesome Pine," first outdoor production in natural color. The trick is to make the sets look as realistic as possible and yet, by use of color, keep attention centered on the action.

He has made some interesting discoveries: Red, yellow, blue and white are natural scene-stealers. Red is the worst, and even a red rose will seize an audience's attention.

Anything pure white, even a pocket handkerchief, is likely to spoil a scene. Rectangles of light or color are bad, because rectangles psychologically are natural focusing points for the eye.

Philatelists

Film people collect everything from pipe matches to lamp posts, but a surprisingly small number go in for postage stamps. Alice White, Carl Brisson, Noel Madison, Adolphe Menjou and Director Al Green are the only really serious philatelists. Others say the hobby takes too much time.

Yes and No

Current Hollywood comedy: The bulletin board at the Warner studio advises employees that they can compete for \$25 prizes by thinking up titles for pictures. The second paragraph of the notice warns them that they'd better not do any thinking during working hours.

TUSTIN

TUSTIN, Jan. 6.—The Rev. O. J. Allard, of Cedar Falls, Ia., is enjoying a several days' visit with Mr. and Mrs. C. E. Hatch.

Mr. and Mrs. Thomas J. Dargan have moved from Long Beach to 121 North C street, Mrs. Dargan was Miss Elizabeth Kenyon.

Mr. and Mrs. D. A. Jacobs and son, and Mr. and Mrs. Charles Collins and daughter, of Los Angeles, were recent dinner guests of Mr. and Mrs. George Philippi, of Hewes avenue.

Mr. and Mrs. Millard Foster and children, Millard Jr., and Glennajean, of Newport road, returned Thursday from a week's vacation spent at Lake Arrowhead.

Mr. and Mrs. Will S. Hatch, of Arcadia, were recent dinner guests of Mrs. Hatch's parents, Mr. and Mrs. C. E. Hatch.

A group of young people who occupied the J. W. Sauer and Mrs. W. S. Suddaby cabins near Big Bear last week included the Misses Helen Paige, Virginia Lawrence, Hazel Oliphant, June Briggs and Mrs. Oliphant, John Sauer Jr., Charles Kiser, Wilford Stearns, Jack Connor and Richard Bassett.

Chester Stearns enjoyed the winter sports with a group of Boy Scouts at Camp Rokill.

Mr. and Mrs. R. C. Korff and son, Dick, are spending several days with Mrs. Korff's parents, Mr. and Mrs. J. M. Mills, in Long Beach.

Dr. and Mrs. Chester A. Day and son, David, and Herbert Walker were guests at a recent party in the home of Mr. and Mrs. William Stillman, in Yorba Linda.

Miss Eugenie Brown, of San Diego, is a house guest of the Rev. and Mrs. Calvin A. Duncan.

TALBERT

TALBERT, Jan. 6.—Mr. and Mrs. Joseph Betschart entertained two groups of guests in their home recently. Mr. and Mrs. Don Walker and two sons, living near Riverside and Mrs. Betschart's brother and sister-in-law, Mr. and Mrs. Arthur Hill, of Holtville. Mr. and Mrs. Betschart and Marjorie and Louis were entertained at dinner in the Dolf home near Santa Ana, Wednesday.

Mr. and Mrs. Tom Brady, of Commerce, Texas, cousins of Mrs. Sam Talbert, and an uncle, George Brady, of Imperial have returned to their respective homes. Mr. Talbert's brother-in-law and sister, Mr. and Mrs. Zine Crane, were visitors one day in the Talbert home.

Among local visitors at the rose tournament in Pasadena were Mr. and Mrs. Robert Giesler, Mr. and Mrs. Walter Giesler and Mr. and Mrs. Tom Giesler.

Mr. and Mrs. "Bud" Coker are the parents of a daughter, born Wednesday at their home near Talbert.

CHAMBER AIDS MAJOR BOWES PROGRAM HERE

Plans for proclaiming January 15 as "Major Bowes Day" in Santa Ana were being completed by chamber of commerce officials here today.

The chamber is planning to send a box of Valencia oranges to Major Bowes, who conducts a national amateur hour over the NBC chain, to tie in with the appearance of Major Bowes' Unit No. 7 at the Broadway theater here the night of January 15.

A telegram will be sent to Major Bowes, asking him to name Santa Ana as one of the honor cities where votes for the amateurs may be called in. This telegram will be sent by the chamber of commerce, Santa Ana, it is believed, will receive national publicity over the radio broadcasting system, through the gift and telegram.

Mayor Fred C. Rowland will be asked by the chamber to issue a proclamation setting January 15 aside as "Major Bowes Day" in honor of the event.

Ed Hall, chairman of the Santa Ana Chamber of Commerce publicity committee, is working with Manager Lester J. Fountain of the Broadway theater and Secretary Howard I. Wood of the chamber in making arrangements for the event.

FORMER PASTOR TO BE HERE TOMORROW

The Rev. Anna D. Britton, formerly pastor of the Santa Ana Four-square church, now general supervisor of the Dominion of Canada for the Four-square Gospel, will speak at the Santa Ana church, Fairview and Sycamore streets, Tuesday evening at 7 o'clock.

Announcement of her appearance, accompanied by her Canadian delegation, was made by the Rev. W. H. Archer, pastor of the local church.

SEAL BEACH

SEAL BEACH, Jan. 6.—The wedding of Mrs. Bessie Hazel and Cluster A. Reed occurred January 1 at noon in Long Beach. Mr. Reed is the representative of the Home Ice company in Seal Beach, while Mrs. Reed has been conducting a grocery at Ocean avenue and Fourteenth street. Mr. and Mrs. Reed have bought a new home near Smeitzer and will make their home there.

Miss Georgia Pickett, who has been in San Francisco for several months, has returned home. Her sister, Genevieve, is quite ill at their home on Fourteenth street.

Jack Johnson has returned to his work in the oil fields at Kettleman Hills following a visit with his parents, Mr. and Mrs. C. M. Johnson, of Elvert street. The Crowther building on Main street, occupied by the Green Parrot confectionery, has been improved by a stucco facing. One empty room in the building has also undergone extensive repairs.

BUST THAT COLD WIDE OPEN

Don't Merely Check It With Half-Way Measures!

Deal with a cold in earnest. Deal with it in seriousness. A cold is too fraught with danger to be taken lightly. Many a case of flu and pneumonia has started with nothing more than a "common cold."

Treat a cold for what it is—an internal infection. Therefore, internal treatment.

Treat a cold with a preparation made for colds and not a "cure-all." Grove's Laxative Bromo Quinine is your answer to a cold.

It is a cold tablet, made expressly for the treatment of colds and not for all kinds of ailments.

It is internal in effect and it does four important things.

First, it opens the bowels, an important step in overcoming a cold.

Second, it checks the infection in the system, a vital step.

Third, it relieves the headache and fever.

Fourth, it tones the system and helps fortify against further attack.

These are the four effects a cold calls for and in Bromo Quinine you get them all in the form of a single tablet.

Play safe—make sure! The moment a cold threatens, go right to your druggist for a package of Grove's Bromo Quinine. Begin taking the tablets immediately, two every four hours, until relieved.

Prompt use of Bromo Quinine will often stop a cold in 24 hours and that's the speed of action you want.

Bromo Quinine contains nothing harmful and is safe to take. Ask for it with your mind made up that you're not going to accept a substitute.

RAY CARTWRIGHT QUITS TRACK IN 'OLYMPIC YEAR'

"Olympic Year" usually brings out a mass of athletes in America who ever ran a mile under 4 minutes, vaulted more than 11 feet or won an ice cream cornucopia in a three-legged race at a Sunday school picnic.

Even the once peerless Charley Paddock always gives his aging tendons a menacing tweak or two, and reproduces his famed "flying finish" for the sake of the photographers.

But the charm of "Olympic Year," and the glittering prospect of a voyage to Berlin with Uncle Sam's finest, fails to stir the "inner man" of Ray Cartwright, best half-mile runner produced by Santa Ana.

Right in his prime, Runner Cartwright has Ray Cartwright definitely and finally quit the cinder path.

He will not return to the University of Southern California for his junior season of 1936, nor will he seek a spot on the U. S. Olympic team this summer.

Cartwright and Vincent Welch have opened a super-service station at First and French streets, and Cartwright says from now on he's a business man, not a half-mile.

"I've seen too many fellows come out of college with a lot of medals but no job," says Ray Cartwright. "We're doing pretty well at our shop. Why should I throw it out the window now to race after the rainbow?"

Anyway, Cartwright probably will be married later this year, his reported fiancée being a Santa Ana junior college lass. When I asked Ray about the story he didn't deny it; in fact, he said it would be ok if I said so in print.

Cartwright is the second best college half-mile runner on the coast. Last year he gave his best performance toward the end of the season, especially in the California Intercollegiate when he finished a stride behind Ross Bush of S.C. in 1:53. Ray also won his spurs back east in the I.C.A.A. preliminaries. He threw a shoe on the first turn so had to go three-fourths of the route hopping along like a crippled hen. He qualified, at that. But he chewed up his foot so badly he had to retire the next day.

One of the sweetest races Cartwright ever turned in was as a Saint in the Southern California prep meet of 1932. Judging his pace perfectly, Cartwright ran such good ones as Estel Johnson and Fred Rathbun into the ground on the last lap and won, going away in 1 min. 55.5 seconds. That still stands as a Southern California high school record.

Another athlete, Curt Youel, becomes a father. Of course, it's a girl, Mrs. Youel, the former Dorothy Johnson of Santa Ana, is up and around again after giving birth to Miss Susan Youel. Curt is now coaching at Inglewood high school.

"Casey" goes to bat again tonight, and it looks like he'll strike out again too.

This Casey is Casey Columbo, the wrestler, who meets Vincent Lopez of the champion Lopez's, at the Orange County Athletic club. Columbo is a "hero" and a "rascal" who really can wrestle. Lopez is a "villain." Right customarily prevails on the mat. And some of the boys think tonight's the night for Lopez to be "took." But I'm stringing along with Lopez for awhile yet.

Is this an ill omen for the "Little Napoleon" of night baseball? An old derrick jointly owned by Joe Rodgers, manager of the Huntington Beach Oilers, burned down last night, throwing Senior Rodgers and his associates for an approximate loss of \$5000.

maintaining the same, Top Row turned the tables on the handicapper king in the Narragansett Special. He repeated in the Massachusetts Handicap, lugging 116 pounds to 138 for his rival.

Top Row won't be in the Santa Anita Handicap this year at the poundage he enjoyed last February. Then he was classed with Ted Clark and other light-weight sprinters, and came from sixteen to be beaten out of third place by a nostril.

Discovery gave Top Row chunks of poundage during the eastern campaign, but young Alfred Gwynne Vanderbilt's important money-getter is far above the so-called champion's weight of 126 pounds, and Top Row is beginning to approach that point.

Thus, if Discovery has tailed off any since the fall, Top Row may be the one returning east with the major share of the Santa Anita sugar.

Confident of breaking a two-year losing streak to Fullerton, Coach Reese Greene sends his varsity basketball team against the Reds here tomorrow afternoon at 3:15 in their annual encounter. There will be a Class B preliminary.

The five starting for Santa Ana will be the one that captured first honors at the Southern Counties prep tournament at Huntington Beach last month. Fullerton was ousted by Compton in the semifinals.

Built around tall Ed Eastman, center, the Saints at last present a formidable array of shooters. Eastman was selected on the all-star team at the tournament as was Bill Flood, guard. Erwin Youel and "Big Bill" Milligan, will occupy the forward posts, with the Bill Flood-Sam Lockhart combination of guards.

RIVERSIDE, Jan. 6. — Jimmy Hines, youthful Garden City, L. I. pro joined big-money winners of the Southern California winter golf season yesterday when he captured the \$8000 Riverside Open with an eight-stroke lead over the field.

Hines found the Victoria club course to his liking as he made the four rounds in 276, 12 strokes under par, to win \$750 first money.

Second place money of \$475 was taken by Harold McSpaden of Kansas City with an aggregate score of 284, two strokes ahead of the third place tie between Byron Nelson, unattached, and Orville White of St. Louis, who divided \$600 for ending with 286's.

Hines virtually clinched first place Saturday when he registered the lowest score of the tournament, a brilliant 66, six strokes under par.

COLUMBO MAY DETHRONE LOPEZ

GIANTS TANGLE HERE FOR MAT CHAMPIONSHIP

TONIGHT'S CARD

Vincent Lopez, 218, vs. Casey Columbo, 212, best two out of three falls, one hour time limit. For California heavyweight title.

Len Macaluso, 216, vs. Herb Freeman, 220, one fall, 30 minutes.

Milo Steinborn, 215, vs. Roughhouse Carone, 208, one fall, 30 minutes.

Ahmet Yousoff, 206, vs. Herb LaRoque, 208, one fall, 30 minutes.

Boasting a brilliant winning streak which he started here six months ago and climaxed last week with a straight-fall triumph over Kuman Kudo, handsome Casey Columbo makes his bid for world recognition tonight at the Orange County Athletic club when he meets Vincent Lopez, California's nominee for the wrestling championship. It will be a three-fall, one-hour time limit battle.

Topping a four-bout card, the match marks wrestling's 1936 premiere in this section, and according to officials, including the astute Orange County mat maestro, Sam Sampson, it may set an attendance record likely to last throughout the year.

Six months ago Columbo was practically unknown. He still is being kept out of the big wrestling

centers; but his fame as a top-notch has spread until today he is being sought in every section of the country.

Nick Lutze claims Columbo is the greatest defensive wrestler he has met in ten years, openly predicts Casey will be listed along with the country's 10 leading heavyweights before the year 1936 is tossed to the mat.

Lopez' rise to fame and fortune reads much the same as Columbo's. A year ago Vincent also was unknown. He wasn't given a chance to win Lou Daro's international tourney, which attracted such men as Chief Little Wolf, Ernie Dusek, Ed (Strangler) Lewis and Danno O'Mahoney, yet he surprised by winning. Lopez' purse was \$10,000.

Tonight Lopez runs into a young fellow who has everything to win and nothing to lose; a fellow who boasts he has perfected a defense for Lopez' famed "elbow punch" and believes flying tackles will ruin the 215-pound Mexican.

While the odds may favor the champion, undoubtedly Columbo will enter tonight's battle the sentimental favorite, but regardless of the outcome fans should see a corking wrestling match.

Famed as a former All-America football star in 1931, Len Macaluso, of Colgate, will attempt to fly the figures on Hopkins. "Bless my life! That fellow must go. Wonder if Tom Yawkey up in Boston would like him? I must call Tom. Good gracious, we can't have that fellow around here."

Yawkey undoubtedly would take Hopkins, because Mr. McGillicuddy seems able to sell the Boston Boy anything that's expensive enough. But if he didn't Mr. McGillicuddy would work out a trade with Scotland whereby Scotland would get Hopkins and the United States would get Harry Landolt, the freight-wig concession at Loch Ness during the monster season, and \$200,000 in cash.

Henry Morgenthau, secretary of the treasury most likely would sail on the same day as Hopkins, into Finland in exchange for Premier Toivo Makael Kivimaki, the tight-fisted little fellow who keeps Finland's money matters on the straight and narrow. That is, of course, if Yawkey didn't buy Morgenthau. Yawkey always gets first shot at Mr. McGillicuddy's bargains.

If, when Premier Kivimaki arrived, he fell into the spending habit and became too expensive, Mr. McGillicuddy would work out a swap with Iowa whereby the premier would go to Des Moines in exchange for Senator L. J. Dickinson. This would constitute a great saving for Senator Dickinson is a tight man with the money. He wouldn't be in charge a week before he'd have Roosevelt turning out all the White House lights at 9 p. m. All except one, that it. One would have to be left burning on the porte cochere so John (Barney Oldfield) Roosevelt wouldn't run over it when parking his car.

The citizens of Washington might not appreciate Mr. McGillicuddy coming in and spoiling their show with trades and sales, but that wouldn't bother Mr. McGillicuddy.

The citizens of Philadelphia didn't like it when the old boy first broke down the Athletics in 1914, but he went right ahead building another outfit to tear apart. The Washingtons probably would raise a devil of a squawk when Mr. McGillicuddy swung a deal sending Roosevelt to Palo Alto for three utility "grass roots" and four sets of commissions which never batted more than .250 in an earlitz trip to the big leagues.

Let's stop before we get somebody mad.

Yosemite Valley, Jan. 6.—Casting directors of Metro-Goldwyn-Mayer studio today were examining screen tests taken by James ("Monk") Moscrip, All-America end of the Stanford football team, with a possible film engagement awaiting the west's leading goal-kicker.

The tall football player is to be given several more tests within the next few weeks, coming here from Palo Alto.

Film executives said Moscrip's definite features registered well and later tests would bring out whether he could act.

Moscrip was nervous when he took the test Saturday and had Ernie Nevers, Stanford assistant coach, accompany him to the studio for moral support as he put grease paint and powder on his face.

ARCADIA, Jan. 6.—Sixty-nine of the nation's leading three-year-old horses have been nominated for the \$25,000-added Santa Anita Derby, to be run February 15, Racing Secretary Webb Everett disclosed today.

Heading the list of entries for the race expected to give a line on leading candidates for the Kentucky Derby were William Zeigler Jr.'s Wha Hae, T. C. Worden's Manasco and Nedrow, Milky Way farm's The Fighter, Green-tre stable's Galsac and Mrs. Silas B. Mason's He Did and Valerietarian.

California-bred horses nominated included Alexander Panteras, Lloyd Pan and Rodney Pan, H. T. Griffen's Margaret O'Neil and Joe E. Brown's Barnsley.

McLemore Shaken But Picks Champs Of '36

By HENRY McLEMORE (United Press Staff Correspondent)

MIAMI, Fla., Jan. 6.—On New Year's Day I picked with almost unbelievable vision, S. M. U. over Stanford; L. S. U. over T. C. U. and Ole Miss Catholic university for a clean sweep of zeros.

That is almost enough to shake a man's morale. It did shake mine so badly that I knew the only way to recover it was to prophesy right back again. Like an airplane pilot who has crashed and goes right back up in the air again, I have spent the time since the turn of the year preparing another batch of prophecies. With my perfect record of picking winners last year (except in such minor sports as baseball, football, tennis, golf and fighting) I could not afford to let one bad day this year break my heart, even though it did break my pocketbook.

Here are my three-star specials for 1936:

Tennis: The U. S. L. T. A. will have a good financial year largely because the Australian Davis Cup team will play in this zone and defeat the American team thus saving the expense of sending our own boys to Europe to get licked.

Allied States will run his No. 1 American ranking but not his singles championship. Helen Jacobs will

Old Mr. Mack Could Balance U. S. Budget

By HENRY McLEMORE (United Press Staff Correspondent)

CORAL GABLES, Fla., Jan. 6.—If the gentlemen in Washington really are serious about balancing the budget, they might do a lot worse than to bring in Mr. Cornelius McGillicuddy of the Philadelphia Athletics and let him try his gifted hand at making both ends meet.

It's surprising that the government hasn't called on the services of Mr. McGillicuddy, nee Connie Mack, for while he is only a baseball man his record as a financier is amazing. The beauty of Mr. McGillicuddy as a financier is the simplicity of his system. It is founded on but one rule—sell, at a tremendous price, those gents who cost you too much money. But only after you have enjoyed their services during their most productive years.

Whenever Mr. McGillicuddy needs any ready scratch he places a player or players on the block and sells to the highest bidder. And always his sales bring him bundles of money and rid him of players whose monthly checks gave him the shivers. Thus he wins at both ends. His latest auction brought in \$400,000 for players who cost him under \$30,000.

Mr. McGillicuddy could save millions for the tax-payers in Washington. Our guess is that one week after he had been in Washington he would have made a check on the boys who were costing too much money and started plans for their sale or trade. Harry Hopkins, the Works Progress administrator, probably would be the first to go. Mr. McGillicuddy would have no part of a man who cost \$4,000,000,000.

"Bless my life! Mr. McGillicuddy would exclaim when he saw the figures on Hopkins. "Bless my life! That fellow must go. Wonder if Tom Yawkey up in Boston would like him? I must call Tom. Good gracious, we can't have that fellow around here."

Yawkey undoubtedly would take Hopkins, because Mr. McGillicuddy seems able to sell the Boston Boy anything that's expensive enough. But if he didn't Mr. McGillicuddy would work out a trade with Scotland whereby Scotland would get Hopkins and the United States would get Harry Landolt, the freight-wig concession at Loch Ness during the monster season, and \$200,000 in cash.

Henry Morgenthau, secretary of the treasury most likely would sail on the same day as Hopkins, into Finland in exchange for Premier Toivo Makael Kivimaki, the tight-fisted little fellow who keeps Finland's money matters on the straight and narrow. That is, of course, if Yawkey didn't buy Morgenthau. Yawkey always gets first shot at Mr. McGillicuddy's bargains.

If, when Premier Kivimaki arrived, he fell into the spending habit and became too expensive, Mr. McGillicuddy would work out a swap with Iowa whereby the premier would go to Des Moines in exchange for Senator L. J. Dickinson. This would constitute a great saving for Senator Dickinson is a tight man with the money. He wouldn't be in charge a week before he'd have Roosevelt turning out all the White House lights at 9 p. m. All except one, that it. One would have to be left burning on the porte cochere so John (Barney Oldfield) Roosevelt wouldn't run over it when parking his car.

The citizens of Washington might not appreciate Mr. McGillicuddy coming in and spoiling their show with trades and sales, but that wouldn't bother Mr. McGillicuddy.

The citizens of Philadelphia didn't like it when the old boy first broke down the Athletics in 1914, but he went right ahead building another outfit to tear apart. The Washingtons probably would raise a devil of a squawk when Mr. McGillicuddy swung a deal sending Roosevelt to Palo Alto for three utility "grass roots" and four sets of commissions which never batted more than .250 in an earlitz trip to the big leagues.

Let's stop before we get somebody mad.

BAD WEATHER ENDS HOOPER CUP SERIES

Yosemite Valley, Jan. 6.—Winter sports squads of four California colleges and universities left Yosemite last night, their annual competition for the Hoover Cup unfinished because of inclement weather.

A scheduled hockey playoff between Loyola and University of Southern California teams was prevented. It originally was to have been played Saturday night.

Loyola defeated U.C.L.A. Friday night, winning the right to meet the Trojans. Don Gaskell, U.S.C. won a speed-skating race earlier.

RACING

ARCADIA, Jan. 6.—Sixty-nine of the nation's leading three-year-old horses have been nominated for the \$25,000-added Santa Anita Derby, to be run February 15, Racing Secretary Webb Everett disclosed today.

Heading the list of entries for the race expected to give a line on leading candidates for the Kentucky Derby were William Zeigler Jr.'s Wha Hae, T. C. Worden's Manasco and Nedrow, Milky Way farm's The Fighter, Green-tre stable's Galsac and Mrs. Silas B. Mason's He Did and Valerietarian.

California-bred horses nominated included Alexander Panteras, Lloyd Pan and Rodney Pan, H. T. Griffen's Margaret O'Neil and Joe E. Brown's Barnsley.

Year-Old Wedding Secret Is Out

When Wayne V. Millner, All-American end, goes back to Notre Dame U. to complete work for his degree, he'll be facing congratulations on his marriage and parenthood at the same time, for it has only recently been learned that he married Agn M. Perry of Peabody, Mass., a year ago and that he already is a father. The young couple are pictured exchanging Christmas gifts at their home in Salem, Mass.

Coaches Bill Cook and Al Reboin today set next Monday as the official date for Santa Ana Jaysee rugby aspirants to report. Because of the enthusiasm shown by Don athletes over the prospect of having a rugby team, the Jaysee mentors had to change the opening date from in March to January. As most of the Southern California schools that intend to have rugby are already practicing, Reboin thinks it advisable for the Dons to "get going."

Reboin is dicker for nocturnal contests with the Occidental and U. C. L. A. varsity and Pasadena Jaysee.

His schedule already lists games with the U. S. C. varsity and Pasadena and Hollywood independent outfits in addition to engagements with Eastern conference members.

Junior College Trackmen Hold First Workout

Although the cinder season doesn't get under way for nearly a month, Santa Ana Jaysee trackmen today were limbering up at Poly field.

Prospects are said to be better than usual this season and Coach Bill Cook expects to have more than 30 men in suit before next week.

MRS. MOODY WILL TRY FOR 'SUSTAINED MOTION' MARK

SAN FRANCISCO, Jan. 6.—Helen Wills Moody, who staged one of 1935's outstanding sports comebacks by winning the Wimbledon tennis championships, today outlined plans for a new world record attempt.

Teamed with Howard Kinsey, one-time Davis Cup player, now a San Francisco professional, she will seek to establish a world mark for keeping a tennis ball in sustained motion.

Kinsey believes they will be able to volley the ball back and forth across the net 2000 times before breaking sequence. They will not "baby" their strokes, he said, but will exchange drives and chops of moderate speed and minimum effort.

Mrs. Moody anticipated that challengers from throughout the United States and Europe will appear in the wake of their "marathon," and that the pat-for-pat practice will prove an interesting way of keeping in condition.

The attempt, Kinsey said, probably will take place some time this week on the California Tennis club courts, telescope on Mount Polomar.

VOTE BAER BIGGEST POMONA, CITRUS ON FLOP OF PAST YEAR

NEW YORK, Jan. 6.—On the night of June 13 in Madison Square Garden Bowl, the greatest surprise and the greatest disappointment in 1935 sports were enacted.

The surprise came when Jimmy Braddock, a 10-1 underdog in the betting, outpointed Max Baer in the 15-round fight for the world heavyweight championship. For that feat, Braddock today earned the votes of 150 of 185 sports editors who participated in the United Press poll as 1935's most startling performer.

Second to Braddock as the most surprising athlete of the year was Wilmer Allison, who upset Fred Perry in the semi-finals of the U.S. tennis championships.

To Baer, who had been hailed as a great champion, went the nomination of 173 writers for greatest flop. They called him anything from a mere disappointment to a "yellow palooka."

Runner-up to Baer in the disappointment column was Al Simmons, Chicago White Sox outfielder. Simmons, who was traded to Detroit recently, received six votes for his failure to bat better than .267.

Only three other athletes besides Baer and Simmons got into the disappointment list. Babe Ruth was given four votes for his failure to shine with the Boston Braves; Jesse Owens, track star, received one for failing to star in the National A.A.U. outdoor games, and Gene Sarazen, golfer, was given a vote for not living up to expectations.

Peterson Chased; Petrol Gas Loses

Catching Pitcher Bill Peterson off form, the Inglewood Merchants drubbed Petrol Gas of Garden Grove, 9-3, at Inglewood Sunday. Inglewood scored in the first inning and kept pecking away at Peterson until he was relieved by Gordon Mallett in the seventh. Mallett gave up one run in the last two rounds. The score:

R. H. E.
Petrol Gas 3 11 4
Inglewood 9 13 0
Batteries: Petrol Gas—Peterson, Mallett and Starkey; Inglewood—Drysedale and Bladel.

JAYSEE BEGINS RUGBY MONDAY TO MEET TROY

Coaches Bill Cook and Al Reboin today set next Monday as the official date for Santa Ana Jaysee rugby aspirants to report. Because of the enthusiasm shown by Don athletes over the prospect of having a rugby team, the Jaysee mentors had to change the opening date from in March to January. As most of the Southern California schools that intend to have rugby are already practicing, Reboin thinks it advisable for the Dons to "get going."

Reboin is dicker for nocturnal contests with the Occidental and U. C. L. A. varsity and Pasadena Jaysee.

His schedule already lists games with the U. S. C. varsity and Pasadena and Hollywood independent outfits in addition to engagements with Eastern conference members.

Junior College Trackmen Hold First Workout

Although the cinder season doesn't get under way for nearly a month, Santa Ana Jaysee trackmen today were limbering up at Poly field.

Prospects are said to be better than usual this season and Coach Bill Cook expects to have more than 30 men in suit before next week.

KENNEDY'S 75 WINS BEST BALL TOURNEY

Returning to the links for the first time in four months, Don Kennedy, Santa Ana's junior golf champion of Southern California, paired with J. K. McDonald to win the week-end best ball sweepstakes at the Santa Ana Country club.

Kennedy and McDonald won by one stroke with a 71-4-67 to the 74-6-68 of L. W. Bemis and Ed Holmes Jr. and the 76-8-68 of C. R. Furr and Harry Overmier. Kennedy contributed a 75, three over par, indicating he is nearing the form that made him the junior golfing sensation of 1935.

Unusually spirited competition featured Sunday's mixed foursomes in which ties resulted for first and third places. Mrs. L. J. Bushard and Dean Campbell, 93-14-79, were doublecrossed by Mrs. B. W. McClure and J. L. McFadden, 98-19-79. Mr. and Mrs. E. H. Gunther, 95-15-80, and Mrs. Paul Hall and H. S. Wright, 90-10-80, also finished in a dead heat.

E. H. Gunther defeated Don Harwood, 2 and 1, and became the country club's first flight titlist. Final rounds are scheduled in the other flights this week.

BUSINESS PICKS UP

In place of the 138 pari-mutuel machines operating at Santa Anita track last year, 200 are taking care of bets this season.

Text Of President Roosevelt's Budget Message

WASHINGTON, Jan. 6.—Following is the text of the president's message transmitting the 1937 budget to congress:

Pursuant to provisions of law I transmit herewith the budget of the United States government for the fiscal year ending June 30, 1937, together with this message which is definitely a part thereof. The estimates have been developed after careful analysis of the revenues, obligations, and reasonable needs of the government, and I recommend appropriations for the purposes specifically detailed in the tables which follow.

No mortal is permitted unflinchingly to predict the future.

This is particularly true of estimates which relate to the monetary values of property and services in a world of nations torn by dissension, by violent price fluctuations, and by forebodings of the future.

It is, therefore, a cause for congratulation within our own nation to realize that a consistent, broad national policy, adopted nearly three years ago by the congress and the president, has thus far moved steadily, effectively, and successfully toward its objective.

In March, 1935, in spite of substantial increases in tax rates during the preceding administration, federal tax receipts had fallen to such a low level that even normal expenses of government could not be carried on without creating a mounting deficit. In addition to normal expenses the problem of millions of starving unemployed called for a relief program which obviously would greatly increase that deficit.

National Policy

The national policy which we then adopted sought to stop the downward economic spiral by taking simultaneous action along a dozen fronts. The chief objectives were: to make bank deposits secure, to save farms and homes from foreclosure, to start public works on a large scale, to encourage home building, to increase farm crop values, to give useful work instead of a dole to the needy unemployed, to reduce all interest rates, to increase foreign trade in both exports and imports, to extend government credit to railroads and other privately owned activities, to reduce unsound and generally disastrous speculation, to eliminate starvation wages, to seek a higher level of values, and then to maintain those values.

On the part of the federal government the many legislative acts creating the machinery for recovery were all predicted on two interdependent beliefs. First, the measures would immediately cause a great increase in the annual expenditures of the government—many of these expenditures, however, in the form of loans which would ultimately return to the treasury. Second, as a result of the simultaneous attack on the many fronts I have indicated, the receipts of the government would rise definitely and sharply during the following few years, while the greatly increased expenditures for the purposes stated, coupled with rising values and the stopping of losses would, over a period of years, diminish the need for work relief and thereby reduce federal expenditures. The increase in revenues would ultimately meet and pass the declining cost of relief.

This policy adopted in the spring of 1933 has been confirmed in actual practice by the treasury figures of 1934, of 1935, and by the estimates for the fiscal years of 1936 and 1937.

Predicts Success

There is today no doubt of the fundamental soundness of the policy of 1933. If we proceed along the path we have followed and with the results attained up to the present time we shall continue our successful progress during the coming years.

Stated even more concisely, we can look forward today to a continued reduction of deficits, to increased tax receipts, and to declining expenditures for the needy unemployed. Let it be remembered that the major part of the increase in tax receipts anticipated for 1937 over 1936 from comparable sources is coming from old tax schedules. The only changes made last year in the tax schedule were, first, the elimination of the tax on checks and, secondly, the slight increases in taxes on large incomes, on large estates, and on capital stock and excess profits taxes. By the elimination of the tax on checks we lost 40 million dollars in revenue and the slight increases on estates and on personal and corporate incomes will add only about 222 million dollars to government receipts this coming year. I emphasize that the great bulk of increased government income referred to above results from increased earning power and profits throughout the nation and not from the new taxes imposed by the revenue act of 1935.

Finances Better

Final success will depend, of course, on the strength of the efforts put forth by the employees of the United States greatly to increase the number of persons employed by them. The finances of the government are in better condition than at any time in the past seven years. I say this because starting with the autumn of 1933 tax receipts began a steady and alarming decline while, at the same time, government expenditures began a steady rise; today, tax receipts are continuing a steady climb which commenced in the summer of 1935, whereas budget estimates for the next fiscal year will show a decreased need for appropriations.

The credit of the government is at its highest. The average of the business men of the nation stand ready to do their share. It is to be hoped that motives and attacks which spring only from the desire for political or financial power on the part of a few will not retard the steady progress we are making.

Our policy is succeeding. The figures prove it. Secure in the knowledge that steadily decreasing deficits will turn in time into steadily increasing surpluses, and that it is the deficit of today which is making possible the surplus of tomorrow, let us pursue the course that we have started.

Submits Budget

In my budget message of January 1935 I said, "I am, however, submitting to the congress the budget for the fiscal year 1936 which balances except for expenditures to give work to the unemployed. If this budget receives approval of the congress, the country will henceforth have the assurance that with the single exception of this item, every current expenditure of whatever nature will be fully covered by our estimates of current receipts. Such deficit as occurs will be due solely to this cause, and it may be expected to decline as rapidly as private industry is able to re-employ those who now are without work."

In looking at the revised estimates for the fiscal year 1936 I am more than pleased to find that we have not only accomplished what I said we would in my budget message of a year ago but that the results with respect to both expenditures and receipts have surpassed expectations.

1. My budget message of January 1935 forecast that the expenditures for the fiscal year 1936 would be \$4,520,000,000. Our most recent estimate shows that our expenditures will be \$7,645,000,000, or \$3,125,000,000 less than originally forecast.

2. Receipts were estimated in January 1935 at \$3,992,000,000. At the present time it appears that they will be \$4,411,000,000, or an increase of \$419,000,000.

3. The message of January, 1935, forecast a gross deficit of \$4,520,000,000, and the most recent figures show that the deficit will be \$3,234,000,000, or a decrease of \$1,286,000,000.

This great improvement of the fiscal outlook during this present year has been brought about through policies which the congress and the president initiated in 1933 and which we have since maintained.

Now let us look at the budget for the fiscal year 1937:

To run all the regular activities of the government I will need a total of \$3,069,000,000. These regular activities include interest on the public debt, major public works, operations of the Civilian Conservation Corps, and agricultural benefit payments, but do not include strictly work relief items. I expect to pay for these regular activities with estimated receipts of \$5,654,000,000, leaving an excess of receipts of \$2,585,000,000. Out of this \$2,585,000,000 I will need \$850,000,000 for debt retirement, which will still leave \$1,735,000,000 of excess receipts over expenditures after having paid for all of the regular expenditures of the government plus debt retirement.

Relief Remains

The item for relief remains. Without that item the budget is in balance. To make today a formal budget estimate of the work relief necessary for work relief would be of necessity a difficult task. We have too recently reached our goal of putting three and one-half million people at work; and the beneficial effects from this program and from increasing expenditures on public works cannot be foretold as accurately today as it can two months from now. Furthermore, employment by private industry continues to show substantial gains over the figures of a year ago. It is reasonably certain that the total appropriations for work relief during the fiscal year 1937 will be far less than during the current fiscal year. It is estimated in this budget that expenditures for recovery and relief out of unexpended balances of previous emergency appropriations will amount to \$1,103,000,000. Including therefor the estimated gross deficit for 1937 without an estimate for additional work relief, is less than the gross deficit for 1936 by \$2,136,000,000. I do not anticipate that the need for additional relief funds will be as great as that sum.

To state the case even more precisely, the gross deficit of the government in 1934 was \$3,959,000,000; in 1935, \$3,575,000,000; in 1936 (estimate), \$3,234,000,000; and in 1937 (estimated) but not including any new appropriations for work relief, \$1,093,000,000. Therefore, it is clear: First, that since June 30, 1934, the gross deficit of the government shows a steady decrease during the fiscal years 1935 and 1936. Second, that if work relief appropriations by this session of the congress were made up to a total of \$2,136,000,000, the total gross deficit for the fiscal year 1937 would not exceed that of 1934, which was the lowest gross deficit of the past three years. Therefore, it follows that by whatever amount the appropriation for work relief at this session is less than \$2,136,000,000, the gross deficit for 1937 will be less than the deficit for 1936 by the same amount.

Transmits Estimates

With this limitation and this excellent prospect clearly in mind, I am not including in this budget estimates for additional relief appropriations. I shall transmit such estimates with far greater knowledge and, therefore, with greater accuracy in sufficient time before the adjournment of this session to give the congress full opportunity to examine into the subject and to make the necessary appropriations.

The credit of the government is in sound condition. On October 15, 1935, war-time issues of first and fourth Liberty bonds were outstanding in the aggregate amount of \$5,300,000,000, bearing interest at an average rate of about 4 1/8 per cent. Today this entire amount has been refunded, of which about \$5,000,000,000 was exchanged for

long-term bonds bearing interest at rates ranging from 3 1/4 to 5 1/4 per cent per annum; \$1,900,000,000 was exchanged for treasury notes bearing interest from 1 1/4 to 3 1/4 per cent per annum, and the balance was paid in cash. The average rate on the securities issued to refund the Liberty bonds is less than 3 1/4 per cent per annum, a saving of approximately 1 1/2 per cent a year, or an annual reduction in interest payments of more than \$100,000,000 on these particular securities.

The average rate on the interest-bearing debt was on June 30, 1934, approximately 3.18 per cent, whereas on November 30, 1935, it had been reduced to 2.575 per cent.

If the congress enacts legislation at the coming session which will impose additional charges upon the treasury for which provision is not already made in this budget, it is important as we emerge from the depression that no new activities be added to the government unless provision is made for additional revenue to meet their cost.

Recommendations

The following recommendations are offered:

Appropriation transfer provisions.—The text accompanying a number of the estimates of appropriations has been drafted to include provision for transfer between appropriations between the same department. This provision will add a measure of administrative flexibility and will tend to promote economical execution of the program as a whole, and approval thereof by the congress is recommended.

Repeal amendment to Agricultural Adjustment Act.—During the first session of the seventy-fourth Congress the Agricultural Adjustment Act was amended so as to appropriate a sum equal to 30 per cent of customs receipts to the secretary of agriculture to encourage exportation and domestic consumption of agricultural commodities. No estimate of expenditure for account of this legislation is included herein; and repeal of the amendment is recommended for the following reasons:

By appropriating directly instead of authorizing an appropriation the amendment denies to the president the opportunity to consider the need and include appropriate estimates in the budget; and it denies to the congress the opportunity to review such estimates in their relation to the whole program of the government. The amendment violates the principle of the Permanent Appropriation Repeal Act of 1934, and of the Budget and Accounting Act of June 10, 1921. It is in conflict with sound administration in that it provides an advance for large annual expenditures without any attempt to coordinate income and expense. The amendment was passed in the last days of the session as a result of conference agreement and without the debate and consideration by the Congress which the import of the measure clearly justifies.

Emergency Agencies

Apportionments of appropriations.—Within the last few months control of the administrative expense of 20 emergency agencies has been vested in the Bureau of the Budget which after a general survey of all of them has effected substantial reductions in proposed expenditures for administrative purposes. Allowances for administrative expenses are subject to such adjustment as the status of the agency warrants.

The 30 agencies brought under the budget are the Agricultural Adjustment Administration; Commodities Credit Corporation; Electric Home and Farm Authority; Export-Import Bank (2); Farm Credit Administration; Federal Coordinator of Transportation; Federal Deposit Insurance Corporation; Federal Emergency Administration of Public Works; Federal Emergency Relief Administration; Federal Farm Mortgage Corporation; Federal Home Loan Bank Board; Federal Housing Administration; Federal Savings and Loan System; Federal Savings and Loan Insurance Corporation; Federal Surplus Relief Corporation; Home Owners' Loan Corporation; National Recovery Administration; Reconstruction Finance Corporation and Tennessee Valley Authority.

It is recommended that Section 2679 of the Revised Statutes be amended so as to bring all agencies of the government, including government-owned and government-controlled corporations, within the authority of the director of the budget with respect to apportionments of appropriations and of other funds available to them.

PART THREE

Review of fiscal years 1935 and 1936 and the fiscal program of 1937.

This review concerns itself with cash actually received and paid out by the treasury in the fiscal year 1935; and with the estimates of receipts, appropriations, and expenditures for the fiscal years 1935 and 1937. As elsewhere stated herein the program of regular activities for 1937 includes activities under the agricultural adjustment act and the civilian conservation corps (emergency conservation work), heretofore classed as emergency. Therefore the figures used herein for 1934, 1935, and 1936 have been adjusted to a comparable basis.

Fiscal year 1935.

Receipts.—Treasury receipts for the year ended June 30, 1935, were in excess of estimates prepared a year ago. Considering all sources except postal revenues, total receipts amounted to \$3,800,467,202, or \$29,000,000 above the estimate. Internal revenues, including processing taxes on farm products, produced \$3,277,690,023, exceeding the estimate by \$30,000,000. Customs receipts amounted to \$343,353,023, an increase over the estimate of \$56,000,000. Miscellaneous receipts, including realization on assets, estimated at \$227,134,181, fell short of the estimate by

\$48,000,000; the amount actually received under this item was \$179,424,140.

Expenditures.

Expenditures.—While actual receipts for the year were greater than anticipated, actual expenditures were less than the amount estimated by \$1,205,000,000. The aggregate of all expenditures was \$7,375,825,166, against an estimate of \$8,580,825,166. Approximately a billion dollars of this difference related to recovery and relief, and the regular agencies accounted for the remainder.

The total spent for recovery and relief was \$2,068,803,053, whereas the 1936 budget estimate was \$4,068,541,823, exclusive of expenditures made under the agricultural adjustment act and made by the civilian conservation corps. This difference is partly due to this fact:

When the budget for 1936 was prepared it seemed probable that the Reconstruction Finance Corporation, in all accounts except relief, would close the year with an excess of loans over repayments; and the amount of the net expenditures was estimated at \$558,000,000. However, because of improved business conditions, the demands for corporation assistance were so much less than estimated and the repayments of loans so much greater, that the corporation actually closed the year with net receipts of \$107,000,000. Therefore, the net difference between the estimated expenditure and the actual result amounted to \$665,000,000. Other agencies spent for recovery and relief \$337,000,000 less than estimated.

For the operation and maintenance of regular departments and establishments of the government, including the agricultural adjustment act and the civilian conservation corps, actual expenditures were \$2,912,537,509, against the estimate of \$3,104,961,174.

Debt Retirements

For statutory debt retirements there was expended \$573,558,250, and for interest on the public debt \$820,926,353, whereas the amount budgeted for these items were, respectively, \$572,568,000 and \$835,000,000.

Deficit and Public Debt.—The year closed with a gross deficit of \$3,575,357,964 instead of the estimate of \$4,869,418,338. After deducting the amount paid out for statutory debt retirement the net deficit was \$3,001,799,714. The increase in the total outstanding gross public debt was \$1,647,751,210, which figure is probably obtained by subtracting from the net deficit the decrease in the general fund balance, the excess of receipts from trust funds, increment on gold, et cetera, over expenditures from the same accounts, and the amount of retirement of national bank notes from the gold increment. As of June 30, 1935, the total outstanding gross public debt was \$28,700,892,624, while on June 30, 1934, it was \$27,053,141,414.

Fiscal year 1936.

Drawing upon the experience of the first six months of the current year it is possible to forecast with a fair degree of accuracy the results of financial operations for the whole 1936 fiscal period.

Receipts.—The same sources of income (excluding postal revenues) which a year ago were expected to produce receipts aggregating \$3,991,904,639 are now expected to produce a total of \$4,410,793,364.

Of the items comprising the whole, incomes taxes will develop \$1,434,112,000, or \$246,000,000 more than the 1936 budget estimate.

Miscellaneous internal revenue exclusive of processing taxes is now estimated at \$1,872,991,000, an increase of \$187,000,000. Receipts from customs are expected to reach a total of \$353,191,000, exceeding the original estimate by \$55,000,000. Other changes, some upward and some downward, result in the new estimate of total receipts at a figure of \$4,410,793,364, higher than show in the budget for 1936 which was presented a year ago.

Processing Taxes

The present estimate for processing taxes in 1936, included in above total, is in round figures \$529,000,000, as against the original estimate of \$570,000,000. Actual receipts for the five months ended November 30, 1935, totaled \$56,000,000, while up to that date approximately \$148,000,000 of due payments had been impounded as the result of preliminary court action.

It is pertinent to repeat here a statement appearing in the summation of the 1936 budget: "Estimates of receipts contemplate continued collection of processing taxes. If the attack which has been made upon this act is sustained we will have to face the problem of financing existing contracts for benefit payments out of some form of new taxes."

Two new taxes, namely, the bituminous coal tax and the taxes upon carriers and their employees, both representing recent legislation, will contribute \$39,000,000 not included in the original estimate of receipts for 1936. New taxes imposed by the social security act and the revenue act of 1935 will not produce any income until the fiscal year 1937.

Expenditures.—Indications are that expenditures including debt retirement during the present fiscal year will not reach the amount budgeted by approximately \$375,000,000; the total now foreseen is \$7,645,301,333, against the original estimate of \$8,520,413,509. Exclusive of debt retirement the total of expenditures is now estimated at \$7,093,276,338, while the original comparable figure was \$7,853,979,609. For recovery and relief the revised estimate of expenditures for the fiscal year 1936 is less than the original budget estimate by \$732,000,000, and expenditures for all regular purposes, including agricultural adjustment act and civilian conservation corps, will be less by \$137,000,000. Debt retirement will

require \$84,000,000 less than was budgeted and interest payments will be \$133,000,000 less. All regular expenditures, excluding service on the public debt, will be greater than the original budget estimate by about \$80,000,000.

The reduction in interest payments from the amount budgeted, as referred to above, was due largely to the refunding of first and fourth Liberty loan bonds aggregating \$5,200,000,000, at substantially lower rates of interest.

Deficit and Public Debt.—The revised estimates as set out herein show a gross deficit for the current fiscal year of approximately \$3,234,000,000, instead of the original budget forecast of \$4,520,000,000. After deducting the amount of statutory debt retirement the net deficit will be, in round figures, \$2,682,000,000. The gross public debt as at June 30, 1936, should not be greater than \$31,000,000,000. This estimate assumes that the working balance in the treasury on June 30, 1936, will be approximately the same as it was on June 30, 1935, namely, \$1,001,142,951. Obviously, if the working balance is less, the gross debt will be less; and if it is greater, the gross debt will be greater.

The foregoing figures are set out in the following table for ready comparison between budget estimates of a year ago and what are now considered probable.

Comparison of original and revised estimates, fiscal year 1936, adjusted to classification of expenditures in 1937 budget.

Budget Estimate

Jan. 1935 Revised Estimate

1. Receipts (excluding postal:

4. Gross public debt

34,238,823,656 30,933,375,017

Postal revenues for the fiscal year 1936 are now estimated at \$670,000,000 which is \$25,000,000 over the original estimate.

The fiscal program of 1937.

There is presented here a brief factual resume of the principal features of the budget for the fiscal year 1937, the details of which appear in subsequent text and tables. A few high points stand out and justify emphasis.

Substantial Decrease

Without impairing the ability of the government to carry on its normal functions and to prosecute those activities essential to continued recovery, the budget reflects a substantial decrease in the spread between income and outgo. This is consistent with the prediction made in the budget message a year ago and is possible because of progressive improvement in the economic status of the people. The state of national recovery is such that receipts from present tax sources on the basis of present rates appear adequate for financing the ordinary operations of the government in 1937, including service on the public debt; and no new or additional taxes are proposed.

Legislation enacted by the first session of the seventy-fourth congress makes it necessary to provide in the 1937 estimates new appropriation items aggregating \$667,000,000. This total will become approximately \$767,000,000 should the congress reject the recommendation, heretofore offered, for repeal of that part of the agricultural adjustment act which appropriates a sum equal to 30 per cent of customs receipts to the secretary of agriculture.

Legislation enacted by the first session also permits including in these estimates a total of \$769,000,000 of additional receipts, of which about 70 per cent will accrue under the bituminous coal conservation act, the act levying taxes upon carriers and their employees, and the social security act. It is worthy of note that but slightly less than 30 per cent of this increase will be derived under the revenue act of 1935. The act, it will be recalled, slightly increases taxes on individuals whose net incomes exceed \$50,000 per year; slightly increased estate taxes on larger fortunes with a corresponding increase in gift taxes; and in respect of corporations, decreased taxes on net earnings of small corporations while increasing in relative ratio the taxes on net income of larger corporations. The act also provided for an increase in taxes on capital stock and on excess profits of corporations. The effect of the excess-profits tax was to increase taxes on corporations which earned in excess of certain percentages of their adjusted declared value of capital stock.

Total Revenue

The total revenue expected to be produced by these taxes in the fiscal year 1937 will be only \$222,000,000 or 11 per cent, over the income, estate, gift, capital-stock, and excess profits taxes under the old law. Since collections in the fiscal year 1937 from income taxes and the estate tax only partially reflect the revenue act of 1935, the above amount will be somewhat larger on a full year basis.

A federal public-works program of \$405,000,000 is recommended to meet in part the development and

improvement required of the government, and as a proper federal contribution to work opportunity. While this program represents an increase of about \$187,000,000 over the amount for similar purposes for which the congress made specific appropriations for the current fiscal year, it is \$333,000,000 less than the total amount made available for federal public works in 1936, considering allotments made from emergency funds.

The sources attending the operations of the civilian conservation corps and the agricultural adjustment administration under emergency status justifies taking them into the budget and program for 1937 as regular activities, and the estimates of appropriations and expenditures have been prepared accordingly. The appropriation recommended for civilian conservation corps is for the period March 31, 1936, to March 31, 1937, and amounts to \$246,000,000, while the appropriation for the agricultural adjustment administration is for the full year and amounts to \$499,054,985.

Proposed Budget

The following table gives a clear picture of the main figures proposed in this budget and shows how they compare with similar figures for previous years.

(In millions of dollars)				
	Actual	Estimated	1934	1935
Income Taxes	1934	1935	1936	1937
818	1,099	1,434	1,943	
Miscellaneous Internal revenue	1,470	1,657	1,873	2,103
Processing taxes	353	521	529	547
Customs	313	343	353	354
Misc.	162	180	183	160
Taxes under the Social Security Act, the act levying taxes upon carriers and their employees, and the bituminous coal conservation act	39	547		
Total receipts	3,116	3,800	4,411	5,654

Orange County Farmers Get \$103,452 From AAA

SUGAR CONTROL PROGRAM NETS FARMERS CASH

Sugar control made the largest cash return to Orange county ranchers since the beginning of the federal commodity control program in May, 1933, according to figures obtained from headquarters of the Agricultural Adjustment Administration.

Farmers of the county have received a total of \$103,452.32 from all commodities coming under control of the AAA. Of that amount the sugar control feature of the program has returned \$84,078.41. In the fiscal year 1934-35 sugar control returned \$78,126.61. During the fiscal year farmers in this county received a total of \$96,631.76, including \$16,633.16 for corn-hogs and \$1861.99 for wheat in addition to the sugar return.

The return since June 30 of this year totalled \$6,688.11 of which \$5,951.80 was for sugar. The remainder of the total was listed as follows: wheat, \$2150.20 (began in May 1933); corn-hogs, \$17,233.71 (began in the fiscal year 1934-1935); and sugar, \$84,078.41 (began in the fiscal year 1934-1935).

Prayer Services Planned At Mesa

COSTA MESA, Jan. 6.—Beginning Tuesday the Community church will observe Prayer week, according to an announcement by the Rev. W. I. Lowe, pastor of the organization. The services will be held for four days, beginning at 7:30 o'clock each evening.

— Political Rumblings —

By PAUL VISMANN

Secret Operative XX come panting in with the information that the assembly bee is buzzing around a new bonnet. He says that whether or not the bee sits down and goes to work depends, as usual, on the old standby "if and when."

Fred May, of Tustin, is the man around whose bonnet the bee is said to be buzzing. It is said that May would consider entering the race for assemblyman from the Seventy-fourth district if Jimmy Utt, incumbent, decides to run for state senator, succeeding Sen. Nelson T. Edwards.

Should Jimmy decide to seek reelection to the assembly instead of going for the senatorial toga, so Secret Operative avers, May will hold his ambition in check. May was political manager for Utt in his first campaign for election to the assembly and will not oppose him.

May, it is said, has been considering seeking public office for 10 these many moons. Living in the Fifth supervisorial district, it was rumored that May had contemplated seeking election to that office in the last election. For some reason he neglected to hurl his hat into the ring after taking it off.

Maybe Secret Operative XX is wrong but it is an idea. With a movement on foot to recall three supervisors because of their stand on the recently defeated water bonds political observers are wearing their fingers down to the bone, scratching their heads and trying to name prospective candidates for the offices which may or may not be vacated.

Two of the offices, Supervisor of the First and Third district, do not hold much allure for prospective candidates. Both W. C. Jerome, in the First district and LeRoy Lyon in the Third, are nearing the end of their terms and will have to run for reelection this year. For that reason candidates for these two posts may be difficult to find.

In the Third district, however, the picture is different. John Mitchell, incumbent, was reelected at the last county election and his term still has approximately three years to run. It is quite likely that there will be several candidates who think they are just what the voters are looking for.

There are many men, observers point out, who are willing to be recall candidates to fill a three-year office term but would not care to make the race knowing that, within a few months, it will have to be repeated.

Also, it is being pointed out, the recall is not assured. There are petitions, seeking the recall, still to be signed and it takes a lot of names. Many people, it is said, while not agreeing with the supervisors mentioned for recall on their stand on the water situation, will not sign recall petitions because they believe a wholesale recall, at this time, would be bad publicity for the county.

There is one recall petition that will be circulated, according to current gossip, and it does not have the water bonds, except as a contributing factor, as the reason. That is the impending recall aimed at Supervisor N. E. West, of Laguna Beach.

Information obtained last week for a reliable but not official source, is to the effect that petitions asking for recall of Mr. West as supervisor from the Fifth district, will be in circulation before the middle of the month.

Rumor also names Dr. C. G. Huston, of Costa Mesa, as the probable candidate on the recall ticket.

The fact that West, through his

recent activities, has so alienated other members of the board of supervisors, is practically cut off at the pockets so far as advantages for his district are concerned. Backers of the reported West recall are said to feel that Fifth district roads can fall into awful disrepair in three years and that something had better be done about it.

With the Democrats scheduled to launch their 1936 campaign next Wednesday with Jackson day dinners all over the United States it might be proper to refer to the Orange county situation, as it concerns the Bourbon party (and I am not think of New Year's eve).

In California it is hoped that the Jackson day dinners will create a spirit of harmony between warring factions of the party. It is hoped that the Epic wing of the party and the stand-pat faction will clasp hands across the table and unite for the re-election of Franklin D. Roosevelt.

Today Democrats are being forced to decide which of two Jackson day dinners they will attend. The Orange County Democratic Central committee and the Young Democrats' Club of Orange County are uniting in sponsoring a dinner at the Elks club in Anaheim. On the same night Epic clubs of the county will sponsor a Jackson day dinner in Santa Ana.

The fact that two dinners are being sponsored is causing many observers to wonder whether or not the second one presages a split over Roosevelt and Production-for-Use.

Senator McAdoo has sounded the call for all Democrats to stick to Roosevelt in the forthcoming election and has offered a portion of the state delegation to the national convention. Sen. Culbert Olson, leader of the Epic wing, has demanded inclusion of a Production-for-Use plank in Roosevelt's platform and hinted at a bolt if the demand is ignored.

Observers wonder if the second dinner in Orange county, being planned by Mrs. Barbara Brooks, Percy Rogers and W. Maxwell Burke could be the first step toward the breach.

Members of the Democratic Central committee, elected by the Epic wing of the party, are selling tickets to the Anaheim banquet.

Christian Science

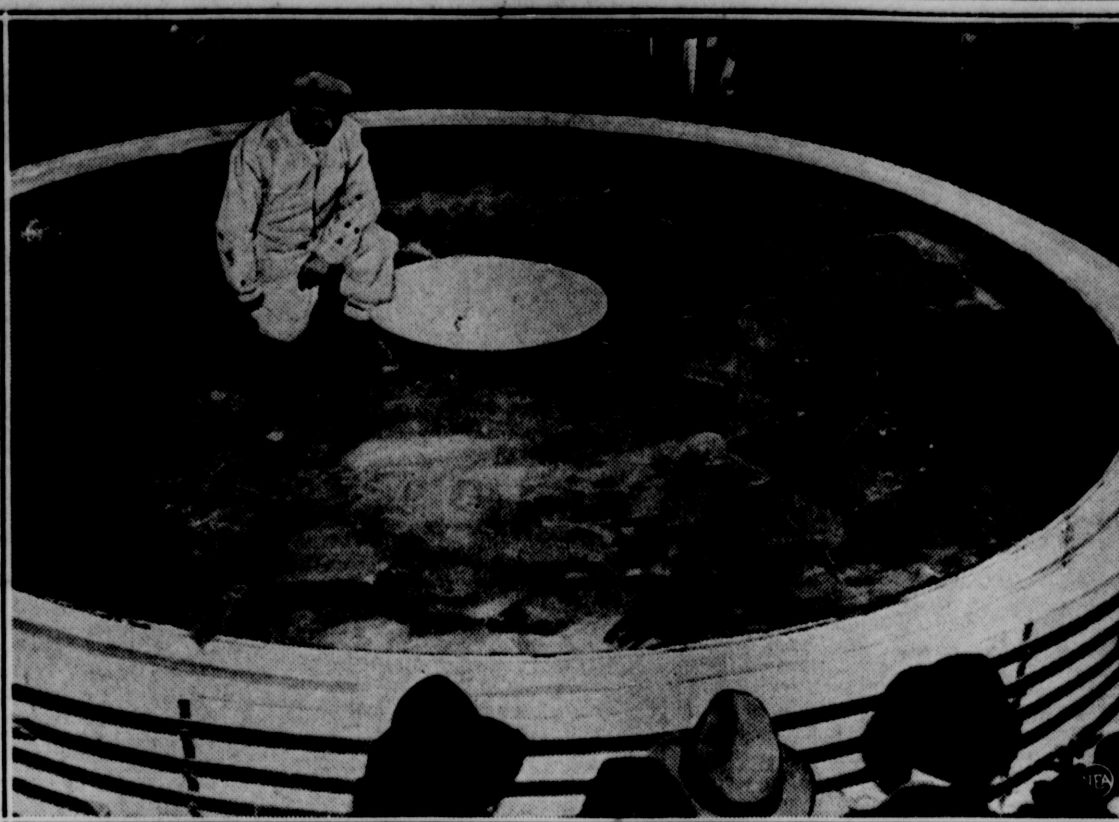

"Among the gods there is none like unto thee, O Lord;... For thou art great, and doest wondrous things: thou art God alone." These words of the Psalmist were the Golden Text in the lesson-sermon on "God" yesterday at the Santa Ana First Church of Christ, Scientist.

One of the Scriptural selections from Luke said of Christ Jesus: "And when he was demanded of the Pharisees, when the kingdom of God should come, he answered them and said, The kingdom of God cometh not with observation: neither shall they say, Lo here! or, lo there! for, behold, the kingdom of God is within you."

The lesson sermon included also this passage from "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "Jesus beheld in science the perfect man, who appeared to him where sinning mortal man appears to mortals. In this perfect man the Savior saw God's own likeness, and this correct view of man healed the sick. Thus Jesus taught that the kingdom of God is intact, universal, and that man is pure and holy."

BIGGEST LENS IS CAST

Removed from the annealing oven in which it had been slowly cooled for more than a year, scientists proclaimed the great 200-inch piece of glass, cast for grinding into a telescope lens, a flawless specimen. Grinding of the lens is expected to require nearly three years. A workman is shown inspecting the huge eye at Corning, N. Y., before preparing it for shipment to California, where it is intended for use in the world's biggest telescope on Mount Palomar.

FARM BUREAU OUTLINES TAX POLICY TODAY

Policies for the year are being determined today at a meeting of the Orange County Farm Bureau Tax Committee. The group went into session this morning under leadership of Dian R. Gardner, chairman, in the Farm Bureau assembly room.

In addition to determining the bureau's policy on tax matters for the year the committee will discuss resolutions adopted at the California Farm Bureau Federation conference and at the American Farm Bureau Federation convention. Whether or not similar resolutions in connection with tax matters will be introduced at the county farm bureau convention, to be held here January 20 and 21, will be decided today.

The principal business before the committee is the determination as to whether or not last year's tax policy shall be continued without amendment or, if changes are to be made, what the changes shall be.

Bond Voting Plan

Under the present policy the Farm Bureau favors the principal in bond elections of separating the votes of real estate owners from the votes of individual citizens, and requiring a 50 per cent majority of property owners and two-thirds majority of individuals to carry a bond issue against real property. Believes that gasoline taxes are as high as is practical and that their use should be limited to road and street purposes, including the annual principal and interest payments on highway bonds.

Opposes any additional property taxes for road purposes in Orange county, believing that gasoline taxes are sufficient to build and

maintain all county roads. Believes that the county is adequately served with roads and highways and declares that the maintenance of existing roads and highways should have the first call on funds and that needed new additions should only be made from surplus gasoline funds as these may accumulate from year to year.

The present policy of the organization as it applies to schools includes three points, as follows:

Education is a state function and American Farm Bureau Federation and California Farm Bureau Federation hold that it is also a national function.

School consolidation may result in greater school efficiency and an improved curricula but is not an economy measure.

The present variation in both elementary and high school costs indicates that much latitude exists for decreasing school costs without reducing educational results.

Balancing of governmental budgets through reduction in costs as opposed to new sources of revenue is included in the tax policy of the farm bureau, as it applies to government. Other points in the present tax policy referring to governmental functions include:

Governmental Functions
The principle that control of governmental functions be left in those units of government which are closest to the people, and that commissions and bureaus should be governed by representatives of the areas and people served.

Since the board of supervisors has very broad "home rule" powers conferred upon them through acts of the legislature and constitutional amendments, the bureau considers it their duty to exercise these powers to require all units of county government to work together in unifying and simplifying county governmental functions to the end that efficiency may be increased and costs decreased.

Three features of the 1935 program have not been completed and the committee will decide today whether or not the work shall be carried over into the new year. These uncompleted tasks include the fight to eliminate the rural road tax; reduction of county tax rates

GOOD TIRES FACTOR IN SAFE MOTORING

With the numbered dead from highway accidents increasing daily and in keeping with the national plea for safer driving, being voiced regularly, Robert Harness, local manager of the Western Auto Supply company reminded motorists today that well-treated tires are major safety factors.

Realizing road and automobile improvements have increased driving speeds greatly and placed greater strain on tires, engineers responsible for the Western Giant line of tires, distributed exclusively by Western Auto, have been keeping pace with the automotive industry's advances in constructing tires able to give protection to the motorists who operate the latest model cars, according to Harness.

"All Western Giant tires have been scientifically built to give maximum traction on any road and in all kinds of weather," Harness said. "The greater traction thus afforded means safer driving at all times. And Western Auto's low prices make it economical for everyone to join a nation-wide movement for safer driving by installing tires which insure many extra miles of safe traction." Harness invited motorists to visit the local store, Main and Second streets, to see the "extra-safety" tires on display.

PERILOUS AUTO TOLL SEEN

STONEHAM, Mass.—If automobile accidents continue at the present rate, one child in every family will eventually be killed or injured, according to Maurice J. Bonia, automobile production manager of the American Policyholders' Insurance company.

because of the return of publicity utility property to the county and a study of the costs of justice courts and rural policing.

STATIC SATURATES AUTOS IN TUNNEL

BOSTON, Jan. 6.—Motorists passing through Summer vehicular tunnel, under Boston harbor, were shocked recently.

The shock was caused by all-steel bodies of automobiles that acted as a Leyden jar in storing static electricity. Thus, when the motorist touched the hand of the toll collector in passing a coin, it completed a circuit and both felt the shock.

Now, attendants have been insulated with rubber-soled shoes and there have been no more shocking experiences.

COAL TO BE HARDENED

MONTREAL.—Construction on a plant where Nova Scotia coal will be converted by scientific processes into semi-anthracite will be on the outskirts of the city next year, it is announced.

YELLOW HOLLY BERRIES GROW AT SILVERADO

Ben Johnson, of Silverado Canyon has on his ranch what is thought to be the only bush of California holly in this vicinity which bears a bright yellow berry. The bush was discovered a few years ago by a man working for Johnson and it is hidden away in a small coulee where even Johnson had difficulty in locating it since its discovery.

With the exception of its fruit the yellow-berried shrub is identical with the ordinary California holly (*Heteromeles arbutifolia*). The berries are on display in town or Christmas berry. A cluster of the berries is on display in the Santa Ana library.

Country Club Calendar Promises Gayeties For January

With holiday festivities now definitely in the past, Santa Ana Country club members are settling down to the serene anticipation of the regular club social affairs scheduled for January.

Of course there will be various private parties at intervals during the month, as hostesses plan entertainment of intimate groups. But the customary club affairs will open Friday evening of this week when Mr. and Mrs. J. E. Liebig and Mr. and Mrs. C. P. Boyer will be hosts at bridge. Playing will begin at 8 o'clock and there will be the usual attractive prizes to reward the score-making experts.

On Friday night, January 24 will come the January dance, with fine music and a general good time anticipated. And on Wednesday evening, January 29 will come the big club star party, an event eagerly anticipated by men of the membership. This event will begin with buffet supper at 6 o'clock, followed by cards and varied entertainment. Memories of similar events of the past, serve to heighten the interest with which men of the club await the approaching party.

Another event for the January calendar, is the Kappa Alpha Phi dance for which the chapter has issued invitations for the night of January 25, immediately after the date of the club dance.

Birthday Anniversary Is Observed With Dinner Party

Returning from a New Year holiday stay in Palm Springs, Mr. and Mrs. Hildred Stephens and little daughter Marilyn, made the second day of the new year one long to be remembered by Mr. Stephens as his birthday anniversary.

Mrs. Stephens had planned a birthday dinner in their home, 923 South Garnsey street, entering as guests, Mr. and Mrs. Stephens' parents, Mr. and Mrs. R. S. Stephens of Long Beach, and Mr. and Mrs. A. G. Gamboa, also of the beach city, with their children, William and Vivian. Joining the group later in the evening, were Mr. and Mrs. B. C. Stephens of Long Beach, brother and sister-in-law of the host.

Probably the most unique "birthday gift" which fell to the lot of Mr. Stephens, was a nephew, for he and Mrs. Stephens received a telegram yesterday announcing the birth on January 2, in Warsaw, Ind., of a little son, Jerry Lee Craig, to Mr. and Mrs. R. G. Craig of that city. Mrs. Craig was Miss Frances Benton, a sister of Mrs. Stephens, and was in the Southland a few years ago for the wedding of Miss Helen Benton to Hildred Stephens. Mrs. Frank Benton of Warsaw, Ind., mother of the two sisters, joined with Mr. Stephens in claiming her tiny new grandson as a birthday gift, for today chances to be her own anniversary.

Holiday Stay Includes Bridge Party on Eve Of Departure

Leaving at the end of the past week for their home in Lemon Cove, Mr. and Mrs. Forrest Haver brought to conclusion, a delightful holiday visit here with Mrs. Haver's mother and sisters, Mrs. Mary M. Pleis and the Misses Ella Marie and Betty Jean Pleis, 212 East Myrtle street.

On the eve of their departure, Mr. and Mrs. Haver were complimented at a bridge party planned by Miss Ella Pleis, and carried out in a striking decorative scheme of red, black and white. Massed cotoneaster branches added their red berries to the setting.

Amusing little Scottie, formed tally cards for bridge, in which high scores made by Mrs. Kenneth Eldred (Katherine Dunham) and Harold Watson, were rewarded with prizes.

Aware of the fondness for pie on the part of various of the guests, Miss Pleis served with coffee, a variety of delicious cream pies, including French chocolate, coconut and banana, with whipped cream garnished with chopped nuts and cherries.

Her guests in addition to Mr. and Mrs. Haver and her fiancé, George B. Benson, were Mr. and Mrs. Harold Watson of Huntington Beach; Mr. and Mrs. Kenneth Eldred, Miss Helen Leikhus and Don Bernard, Anaheim, and Mr. and Mrs. Joseph Webber.

Willard Teacher Tells Of His Pre-holiday Marriage

Details of his marriage on December 21 were related today by Arthur Nisewanger, who resumed his teaching duties at Willard school after the holiday vacation. He and his bride, the former Miss Betty Burns of Santa Barbara, have established residence at 2035 North Broadway.

The wedding was a quiet event in the home of the bride's parents, Mr. and Mrs. Charles Burns, 2840 Lacy street in Santa Barbara. Both young people attended Santa Barbara State Teachers' college, from where the bridegroom received his degree some time ago. For the past year, he has been a member of the faculty at Willard school, teaching shop and physical education.

Elks' wives and their guests are asked to contact either of the hostesses, or other members of the general committee, including Mesdames Harold Brown, William Garvin, Ben Osterman, Ridley Smith, John Miller, Earl Abbey, E. R. Majors or Donald Jerome, social chairman for the year, Mrs. Jerome pointed out today that all wives of Elks' members will be welcomed to the affair Friday afternoon, even though they do not make their reservations in advance. Refreshments will be served.

Plans for Friday's party were made last week when the committee held an evening meeting in the home of Mrs. Jerome, 2823 Bush street.

Dr. and Mrs. William B. McGee of San Diego and their baby son William "Buster" McGee, just six months old, were guests last week in the Walter E. Poole home, 515 East Myrtle street. Mrs. McGee is a niece of Mrs. Poole.

Mr. and Mrs. Allan S. Turner were hosts at a recent affair in their home, 270 Cypress street, Laguna Beach. Their guests were Mr. and Mrs. Clyde Stovall Jr. and daughter, Barbara, Costa Mesa, and Mrs. Robert Day, Huntington Park. Bridge was played following the serving of dinner.

Enno Schmooch planned to leave today to resume his studies at Concordia college in Oakland, after a several days' visit in the home of his parents, the Rev. and Mrs. William Schmooch, 816 Brown street.

Mrs. C. D. McAlpin and children, Jimmie, Betty Lee and Oriene of Long Beach, were Sunday guests in the home of the former's mother, Mrs. Dora Morrow, 924 West Chestnut street.

Miss Frances Roper of Long Beach, formerly of this city, spent yesterday with her brother-in-law and sister, Mr. and Mrs. Grover Bacon, 1520 West Sixth street, W. L. Weiss, 707 Oak street, was in Big Bear Saturday on business.

Mr. and Mrs. E. J. Vosskuhler, 1516 West Sixth street, and the former's father, Carl Vosskuhler, left Sunday for Tucson, Ariz.

Friday Afternoon Will Bring Party for Elks' Wives

Elks' wives and friends will enjoy their first monthly party of the new year Friday afternoon when they assemble at 2 o'clock in the clubhouse for sessions of auction and contract bridge. Prizes, of course will reward the fortunate winners.

Hostesses for the afternoon will be Mesdames Lyle Anderson, L. W. Blodgett, Frank Sawyer and V. L. Motry. In order that they may have some idea as to the number of party guests planning to attend, they are asking for as many early reservations as possible.

Elks' wives and their guests are asked to contact either of the hostesses, or other members of the general committee, including Mesdames Harold Brown, William Garvin, Ben Osterman, Ridley Smith, John Miller, Earl Abbey, E. R. Majors or Donald Jerome, social chairman for the year, Mrs. Jerome pointed out today that all wives of Elks' members will be welcomed to the affair Friday afternoon, even though they do not make their reservations in advance. Refreshments will be served.

Plans for Friday's party were made last week when the committee held an evening meeting in the home of Mrs. Jerome, 2823 Bush street.

Announcements

Spurgeon P.-T.A. board will meet Thursday at 9 a. m. in the school conference room.

Social Order of Beauceant will hold installation of officers Wednesday night at 8 o'clock in Masonic temple. The ceremony will be open to Knights Templar and their families.

Lincoln P.-T.A. executive board members have been called to a special emergency meeting tomorrow afternoon at 2 o'clock in the school, by their president, Mrs. Ben B. Beasley.

Business and Professional Women will have the pleasure of hearing Assemblyman James Utt tonight at their dinner meeting at 6 o'clock in the Doris Kathryn. The January committee, composed of Mrs. Hubertson Kuenneman, Miss Alma Karlsson and Miss Martha Whitson, will plan the month's program to conform with the national theme of legislation, and Assemblyman Utt will make that the subject of his address.

After a visit with Mr. and Mrs. Max Vosskuhler, the E. J. Vosskuhlers plan to return home Thursday. The senior Mr. Vosskuhler will remain in Tucson for an indefinite stay.

Wedding Announced of Popular Teacher at Fremont School

Quietly resuming her teaching duties at Fremont school, Mrs. Harry Smith, formerly Mrs. Sue Baxter, today received good wishes from her fellow teachers on her marriage, which was a quiet event of Thursday, December 26, in Yuma. Harry Smith is well known in this community, as former owner of the Smith China store on North Broadway, now the Homarts store. He is in charge of the hardware department of a business house in Kingman, Ariz., and he and his bride will make their home in that city after she completed her present teaching year at Fremont school. They spent part of the holidays in Kingman and part in Orange with members of his family.

Members of the Fremont faculty were aware of all plans for the wedding, as the bride had acquainted them with the secret at a beautifully appointed tea given by Mrs. Guy Gilbert, principal, just before school closed for the holidays. To the members of the staff where she has taught for the past seven years, Mrs. Baxter revealed arrangements for the quiet Yuma rites, which completed a romance of childhood days.

Tea guests included with the hostess, Mrs. Edith Gilbert, and the honor guest, Mrs. Baxter, now Mrs. Harry Smith, Mrs. Jessie R. Boyd, Mrs. Evelyn Cray, Mrs. Emma C. Dietrich, Miss Evelyn Hering, Miss Boyd Joplin, Mrs. Alice Kiersey, Howard Paul, Miss Ruth Smith, Miss Mirrie Wilson and a special guest, Miss. Earl Abbey.

Intimate Group Honors Newly-Married Couple

The Rev. and Mrs. William Schmooch were hosts to an intimate little group of guests Thursday night in their home, 816 Brown street, complimenting their son and daughter-in-law, the Rev. Mr. and Mrs. Gerhardt T. Schmooch of Burbank.

This was the first opportunity for some of the group to meet the latter Mrs. Schmooch, the former Miss Hilary Pardeck of St. Louis, Mo. Her marriage to the young pastor of Burbank Lutheran church was an event of early November.

Games and music were enjoyed during the evening. Holiday decorations for the party included a tree with colorful lights.

In serving refreshments, the hostess had assistance of her sister, Mrs. William Behrens of San Francisco, who is in the Southland visiting with relatives. Others present with the Rev. Mr. and Mrs. William Schmooch were their son, Enno Schmooch, a student at Concordia college in Oakland, the Rev. Mr. and Mrs. Gerhardt Schmooch of Burbank; Mrs. Julius Barnett of Los Angeles and Mr. and Mrs. Waldemar Abraham of Riverside, Mrs. Barnett and Mr. Abraham are a niece and nephew of the hosts.

President of Corps Entertains Her Officers

Soon to begin her second term as president of Sedgwick W. R. C. Mrs. Geraldine Beall entertained officers who have served with her during the present closing term when she was hostess Saturday afternoon at a party in the home of Mrs. Edith Scott, 4311-2 South Birch street.

Polinetias brightened rooms of the home. Mrs. Beall presented each of her officers with a pretty dolly. The president received a lace table cloth from her guests, with Mrs. Bell McConnell, senior vice-president, making the presentation.

Mrs. Beall used individual trays in serving pink and white ice cream, cakes, mints and coffee. She was assisted by her daughter, Mrs. Elizabeth Smiley and a niece, Miss Chelena McBurney.

Present were Mrs. Beall and Mesdames Bell McConnell, Della Miller, Bertie Thompson, Media Brayton, Meta Caldwell, Nannie Myers, Edith Scott, Ida Millen, Elizabeth Birckhead, Lena Hewitt, Beatrice Hossler, Hattie Cosad, Lula Hall, Lena Walters and Estelle Grey, past department president of W. R. C.

Miss Dorothy McGuigan Weds Alfred Bath at Quiet Home Rites

Quietly impressive rites were observed Friday evening in the parsonage home at 810 Kilson drive, of the Rev. Frank E. Lindgren, pastor of Calvary church, when Miss Dorothy McGuigan, daughter of Mrs. Lena McGuigan, 294 Highland street, became the bride of Alfred W. Bath, son of Mr. and Mrs. Alfred E. Bath, of Anaheim.

Only a few close friends were assembled with members of the two families, for the wedding at 7 o'clock, for which the bride wore a pretty ensemble costume in navy blue silk. Her hat, slippers and other dress accessories were in the same shade of blue, and completing her charming appearance was a long spray of white gardenias.

Mrs. Frank Lindgren was at the piano for the music of the ceremony, which included the solo, "O Perfect Love," sung by Mrs. Curtis Burrow. There were no attendants, but an interesting feature was the presence of Mr. Bath's twin brother, Frank Bath, and his bride of just a few weeks, formerly Miss Estella Kincaid, of Fullerton. Alfred Bath had been best man at his brother's wedding.

The new Mr. and Mrs. Alfred Bath left at once for Banning where they will make their home for the remainder of the winter months, while Mr. Bath continues his work on the Colorado aqueduct project. He is a graduate of Anaheim High school and Fullerton Junior college. His bride also completed Santa Ana Junior college course, after graduation from the local high school.

Guests at the wedding in addition to the Rev. Mr. and Mrs. Lindgren, were the parents of the young couple, Mr. and Mrs. Alfred E. Bath, of Anaheim; Mrs. Lena McGuigan and W. P. Guigan, of this city; Mr. and Mrs. Frank Bath, Mr. and Mrs. J. A. Overman and Miss Joanna Overman, Mrs. Bert Mooney, Mrs. J. E. Shroder and Mr. and Mrs. Curtis Burrow.

Social Briefs

Informal Tea
When young matrons get together for an afternoon of knitting, they can make their needles fly while enjoying the sociability of the gathering. Leastwise, they can if they are all like the little group of friends who assembled for a pleasant time late last week in the home of Mrs. Clarence Ranney, 2456 Heliotrope Drive. Chatting over the tea cups with Mrs. Ranney were Mrs. Stanley Norton, Mrs. Crawford Nalle, Mrs. Robert Guild, Mrs. Alvin Stauffer and Miss Catherine Swaffer.

Visitors Depart
Holiday festivities at Los Alisos ranch, the delightful home of Mr. and Mrs. A. J. Cruickshank on Main street, Tustin, came to their definite conclusion last night, as various members of the closely knit family circle scattered to their respective cities. Miss Constance Cruickshank, who arrived from San Francisco well in advance of Christmas, left by train for her secretarial duties there, and her sisters, the Misses Josephine and Marian Cruickshank, returned to Los Angeles after a week-end at home. They have seized every opportunity to be here during their sister's stay in the Southland, as has their aunt, Miss Shirley White also of Los Angeles. Today the little home circle at Los Alisos had narrowed to three, Mr. and Mrs. Cruickshank and Mrs. A. Cruickshank's mother, Mrs. L. A. White.

VISITOR FROM KANSAS
Returning to her former home city for a visit, Mrs. George Bell of Yates Center, Kans., was accompanied by her young daughter, Lila Jean when she arrived yesterday for an extended stay with her mother, Mrs. Beth Weethee, 2058 Bush street. Mrs. Bell will be remembered as Miss Valueda Weethee, formerly employed with the telephone company in this city. Her sisters, the Misses Sylvia, Lola, Marietta and Maxine Weethee complete the intimate family group welcoming her home and planning various hospitalities in her honor.

County Catholic Women Hold Meeting in This City

Father John Devlin of Los Angeles, diocesan director of films, headed a trio of interesting speakers on the program Friday afternoon when Orange County council of Catholic Women met in Knights of Columbus hall.

Others on the program were Mrs. E. J. Luenschloss of Los Angeles, member of the executive board of the diocesan council, who talked on Altar societies and the necessity for federation of Catholic women's groups; Father Gabriel Ryan of Laguna Beach, who spoke briefly to the group.

During his talk, the Rev. Father Devlin told of difficulties encountered by the motion picture industry in producing films meeting with general approval both nationally and internationally.

Mrs. Ashby Turner of this city, president of the council, conducted the meeting. On the hostess committee were Mrs. F. F. Mead, president of St. Joseph Altar society, assisted by Mrs. Robert Sandon; Mrs. Ethelbert Johnson, president of St. Joseph P.-T. A.

RADIO FEATURES

Time References Are Pacific

Book Rogers and Wilma Deering hear of trouble on Aster, the little planet formed from thousands of asteroids, and rush in their rocket ship to lend assistance as the "Book Rogers in the 25th Century" program is broadcast over KHJ at 4:15 this afternoon.

Ted Husing, Columbia's ace sports announcer, will inaugurate his own series of weekly programs as raconteur and commentator with music by the Charlesters over KHJ at 4:15 this afternoon.

Sylvia Sidney will be starred in a Radio Theater production of Charles Klein's play, "The Third Degree," over KHJ at 6 tonight.

Gladya Swarthout, glamorous opera, screen, and radio star, will inaugurate the fifth year of the Contented program when she appears as guest artist at 7 tonight over KFI. The distinguished mezzo-soprano will sing her favorite song, "If I Should Lose You," from her new starring picture, "Rose of the Rancho."

Nelson Eddy, American baritone, will star as the Voice of Firestone with Margaret Sparks, soprano; the Firestone chorus and symphonic string orchestra over KFI at 8:30 tonight.

A tragedy is averted as Helen Hayes, versatile radio, stage and screen actress, resumes her portrayal of Penelope Edwards to star in "A Stitch in Time," ace 15 of Edith Meiser's original, continuing play, "The New Penny" over KFI at 9 tonight.

A bright and new half-hour to be known as "The Cheer Club" will regale Southern California listeners for the first of its series at 9 tonight over KHJ.

"These O'Malleys," the amusing dramatic serial having to do with the adventures of the itinerant Mrs. Allen and her brood, previously heard at 9 o'clock, will henceforth be broadcast by KHJ from 9:30 to 9:45 o'clock each Monday, Wednesday and Friday night.

You Name It, popular variety program which has been heard five mornings a week for several months, will be broadcast at night for the first time at 10:30 to 11:00 p. m. KGO and KFI are scheduled to release it.

TUESDAY
A special concert, arranged particularly for children to promote their interest and knowledge in the classics, will be broadcast over KECA at 10:45 a. m. Tuesday, by the Rochester Civic Orchestra, under the direction of Guy Fraser Harrison, noted composer and conductor.

Roy Helton, newspaperman, scientist and poet, will be the guest of the "American School of the Air" during its poetry broadcast over KHJ at 11:30 a. m. Tuesday.

The Kolish String Quartet will make one of their rare radio appearances over KECA at 1:30 p. m. Tuesday as guest performers on the Library of Congress Chamber Music series.

The second of two programs dealing with the ballet in opera will be presented by Howard Barlow and his Symphony Orchestra in the "Understanding Opera" broadcast to be heard over KHJ at 3:45 p. m. Tuesday.

STARLINES
Helen Hayes believes in good luck charms. During broadcasts of "The New Penny" the diminutive star wears a platinum bracelet with a black enamel clasp. Miss Hayes has worn this lucky piece in all her stage, movie and radio endeavors. It is inscribed with the legend, "I Bring Luck Wherever I Enter."

The Revelers report that they've discarded bridge in favor of a new and exciting game which is "monopolizing" all their spare time. The famous four are rabid devotees of the new "Monopoly" game that has won over Radio Row.

During rehearsals, Ray Noble permits each of his men a turn at directing the orchestra, and for several reasons. First, it instills in his musicians a feeling that they "belong," and second, it gives them necessary experience if they ever decide to become orchestra leaders on their own!

Igor Gorin, baritone star of the "Hollywood Hotel" programs, follows the practice of European singers of taking a tablespoonful of olive oil before singing in order to avoid throat dryness.

Connie Gatas, the NBC contralto, is probably one of the leading authorities on the exotic and little known foods of the Far East. Syrian lamb roasted on a spit; mysterious albeit tasteful curries from India and genuine Cantonese dishes in which almost every known vegetable is used, are all in Connie's ken.

Jim Melton reports that one of the nicest parts about this personal appearance tour he's now making is the opportunity to browse around antique shops in different cities in search of old pewter and glass for his already valuable collection.

Deane Janis, lovely contralto star of the "Caravan" programs, says she's not superstitious—except about numerology. Deane was advised by a numerology expert to adopt her school-day nickname as her "nom-de-radio," which she did, "La Janis" right name is Nadine Janis.

OLD CASTLE WILL SHELTER SOLDIERS

GMUNDEN, Austria, Jan. 6.—The garrison in the little town of Gmunden will be housed in what may be the most luxurious barracks in the world—the palace formerly occupied by the Duke of Cumberland and Brunswick.
The duke was the son of the last King of Hanover, brother of William IV of England, and was deposed in 1837. The Hanoverian throne. The kings of England held the throne of Hanover until the death of William IV.
One wing of the castle, which was constructed in 1878 for the duke's bride, the Princess Thyra of Denmark, when he was one of the richest royalties in Europe, is to be converted into an officers' mess.
The castle stands in a huge park, which contains specimens of some of the rarest trees, and was built on a magnificent scale.

News From Orange And Nearby Towns

PASSION PLAY PRESENTED IN ORANGE CHURCH

ORANGE, Jan. 6.—A large audience assembled at the First Presbyterian church Sunday night when high lights of the Oberammergau Passion play were presented by the Deutree-Ayer players at the regular Sunday evening service.

The play has been presented in the larger churches of more than 50 large cities in the past few years. Robert Deutree and Lysa Ayer, brother and sister, are former Orange county residents and return each year to spend a part of the winter here.

A cast of 18 actors presented the play. The main speaking roles were carried by members of the company. Others taking part were Miss Dorothy Flintman, as "Martha," and Howard Barnes, Charles Dever, Coleman Estes, Phil Herrington, Dick Leininger, George Linnert, Tom Powell and Dick Stanley, who played the parts of trades people and disciples.

MRS. A. Y. DAVIS CALLED BY DEATH

VILLA PARK, Jan. 6.—Mrs. Elizabeth C. Davis, 77, passed away yesterday at her home here. She had been a resident of this vicinity since 1913, coming to California from Seward, Neb. Survivors are her husband, A. Y. Davis; two sons, W. B. Davis of Sheridan, Wyo., and W. B. Davis of Long Beach; two daughters, Mrs. G. A. Harvey of Escondido, and Mrs. H. B. Babson of Chicago, and two grandchildren.

Funeral services are to be held at the Gliglio Funeral chapel tomorrow at 2 p. m. with Dr. Robert Burns McLaughlin presiding. Mrs. Davis was a member of the Orange Presbyterian church. Interment will be made in Fairhaven cemetery.

COOKED A FINE DINNER; THEN THREW IT TO DOG

One lady recently stated that she used to throw her own dinner to the dog most of the time. It made her sick just to look at anything to eat. She was swollen with gas, full of blood, had headaches, felt worn out, and was badly constipated. Finally she got MOSBY'S TABLETS and says she now eats everything in sight and digests it perfectly. Bowels are regular and normal. She is enjoying life once more and feels like "some other woman" since taking this Tablet Compound.
BENEFITS IN 12 HOURS
MOSBY'S TABLETS neutralize acids in the stomach and bowels, expel gas, relieve pain, bloat, swelling, give the bowels and intestines a GREAT CLEANSING and bring out the foul, acidous filth that causes headaches, skin eruptions, foul breath, coated tongue, thick bad taste and worn out feeling. Benefits come OVERNIGHT. Weak, miserable people often feel like different men and women in 12 HOURS TIME!
COSTS ONE CENT A DAY
MOSBY'S TABLETS cost little more than one cent a day. So don't go on suffering. Get Mosby's Tablets—TODAY—at McCoy's Drug Stores, 104 E. Fourth or 302 West Fourth. Also sold by McCoy's Drug Store in Whittier, Salinas, and Huntington Beach, and by all good druggists.—Adv.

Annual Meeting Of Postpone Opening Of Adult Classes

ORANGE, Jan. 6.—Stockholders of the Central Lemon association will meet Thursday noon at the Orange Woman's clubhouse for dinner and their annual meeting. The meeting will open at 9 a. m. at the association office at Villa Park and will be adjourned to the clubhouse at noon.
Directors will be elected and the annual report made by Roy Runnells, secretary. Hugh T. Thomson is president.

HOLD LAST RITES FOR H. C. RATHBUN

ORANGE, Jan. 6.—Funeral rites were held Saturday afternoon at C. W. Coffey chapel for Harley C. Rathbun, 58, who died at his home at 413 North Orange street Wednesday morning following a brief illness.

The Rev. J. H. Hess, pastor of the Mennonite church, conducted the services, with the Rev. J. B. Abbott of the Orange Free Methodist church, the Rev. John H. McCabe of the Garden Grove Free Methodist church and the Rev. E. A. Archer of the Santa Ana Free Methodist church assisting. The Rev. W. A. Quick of the Free Methodist church, of Monrovia, and a former Orange pastor, assisted in the commitment service at Melrose Abbey mausoleum. Pallbearers were Ross Killinbeck, John Dame, Henry Miller, Irwin Hager, O. A. Gardner and Clarence Skiles.

A quartet from the Mennonite church, comprised of Miss Beulah Hess, Miss Geraldine Hess, Mrs. Evelyn Pentecost and Mrs. Ruth Skiles, sang "No Tears in the Sky" and "Goodnight and Good Morning." Mrs. John B. Williams of Santa Ana sang "No Night There." Miss Leota Ingle presided at the organ.

Funeral services are to be held at the Gliglio Funeral chapel tomorrow at 2 p. m. with Dr. Robert Burns McLaughlin presiding. Mrs. Davis was a member of the Orange Presbyterian church. Interment will be made in Fairhaven cemetery.

P-T. A. Board To Meet Wednesday

ORANGE, Jan. 6.—The monthly meeting of the P-T. A. community council scheduled for last Wednesday will be held this Wednesday noon at the Intermediate school, according to Mrs. Marion Flippin, president of the council.

A pot luck luncheon will be served, with Mrs. Kenneth King, Mrs. C. A. Palmer and Mrs. C. E. Short as hostesses of the day. The afternoon session will be short, Mrs. Flippin said.

Stockholders Of Bank Meet Jan. 9

ORANGE, Jan. 6.—Stockholders of the Orange Savings bank will hold their annual meeting at the bank January 9 at 9 a. m. It was announced today. Directors will be elected and other business will be transacted.

FLYING TRAPEZE MAN DIVORCED

SALEM, Mass.—The "man on the flying trapeze" has just been divorced. Mrs. Ellen Lesure, 21, told the court that her husband, a flying trapeze artist, slapped her. FILLER—

BATAVIA STREET WORK UNDER WAY

ORANGE, Jan. 6.—Resurfacing of Batavia street by the Square Oil company, of Los Angeles, from Walnut avenue to La Veta avenue was started this morning, the work being necessitated by the construction of the storm drain the length of the street as a major city and county project. The paving of the street with soil and oil brings to a close the work which was begun January 11, 1934, under the direction of W. K. Hillyard, acting city engineer.

The cost of the drain was approximately \$170,000. About 20,000 sacks of cement were used in the construction of the conduit, which is high enough from the Santiago creek almost to Chapman avenue, to permit a man of ordinary height to walk upright.

The conduit is designed to relieve the western part of the city of Orange and the adjoining county territory from damage from flood waters.

ORANGE PERSONALS

ORANGE, Jan. 6.—Mr. and Mrs. L. C. Lühr have returned from a visit with relatives and friends in San Francisco and with Mrs. Minnie Taylor, sister of Mrs. Lühr, at Los Gatos. They were away three weeks.

Mrs. Frances Kerr, East Palmyra avenue, had as recent dinner guests, her son and daughter-in-law, Mr. and Mrs. Lawrence Kerr, of Pasadena; Miss Isabelle Durgan and C. M. Durgan, of this city, as a house guest, Mrs. Ella Bloodgood, of Santa Ana.

Mr. and Mrs. C. O. Powell, 182 North Cambridge street, were Los Angeles visitors Saturday evening. The regular meeting of the Ladies' Aid society of the First Presbyterian church will be held Thursday at the Epworth hall, with Mrs. J. R. Kenyon in charge. Circle No. 1 will be in charge of the dinner and Circle No. 2 of the program. The theme will be "Home Making."

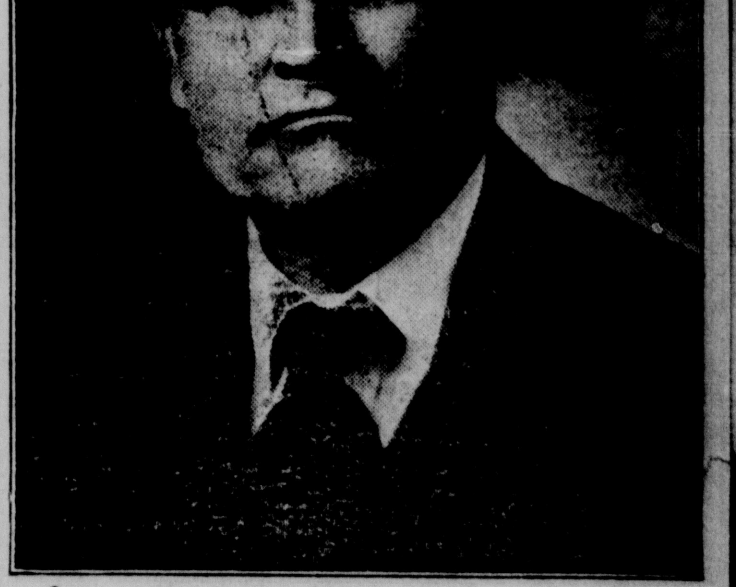

The American Legion auxiliary sewing division will meet at the clubhouse tomorrow at 10 a. m.

BURNS' CUBOID FOOT RELIEF

(PATENTED)
Remove the Cause of All Foot Troubles
A Big Improvement Over Arch Supports and Bandages

Quick, Permanent Relief for Tired Aching Feet. Fallen Arches, Burning Feet, Corns, Callouses, Bunions, Cramps in Feet and Legs, Sweating Feet and Varicose Veins, also Cold, Clammy Feet. Stops spreading and stretching of the foot, corrects the shoe and makes more room.

THEY WORK WHERE OTHERS FAIL

This is W. C. BURNS, Cuboid Specialist, and Inventor of Burns' Cuboid Muscle Developer and Arch Builders, who will show you free of charge so you will understand that he does everything he advertises.

MR. BURNS WILL BE WITH US THE ENTIRE WEEK AND MONDAY OF NEXT WEEK IN PERSON

He will advise and show you, Free of Charge, how Cuboids make walking easier, how, walking on Cuboids develop the muscles, forcing the blood through the arteries and builds vitality, making the heart's work easier. Cuboids relax the cords and nerves, giving you full benefit and rest from your sleep; also why your corns, callouses and bunions will gradually disappear, along with your tired aches, cramps in your feet, legs and back. Give relief when everything else has failed.

Burns' (patented) Metatarsal Soles will be sold for the low price of \$2.50, \$3.50 and \$4.50 for Men, Women and Children during this Factory Advertising Campaign.

SEE OUR WINDOW DISPLAY

Burns' (patented) Metatarsal Soles support the arch in the shoes. Protects the soles of your shoes, also keeps them from wearing out. Shoes wear longer and keep their shape better. Gives you more spring in your step, as though you were walking on velvet. Come in. Try ONE Pair!
You'll NEVER wear ANY other soles. They will also cut your shoe bill in half.
We want everyone to know about these 2 Wonderful Inventions whether you buy or not.

Burns' Cuboid Muscle Developer Co.

THE TWYMNIES

"Oh, gee, but what a lovely flight. The earth below is out of sight and all that we can see is sky," said Doty, with a grin. "I only hope that this big balloon will land us some place pretty soon. And, too, I hope that some place is a place where we're not seen."

"Don't worry," said Jack Frost. "I know just where you tots are going to go, but I'm not going to tell you. It would spoil a big surprise."

"Enjoy the trip you're having now. Forget what is in store, somehow. It won't be long till some day you will appear on your feet."

PER FANNY SAYS:

Midway City, Jan. 3.—Mr. and Mrs. Murray Harris of Cathedral City were visited by Mr. and Mrs. S. E. Davis and family, Mr. and Mrs. Harold Robertson and family, of Midway City; Mrs. John Lutweller, of La Habra, and Mr. and Mrs. R. N. Cone and family of Anaheim this week. The Harrises formerly lived here.

Edward Epps, who erected a Monterey style house on the three acres of land at the intersection of Huntington Beach boulevard and Roosevelt street some months ago, has sold this place to a Mr. Proctor, who expects to occupy the house. Epps has purchased the two acres adjoining him on the north and plans on building another house, first erecting a garage for living quarters while the construction is under way.

News Of Orange County Communities

Huntington Beach Oil Field Menaced By Flames

LOSS OF \$5000 IS CAUSED BY FIRE IN RIG

HUNTINGTON BEACH, Jan. 6.—Huntington Beach's oil field was menaced by flames last night when

escaping flames from a derrick of the Huntington Oil company at Nineteenth and Walnut streets burst into flames. The flames spread rapidly, spreading the flames over a wide area. Women were pulling the well, which had been whittled into a safe survey, scheduled for today. Oil from the tubing and rods, already pulled, trickled to the pier and into the fire, where it spread into a sheet of flames which spread to the gas escaping from the open well. The gas ignited and in an instant the wooden derrick was a mass of flames.

The fact that there was no wind blowing aided firemen in their fight to prevent the blaze from spreading to other derricks. Putting some of the guy wires and keeping two legs of the derrick water-soaked and permitting the others to burn, the firemen stopped the blazing derrick to fall into Nineteenth street, missing oil tanks and other derricks. The loss was estimated at \$5000. Joe Rodgers, night club manager, Phil Brain and E. E. Fairbanks are principal owners of the company operating the well.

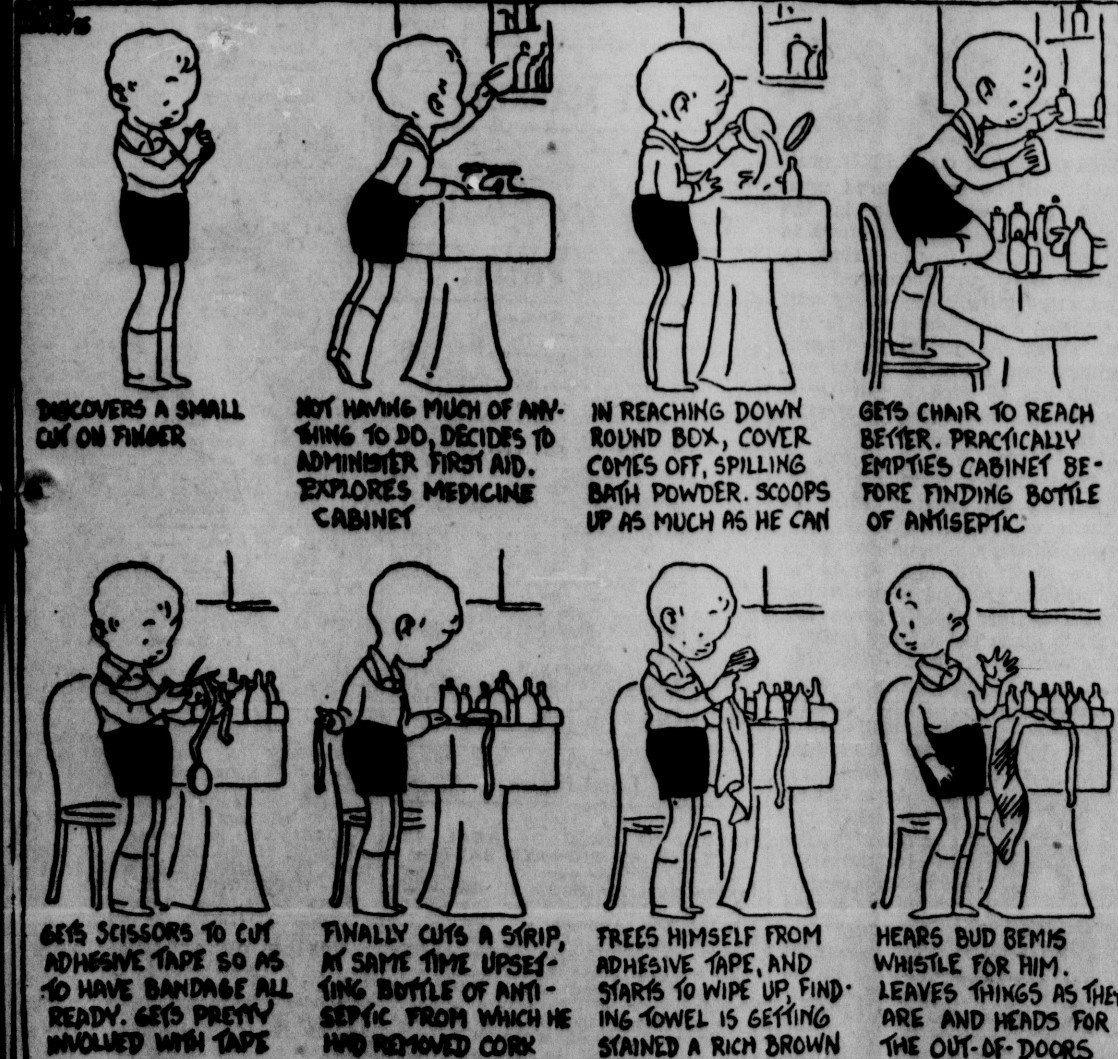

STUDIES RESUMED BY BREA STUDENTS

BREA, Jan. 6.—Brea grade schools and Brea-Olinda Union high school opened this morning following a two weeks' vacation for the Christmas holidays, which unfortunately coincided with the two weeks' quarantine placed on the schools and on the residential community at Stewart Station because of the attack of infantile paralysis. Offered by Billy Conley, eight-year-old son of Mr. and Mrs. William M. Conley, residents of that area. Local physicians and the county health officers declare that the epidemic has passed and that health conditions are good, with a need for alarm. C. O. Harvey, F. E. Fanning and Vincent Jan. 7, heading the three school groups here, expected a normal attendance when schools opened this morning. No signs of other cases developing have been seen and health authorities state the epidemic has now passed for such development.

Challenge Class To Meet Tonight

YORBA LINDA, Jan. 6.—The challenge Bible class of the Methodist church will hold the first meeting of the new year tonight at the home of Mr. and Mrs. Gail A. Pidge. The Young People's Bible class, taught by Mrs. J. H. Smith, will have a pot-luck supper at the church Tuesday night. Leroy Grimm teaches the challenge class.

Dinner Affair Held by Family

GARDEN GROVE, Jan. 6.—Bringing together a family group, Mr. and Mrs. Ernest L. Fritcher were hosts at a dinner party Sunday afternoon in their home at Sunnyside Gardens. Roast pork featured the main course of the dinner, which had been promised to the group when the host purchased a young pig a few months ago. Roses centered the long table where dinner was served to precede an evening of games. In the party with the host couple were their daughter and son, June and Lester and Mr. and Mrs. Robert Porter, Mr. and Mrs. Irving Porter and son, Donald; Mr. and Mrs. Ernest Porter and son, Richard, all of Long Beach; Mr. and Mrs. Ed Sandquist and daughter, Jacqueline; Mr. and Mrs. Susan Fritcher, Santa Ana; Mrs. Susan Fritcher and John Fritcher, Garden Grove.

El Toro Club To Select Officers

EL TORO, Jan. 6.—The El Toro Woman's club will meet Tuesday at the home of Mrs. Harvey Bennett. The annual election of officers will be held and yearly reports presented.

SAN JUAN CAPISTRANO

SAN JUAN CAPISTRANO, Jan. 6.—Mr. and Mrs. G. P. Evans, Barbara, Gloria and Martha visited in National City recently with Mrs. Pearl Paul, Mrs. Bickerton, mother of Mrs. Evans, spent the day with her son, John Harvey Bickerton, and her daughter, Mrs. M. Macnider and family, in San Diego.

Mr. and Mrs. H. B. Montague attended the Rose parade at Pasadena Wednesday.

C. Russell Cooks attended the parade at Pasadena Wednesday. Dr. and Mrs. Paul H. Eslinger entertained a party of eight at a dinner recently.

Mr. and Mrs. Robert Scott returned home Saturday from a visit with relatives at Palo Alto. Mr. and Mrs. A. R. Hodson spent Wednesday with his brother, Bert Hodson, and family in Orange.

Mr. and Mrs. Eric Cliff entertained five couples at their home in Laguna recently. Robert Cook and Virginia Stewart were hosts recently at the Cook home to Christian Endeavor members.

Pericles J. Stavron has bought the interest of his partner, D. P. Morgan, in the Dan & Pete cafe.

Mrs. David Ross entertained two tables of contract bridge Friday afternoon. Those present were Mrs. R. F. Schlosser, Mrs. M. E. Walters, Mrs. William Bathgate, Mrs. P. E. Jinet, Mrs. Carl Hankey, Mrs. M. M. Parker, Mrs. A. W. Speer and Mrs. Harlow Halladay.

The Women's Sunday school classes of the local Community church has started a new plan of study. A different member of the class will take the leadership each month. Mrs. J. Roy Smith is directing for the month of January.

The American Fruit Growers, Inc., will hold their annual barbecue and dance at San Juan Hot Springs picnic grounds January 15 at 3 p. m., according to Manager F. W. Rogers. Admission to the affair will be by ticket only.

The old adobe cafe was the scene of a party when friends gathered together to play contract bridge. Mrs. David Ross made high score.

SPECIAL SERVICES CONDUCTED AT MESA

COSTA MESA, Jan. 6.—Fifteen young women of the Community church Epworth league, Thelma Allen, Marion and Avoncel Nelson, Doris Gibson, Doris McMurtry, Betty Lamberton, Betty Dodge, Evelyn Rollins, Genevieve Clark, Helen Davis, Eleanor Brooks, Ardith Lowe, Hazel Gill, Miriam Brown, and Margaret Robertson, were the principal participants in a candlelight processional and recessional at the church last night when Holy Communion services were held. Mrs. Veda Thompson, president at the organ console while the exercises were being presented. A brief sermon by the Rev. W. I. Lowe was delivered preceding the communion program. Special sections were given by the choir under the direction of Mrs. Mary Bennett. The Epworth lesson was directed by Phil Cassell.

The Rev. Mr. Lowe announced that Prayer Week services will be held Wednesday, Thursday and Friday evenings at the church. On Wednesday evening the theme of the program will be "Doing the Impossible"; on Thursday, "The Power of Service"; and on Friday, "Empowered Witnesses." He also announced that Dr. Jesse Lee Corley will speak next Sunday at the morning services. The pastor will preach on the theme, "A Much Needed Warning," at the evening services.

GARDEN GROVE

GARDEN GROVE, Jan. 6.—Mr. and Mrs. Samuel Wight have received word of the death of Harlan Bemiss at Toronto, Canada, following a short illness. He was a resident of Garden Grove for many years and had returned with his niece to his old home in Canada last July.

Mr. and Mrs. A. D. Brownell attended the Tournament of Roses parade in Pasadena New Year's day.

Mr. and Mrs. George Schumacher enjoyed dinner in Los Angeles and later a visit with the latter's sister, Mrs. Nellie Schweizer in Hawthorne recently.

Mr. and Mrs. L. A. Ford and son, Gene, attended an informal gathering on Thursday evening at the home of Mr. and Mrs. Rex McGill in Orange, relatives from Los Angeles, San Diego and Santa Ana being present.

Mrs. Nellie Schweizer, of Hawthorne, visited relatives here Friday.

Mr. and Mrs. J. L. Coats and family have returned to their home in Bakersfield after enjoying a couple of days visit with their daughter and son-in-law, Mr. and Mrs. Gus Van der Linde.

Gathering for a family dinner Wednesday at the home of Mr. and Mrs. J. G. Allen and family were Mrs. Rosette Bohnenberger and daughter, Mrs. Alma Egli, of Yreka; Mr. and Mrs. S. C. Oertly and family and Mrs. Conrad Oertly.

Mrs. Lester Austin has arrived from San Francisco for an extended visit in the homes of her cousins, Mrs. J. G. Allen and S. C. Oertly.

Mr. and Mrs. Glenn Goodwill and son, Gordon, have returned to their home at Bloomington after spending the holiday vacation with Mrs. Goodwill's parents, Mr. and Mrs. G. L. Beardsley.

Mr. and Mrs. Paul Crosby and daughters, Virginia and Donna Jean, of Pasadena visited recently with Mrs. Crosby's mother, Mrs. C. G. Lott.

ARRANGE RITES FOR VICTIM OF GAS EXPLOSION

HUNTINGTON BEACH, Jan. 6.—Funeral services will be held at the Dixon Mortuary chapel, Costa Mesa, tomorrow at 2 p. m. for Ramon F. Coreaga, 30, who died Saturday afternoon from burns sustained in an explosion at Huntington Beach. The Rev. L. A. Arthur, of Huntington Beach, will officiate and interment will be in Westminster Memorial park.

Coreaga, who was employed in the Huntington Beach oil fields, died in St. Joseph hospital, where he was taken after escaping gas had exploded in his apartment, burning him horribly. Coroner Earl Abbey is continuing his investigation of the fatal blast to determine whether or not an inquest will be necessary.

Coreaga told police that the explosion was caused by gas escaping from an open jet into the bedroom of his apartment, in Bishopcourt, Fourteenth street and Orange avenue. He retired but could not sleep and arose. While dressing, according to his story, he lit a cigarette and the explosion followed.

In addition to his estranged widow, Mrs. Maybelle Coreaga, he is survived by one son, Ramon Coreaga Jr., two daughters, Cora Mae and Eleanor, and his mother, Mrs. A. A. Craig, of Costa Mesa.

Beach Oil Well Down 500 Feet

COSTA MESA, Jan. 6.—The Commander Oil company's No. 1 well on the bluffs above West Newport Beach is drilling at a depth of about 500 feet, having resumed operations several days after cementing a surface string of pipe at the 225-foot level. The location is on the Banning lease, on which the Nuoli company has sunk several test holes in the past few years, the deepest of which was carried to the 6000-foot level.

CLUB ENTERTAINED

BUENA PARK, Jan. 6.—Mrs. Ned Johnston and Mrs. Paul Johnston entertained members of their sewing club of Los Angeles with an informal party Saturday afternoon at their ranch property here.

The group worked on a quilt, which was presented to Mrs. Paul Johnston's mother as a birthday gift. Cake, tea and whipped jelly were served at the close of the afternoon. A theater party was planned for the January 15 meeting.

BEACH CITY PLAY ATTRACTS CROWD

LAGUNA BEACH, Jan. 6.—An additional performance, following the two originally scheduled of the Alden Nash play, "And Let Who Will Be Clever," was given Saturday night by the Community Players of Laguna Beach. The play was well attended, many who had viewed the performance last week bringing out-of-town friends with them. The Community players held a get-together meeting following the performance, at which plans for future plays were outlined, and the tentative winter schedule of performances taken under consideration.

Birthday Affair Held In La Habra

LA HABRA, Jan. 6.—Honoring Betty Lou Clayton on her 19th birthday anniversary, Mr. and Mrs. A. D. Clayton entertained Friday evening at their home in La Habra Heights with a bridge party. Prizes in the bridge games were won by Audrey Hollingsworth, Winnie McCool and Lucille Neimann.

The holiday colors were used in decorating and poinsettias in large baskets, together with the lighted Christmas tree carried out this theme. The taffies were hand made. The guest list included Barbara and Betty Steelman and Bonnie Miller, of Yorba Linda; Barbara Koch, Virginia Chandler, Lois King, Betty Wood, Helen Whitaker, Lucille Neimann, Audrey Hollingsworth and Winnie McCool, of Fullerton; Louise Soule, Fern Jones, Marjorie Wilcox and Nellie Scofield of La Habra.

One little-known aspect of the parade came in for much discussion, when it was made known that the Laguna Will Rogers float had actually been driven in reverse—which is to say, backwards—by driver, John Brenot, of 339 Ocean avenue. Many from Laguna who attended the parade in Pasadena were unimpressed in their praise of Brenot's capable handling of the massive float without hitch or halt other than those necessitated by routine stops.

Kellogg In State Service 10 Years

LAGUNA BEACH, Jan. 6.—Robert P. Kellogg, now of Laguna Beach, but formerly of Santa Ana, has received from the adjutant general of the California national guard a letter congratulating him upon completion of 10 years of service in the C.N.G. The letter is signed by Brigadier General Harry H. Morehead. Kellogg is a first lieutenant in the service. He is a partner in the Santa Ana-Laguna Beach bus line.

HOTEL ROOMS PIPED FOR BEER
COPENHAGEN.—Denmark is improving on the old slogan, "rooms with hot and cold running water." The new building of the Danish Society of Civil Engineers, opened here recently, is piped not only for water but also for ice-cold beer.

BEGIN HERE TODAY
Against the wishes of her grandmother, aristocratic Mrs. Willard Cameron, Dana Westbrook marries Dr. Scott Stanley, struggling young physician.

Before her marriage, Ronald Moore had been in love with her, Nancy. Dana's half-sister, loves Ronald, but hides her feeling behind a disdainful attitude.

Both Mr. Cameron and Paula Long, who has loved Scott for years, hope the marriage will not last.

Dana becomes aware of Paula's infatuation for her husband. After a misunderstanding, she goes to her grandmother's home. Mrs. Cameron decides to do all she can to make the separation permanent.

Ronnie is a comforting friend, but Dana remains disconsolate, believing Scott loves Paula. Scott, meanwhile, thinks Dana left him because she was tired of being poor.

After six months, Dana decides to divorce Scott, believing that is what he wants. Scott has been taken into partnership by Dr. Osborne.

The day of the divorce, the Osbornes plan a yachting party, in Santa Ana-Tustin Mutual Citizens association; noon.

NOW GO ON WITH THE STORY.
CHAPTER XXXVIII
Late summer drifted into early fall. Leaves turned from green to gold, and a brisk wind, rustling tall branches, tossed colorful little patches at Dana's feet.

She was walking swiftly, a jaunty little hat tipped slightly at the side of her head. The hat was brown, like her dress. Strands of chestnut hair were whipped loose and blew against her cheek.

She heard steps behind her and a deep masculine voice called, "Are you practicing for a sprinting marathon?"

Dana whirled. "Ronnie, Ronnie!" The same, in person. What a chase you have led me! Your grandmother said you were on your way to the library, with about a five-minute start. Say—the way you travel! People fell out of their cars watching me being outdistanced by a woman!

He was holding her hands tightly, gazing into her eyes, oblivious of curious on-lookers on the busy street.

Dana said, "Oh, Ronnie, I'm glad you're back!" The words came in a little rush.

"Honestly, Dana? You wouldn't fool me?" Ronnie's hands tightened on hers.

"I wouldn't fool you. Don't ever go chasing off around the world again."

"Never expect to—alone," Ronnie said.

There was something significant in his voice. Something significant, too, in the way he was looking at her, smiling.

She said quickly, "Grace and Bill are having a party out at their lodge on the lake. She heard you were coming today—I don't know how—and asked me if I could inveigle you to come along."

FLOAT GROUP OF BEACH CITY GIVEN PRAISE

LAGUNA BEACH, Jan. 6.—At a dinner given at Laguna hotel, Friday night, nearly 100 representative citizens gathered to pay tribute to those who had assisted in making possible the prize winning float from Laguna Beach, which captured first honors in its class at the Rose tournament in Pasadena New Year's Day.

Gene Douglas, commander of Laguna Legion post 222, presided, introducing the various speakers. Harold Reed, who designed, and Loren Holmwood, who executed the Will Rogers memorial portrait in natural flowers, were given ovations. All connected with the enterprise were felicitated by those present.

Mayor Frank Champion, Frank W. Cuppen, George A. Portus, secretary of the Laguna Chamber of Commerce, and Joseph Jahraus, whose truck carried the float in the parade, spoke briefly.

Until nearly noon Saturday, the Will Rogers float was parked for public inspection between Hotel Laguna and Las Ondas restaurant. Many photographs were taken by tourists passing through, and comment was general as to the lifelike aspect of the Will Rogers delineation, even on close-up inspection.

One little-known aspect of the parade came in for much discussion, when it was made known that the Laguna Will Rogers float had actually been driven in reverse—which is to say, backwards—by driver, John Brenot, of 339 Ocean avenue. Many from Laguna who attended the parade in Pasadena were unimpressed in their praise of Brenot's capable handling of the massive float without hitch or halt other than those necessitated by routine stops.

Discussion Held By Young People

BREA, Jan. 6.—An informal discussion of current issues of interest to young people was held at the meeting of the League of Youth of the Congregational church Sunday night at the home of the Rev. and Mrs. D. F. Gaylord. Refreshments were served following the meeting.

An hour earlier, in the guild room of the church, a meeting of the Junior League of Youth was held with Dick Richards leading in a discussion of the topic, "Can We Decide Right and Wrong for Ourselves?" A short social time, during which games were played, was enjoyed following the meeting.

"I'm inveigled," Ronnie smiled. "That is, if you're going. I suppose Grace heard from Paula that I was back. Paula was on the same steamer, and we came from New York on the same train."

"Paula!" Dana's face whitened. She walked on, saying nothing.

"Yes, it wouldn't surprise me if Paula and that Britisher who's been trailing after her wouldn't be at the party. You remember how thick Paula and Grace were before she went away?"

"If you'd rather not go—" Ronnie began.

Dana shook her head. "No, we'll go. How could it matter to me now?" She turned and looked at Ronnie with a queer, detached expression.

"Paula was looking fit," Ronnie said, trying to make his voice sound casual. "This man who is visiting her is a cruise trophy. Rather interesting fellow. He's an explorer who has seen and done about everything, chased bandits in Nicaragua, hunted in Africa, lived among restless Indian tribes."

"An adventurer," Dana said. "In a way, though I understand there is a bona fide title that he has democratically discarded. Tell me about yourself."

"I've been going places again, lots of places," Dana said. "Doing things."

Ronnie searched her eyes and found the shadows and a restless glint. Dana was looking more beautiful than ever. Smarter.

A car whirled by and Mrs. Weatherly leaned out to bow and smile. "There's Ronnie Moore!" She said to her companion. "Well, now it won't be long, I guess, before Dana Stanley will be Mrs. Millions. Maybe Ronnie would side-step if he knew how scandalously she's been behaving."

"Scandalously?" the other woman said. "I never heard a word of scandal."

"If it isn't scandalous to turn night into day, to be here, there and everywhere with a flock of men jumping after her like a lot of trained clowns, I don't know what you would call it! But I guess Ronnie will jump higher than any of them."

Paula and Dana met at the edge of the lake. Paula was in a motorboat, that was about to leave the shore. The man with her had blond hair that had been tinged bronze by many suns, and an interesting, weatherbeaten face.

Paula wore green slacks with a sweater and a green scarf about her shoulders. Her red hair flamed under the sun. Her mutinous mouth was carmine brilliantly.

Dana stood for a moment without speaking, watching a lambent

Hold Funeral Of Mrs. Olive Huff

BUENA PARK, Jan. 6.—Funeral services for Mrs. Olive Huff, who died Wednesday at the family home on Western avenue, were held Saturday afternoon at Backs, Terry and Campbell funeral parlors in Anaheim. The Rev. V. K. Ledbetter of the Anaheim Baptist church, was in charge of the rites. Burial was in Westminster cemetery.

Four sons and one daughter survive the deceased, a county pioneer.

Name Committee For Pension Club

BREA, Jan. 6.—At a meeting of the Brea Township club held in the Masonic hall Friday night, a nominating committee was named comprising Rimer Jamison, chairman; Mrs. Anna Gotterba, Ed Thornberg and Mrs. C. H. Palmer. Officers for the new year are shortly to be elected.

Additional members were named for the advisory board for the purpose of getting in unpaid dues and other pledges. L. W. Hyde presided in the absence of the president, L. L. Lemmon, who is still at the General hospital in Fullerton, where he is slowly recovering from a serious illness.

Mr. and Mrs. Sam Craig, of Buena Park, were guests and extended an invitation to all members and friends to attend the meeting to be held in the Congregational church in that town on Tuesday night, when Rex Barr, of Long Beach, and others will speak.

MESA LIBRARY ADDS PATRONS IN PAST YEAR

COSTA MESA, Jan. 6.—Over 30,000 books were loaned from the local library during the past year, according to Miss Sarah Conant, librarian. Included in the loans were 14,203 fiction numbers; 5466 adult non-fiction volumes; 5616 juvenile works. Over 600 new readers were added to the list of readers.

Fiction numbers placed on the shelves recently were "Army With Banners," Mitchell; "American Gun Mystery," Queen; "Aramanth Club," Fletcher; "A Few Foolish Ones," Fletcher; "A Fighting Man of Mars," Burroughs; "Bedtime and Harvest," Blake; "Blood Relations," Gibbs; "Before the Dawn," Kacawa; "Claimants," Marshall; "Claudius the God and His Wife Messalina," Graves; "Candy," Alexander; "Deepening Streams," Canfield; "Forlorn River," Gray; "Furies," Hanley; "Golden Apples," Lutz; "Johnathan's Daughter," Larrimore; "King of the Jews," Borden; "Kitty," Deeping; "Kirby," Lamb; and "Miss Bishop," Aldrich.

SOCIETY

Pleasant Associations Recalled by Guests At Class Tea

Pleasant associations were recalled late last week, when Miss Lou Hinton brought together members of a Bible class which she formerly conducted at United Presbyterian church, for a charmingly appointed tea at which she was hostess in the home of her sister, Mrs. Milford Tidball, 2104 Santiago street.

Increasing the charm of the home were the clusters of roses and sweet peas presented to the hostess by members of her former class. The tea table was especially attractive with its handsome lace cover, its sweet peas and candles. An unusually pretty touch was the elaborately hand-embroidered tea cozy covering the china teapot, and which had been sent quite recently from Holland.

Miss Minnie Cowan presided at the pouring of tea, which was served with a variety of little cakes, nuts and candies.

Miss Hinton had the assistance of her sister, Mrs. Tidball, in all details of the happy afternoon which was shared by Miss Martha Smith, Miss Minnie Cowan, Miss Adda Cowan, Miss Jane White, Mrs. Anna Scott, Miss Isabel Little, Mrs. F. H. Finley and Miss Nell Collins of this city, and Miss Mary Ramsey of Sterling, Kans.

Nancy Steinberger Has Birthday Party

Twenty school friends of Nancy Elizabeth Steinberger joined with her last week in a celebration of her twelfth birthday anniversary in the home of her parents, Mr. and Mrs. R. E. Steinberger, 820 South Ross street.

Games were played during the afternoon, with the result that prizes were won by Patricia Price, Margaret Getty, Glenna Jean Titchener and Beverly Short.

Mrs. Steinberger, hostess at the event, was assisted in entertaining by her mother, Mrs. A. J. Bowen of this city. Peppermint ice cream, cookies and nuts were served buffet style with a chocolate birthday cake which was decorated with birds in rainbow effect. Centering the table was a pretty water garden scene.

Christian Church Group Holds Party

BREA, Jan. 6.—A belated Christmas party was enjoyed by the Young People's society of the Christian church in the cabin Friday night. Earl Merrifield was in charge of arrangements and was assisted by Mrs. Hugh Jones and Mrs. Frank V. Stipp in presenting a program and entertainment.

Mrs. Jones as the "Old Woman Who Lived in a Shoe" told a tale of want to Earl Merrifield and Mrs. Stipp read the lines of the nursery rhyme. The young people then appeared bearing baskets of food for the relief of the old woman and her many children, the contents of the baskets later providing refreshments for the more than thirty present.

STRANGE AS IT SEEMS—By JOHN HIX

By some biological quirk, the mating of a common American mourning dove with a blonde ring dove produces both male and female fledglings—but the young females gradually change into males as they mature. These sex reversed females become imperfect or incomplete males at maturity, according to Dr. Oscar Riddle who conducted a series of experiments at the station for experimental evolution at the Carnegie Institution of Washington on Long Island, New York.

Records of the War Department, Washington, disclose that only one Congressional Medal of Honor was ever awarded to a woman—and that woman was Dr. Mary Edwards Walker who served in the Civil War as acting assistant surgeon. She won widespread notoriety for her penchant for masculine clothes, and was allowed by special act of Congress to wear male attire while in the service of the army.

The medal was awarded on January 24, 1866 "for services rendered during the war from 1861 to 1865."

Edmund Halley, famous English astronomer for whom the comet was named, is remembered for his famous prediction about the return of Halley's comet. This, and another important astronomical prediction made by him, came true to prove his theories and calculations—but Halley by then had long been in his grave. The comet returned on schedule in 1759 17 years after Halley's death. He also said that Venus would cross the face of the sun on the morning of May 26, 1761. This occurrence took place 19 years after Halley's death.

WHILE HE WAS PROSPECTING A "STRANGE JUNGLE," A LOOP SLITHERED DOWN OVER ALLEY OOP'S SHOULDERS

COUNTY M. E. BANKS PLAN TO MEET TUESDAY

Members of the Methodist Episcopal church brotherhoods of Orange county are scheduled to gather at the First M. E. church in Santa Ana Tuesday afternoon and evening, for a round table discussion of the 1937 fiscal year budget estimates and the supreme court decision outlawing the AAA.

Trading in the stock market was around the 4,000,000-share mark for the first time since February 7, 1934.

Prices on the day were irregularly lower following several wind swings accompanied by sufficient activity to cause tickers to lag several minutes behind the market.

Good cheer, however, opened steady toward noon utilities, with gains of 1 to 3 points led a smart rally. When the budget and supreme court announcements came stocks shot up by the processing company issues, and cotton and grains leaped for the first time in several days.

However, all markets turned down and selling in stocks attained tremendous proportions.

"Tickers caught up in the last hour and some prices came back from the low points."

Traders were unable to gauge the influence of conflicting elements in the situation. The budget was considered a bullish factor, but the decision was made known. It was the nearest to a balance in several years since the sharp rise anticipated in revenues without need of additional taxes. Outlawing of the AAA, however, will necessitate some form of substitute tax, which was worrisome for the market fraternity.

Along with the AAA severance act including the Jones-Costigan act which has bolstered the sugar market, the support the sugar market collapsed.

First impressions of the cotton traders were the decision was highly bullish. They reasoned it would stimulate purchases of cotton cloth and hence improve demand for raw cotton. The price of cotton closed unchanged to a cent a bushel. Corn was off 1/4 to 1/2 cent.

Beach Fraud Case Still Before Jury

Back-fires from the Newport Beach election fraud charges of 1934 still interested the county grand jury today, it appeared, when it was learned that Andrew J. Lenox, elderly Newport Beach resident, was called before the investigating body at 1 o'clock this afternoon.

PRAYER SERVICES OPEN ON TUESDAY

ANAHEIM, Jan. 6.—Nation wide week of prayer will be observed in Anaheim on three evenings this week when services will be held at the Calvary Baptist church, Citron and Broadway, under the auspices of the Anaheim Ministerial association, according to Conrad Jongeward, secretary.

Services will last for one hour, between 7:30 and 8:30, on Tuesday, Wednesday and Thursday evenings.

The Rev. Virgil K. Ledbetter will have charge of the special music and other arrangements. The address will be given by the Rev. Thomas H. Walker on the first evening, Tuesday, when "Let Us Pray For Ourselves" will be the theme. His subject will be "Prayer Changes Things."

"Let Us Pray For Our Church" is the theme of Wednesday night's service, when the Rev. S. E. Schrader will talk on "The Church's Mission for Our Day." The final service will be conducted by the Rev. M. C. Schollenberger, who has chosen for his theme the subject, "Does God Love Me?" The theme of the final day will be "Let Us Pray for Light on the Way Ahead."

BUTTER, EGGS AND POULTRY

Wilken, who will handle all kinds of residential and business properties, for the past six and a half years has been district manager of real estate and properties of the Pacific States Savings and Loan company, and will continue to handle their interests in Orange county.

Jennie Richardson Called by Death

ANAHEIM, Jan. 6.—Mrs. Jennie A. Richardson, 73, widow of the late Grant Richardson, passed away at her daughter's evening at the home of her daughter, Mrs. E. P. Francis, in Atwood, after a brief illness. She was a native of New York but for one and one-half years she was a resident of Atwood and for fourteen years she has lived in Southern California.

She is survived by two daughters, Mrs. E. P. Francis, of Atwood, and Mrs. F. J. Kavanaugh of Twenty-nine Palms; one son, Vern D. Richardson, of Compton; one brother, Alvin Miller, of New York; three sisters, Mrs. Ella M. Pack, of Michigan, and Mrs. Edith M. Woods and Mrs. M. E. Shippy, both of New York, and four grandchildren. For many years she was a member of the Christian church.

Funeral services will be conducted at the Hilgenfeld Funeral home, at 2 p. m., Tuesday. The Rev. D. J. Brigham, pastor of the Placentia Presbyterian church, will officiate, and entombment will be made in the mausoleum in Loma Vista cemetery.

"POLITICAL" MONEY VS. SOUND MONEY

Most everyone believes in "sound" money. "Sound" money is money which does not change rapidly, either up or down, in purchasing power.

People think they borrow money. They do not, in reality, borrow money but borrow things. They borrow money and trade it immediately, for example, for a house, factory, farm or automobile. When they pay back the obligation they do not, in reality, pay back in money but they trade a factory or farm, or give a service or work, for which they get money to pay off other obligations.

There cannot be actual social justice in these kinds of transactions unless money is sound and has a very uniform purchasing power. The question, therefore, arises as to what kind of money comes nearest having a uniform purchasing power. Sound money is money which represents warehouse receipts for things and services. Sound money can be conserved with little expense, is valuable in small bulk, is easily transportable, and is constantly desired. Money based on debts and controlled by "political opinion" will be money which does not have constant purchasing power. It will be "political" money and not sound money. It never has been and never will be sound money.

The advantage of the warehouse receipt money over "political" money from banks is that the former cannot be changed in nature or volume at the will of the politicians while the latter can be. One kind of money is safe and develops thrift and high standards of living. The other eventually destroys thrift and reduces standards of living. The one destroys thrift because: When money comes to have less and less purchasing power each succeeding year, the great mass of people soon learn that they can get more of things and services by spending their money when they get it rather than holding or lending it, and spending it later. Our standards of living are improved, in the long run, by having more and better labor-saving machinery and equipment, better labor-saving domestic animals, better labor-saving vegetation—in other words, by having more capital.

Thrift is curtailed or stopped when the inexperienced man, in order to save, is obliged to be a part-owner of the nation's great producing organizations instead of their creditors—obliged to lend them money. He does not know enough about the different enterprises to take the risks of common ownership. So he stops saving. When he is a small owner, he is so often taken advantage of by promoters that he simply does not feel the sacrifice of saving is justified. On the other hand, when he can lend and be assured of a certain fixed return on savings which, practically, will have an equal purchasing power later, for every dollar he saves, together with the fixed returns for use of his capital, he will become a great contributor to the total savings of the country. Therefore it is of utmost importance that the voters realize the importance of sound money as against "political" money.

The Federal Reserve Act, passed in 1913, and written by Dr. Willis, of Columbia University, resulted in the first "political" money with which United States citizens had much experience since days of the Civil war. The Federal Reserve Act was the real beginning of our present "planned" or "political" money. Founders of the Republic had had experience with "political" money when the country was founded; then the money had to be based upon debts. The thirteen states had borrowed more than sixty million dollars, owed to their soldiers as five years' back pay and had issued two hundred fifty million Continental currency. This currency gradually became of no value and the common saying, "not worth a Continental," was originated.

The Federal Reserve Act pyramided what was used as money. It permitted short-time loans, together with 40 per cent gold reserve, to become a basis for issuing new paper money, short-time bank debts to be used as money in the form of checks, increased prices of things several times higher than they would have been, based on sound money.

When people, in 1929, came to realize their money was "political" money instead of warehouse receipt money, there was a grand scramble to get rid of the "political" money by conversion into actual value money—gold.

Now we have started a new kind of money without even the safeguard of its being convertible into gold, as was the Federal Reserve Act money. The amount of this new "political" money depends largely upon the Federal indebtedness. The more debts the Government has, the more "bank deposit" money there is—which is "political" money. As its volume increases and prices rise, every depositor, every note or bond holder, every insurance policy holder is having his savings taken away from him, day by day, as well as his purchasing power and wealth. When people come to realize this, they will not lend money nor will they buy life insurance and we again will be forced to have a new kind of money to create money confidence again.

So large is the money question, it is impossible to go into much detail in the editorial columns. It is suggested, however, that those who want to make a more complete study of money, get a copy from the public or Junior College libraries, of Groseclose's "Money: The Human Conflict."

It is most doubtful whether, there can be any sound money, actually, without a sound tax program. The tax program will be discussed in the columns of The Register, upon a theory which, if put into effect, we believe would make balancing of the budget possible and thus make sound money possible.

If The Register could interest the people of Orange county to the point they would study consequences of "political" money and would

realize that inflation comes and money is destroyed when the Federal Government continues indefinitely in failure to balance the budget, it would mean a real service done, we believe.

One of the most prominent citizens of the United States was asked, last week, whether we now are in inflation period and he replied: "The stock prices now are as high as they were in 1926, when the budget was balanced and practically every man was working, and now, with ten million people out of work, the budget unbalanced and the earnings of the corporations less, the only reason that stocks are selling for the price they are, is due to inflation." Yes, inflation is here.

Under "political" money, a man can become extremely wealthy in a very short period of time without performing any service to Society, by simply having knowledge of when and what to buy, and when to sell. Under sound money, it is much more difficult to get something for nothing.

Most people who give others a piece of their mind forget to keep some for themselves.

LITTLE LABOR LOST

During the last year the U. S. Labor Department's conciliation service was called upon, or offered its services voluntarily, in 1007 cases of industrial trouble—strikes, threatened strikes, lockouts, jurisdictional disputes, and so on. In 749 of these cases—just less than 75 per cent—it brought about peaceful adjustments.

Here is a record of which the service can be proud. Those 749 adjustments represent a distinct gain to the community as a whole, as well as to its individual elements of employers and employees.

Any industrial dispute which reaches an open break means a loss to the community; a loss in time, in wages, in profits and in goods.

To head off three-fourths of such breaks before they reach the loss-making stage is to render a genuine service to the country as a whole, as well as to the parties immediately concerned.

PARAGRAPHS

By Robert Quillen

The political situation means little except that Americans always get tired of anything in three years.

Seniority rule: A rule by which a solemn nitwit gets to the top by the process of living long enough.

"People have lost faith in Genesis," says a critic. They just can't believe it was punishment to give Adam a job.

The wealth that "doesn't bring happiness" is the wealth added to what you have when you have all you need.

The Russians are cruel. They shoot a man for failing to make good, while other lands merely starve him.

A HICK TOWN IS A PLACE WHERE YOU KNOW WHICH MEN BEAT THEIR WIVES AND WHICH WIVES NEED IT.

Aren't writers wonderful? They can tell you what Labor thinks, though they never have talked to a laborer.

The sexes aren't equal yet. A woman doesn't hate to be known as the mate of a celebrity.

Recovery is simple. Just pay all of us a bonus and raise the money by selling tax-free securities.

We wonder at times whether great men are naturally silent or just seem great because they don't talk.

Never set a pace you can't keep up. Thereafter you seem to be slipping when you are merely good.

Modern version: I care not who writes a nation's law if I can write its propaganda.

FABLE: ONCE A MAN HAD TEN WORSHIPFUL FEMALE RELATIVES AND HE DIDN'T THINK HE KNEW IT ALL.

Maybe youth despises the old order, but what of it? Was there ever a time when youth didn't?

The American has two ways to avoid paying for his mistakes: (1) getting a divorce; (2) calling the national guard.

Zero in argument: Urging Democrats not to increase the debt because it will increase the taxes of rich Republicans.

The market is up, but it isn't a real bull market till you hear ladies say: "This is a cheap little dress, it cost only \$89.50."

CORRECT THIS SENTENCE: "WHEN I VISIT MY OLD HOME TOWN," SAID THE MAN, "I WEAR OLD CLOTHES SO I WON'T SEEM STUCK UP."

More Truth Than Poetry

By James J. Montague

THE COLD

It rarely gets me bad enough
To keep me in the house;
But when I moan
And grouse and groan
To my long suffering spouse,
And when my temper's quick and hot
And cannot be controlled,
I know the symptoms—I have got
A cold.

The Doctor does not sympathize,
He merely shakes his head;
Says "Do your best
To get some rest,
And stay a week in bed".
Again I rise and pace the floor,
I cannot be consoled,
While every day grows worse and worse
My cold.

A cold, just nothing but a cold,
That's what HE has to say;
I'd give my all,
Though it is small,
To keep that cold away.

But when one gets you in its grip
To fuss or fume is vain,
There is no help till it begins
To wane.

RANK CARELESSNESS

The Bagdad express has been derailed a number of times by camel herds. The right-of-way should be posted with signs reading: "The camels are coming; look out, look out!"

Uh Huh

Day By Day In Washington

By DAVID LAWRENCE
(Copyright, 1935)

WASHINGTON, Jan. 6.—The new neutrality policy of the United States, expounded by President Roosevelt, applies only to wars in the eastern hemisphere. It does not affect arms shipments to countries in North and South America which may go to war with each other or with European or Asiatic nations.

This careful delimitation of America's intent to keep out of war by means of the embargo of neutrality does not meet the viewpoint of those who want peace at any price. Rather, it confirms and extends obligations which the United States has hitherto assumed under the famous Monroe Doctrine.

The president's exact language on this point is of historic importance. He says:

"As a consistent part of a clear policy, the United States is following a twofold neutrality toward all nations which engage in wars not of immediate concern to the Americas."

The only wars that are "not of immediate concern" to the Americas are wars in which European or Asiatic powers go to war with each other. The other possible wars—those between countries in the western hemisphere or between Pan American countries and countries in Asia and Europe—are not to tie the hands of the United States if it should wish to help one belligerent in the sense of continuing to export arms and ammunition as well as other war supplies.

The reason for this policy is apparent the moment the obligations of the United States under the Monroe Doctrine are recalled. Thus, if any of the nations of Central and South America, and presumably Canada, for that matter, too, were to be attacked by an Asiatic power, the United States could hardly acquiesce in the gaining of a permanent foothold in the western hemisphere by any power from the eastern hemisphere. This was the principal purpose of the Monroe Doctrine.

There is no assurance that the United States will go to war on the side of nations in the Americas, but the making of an exception in what would otherwise be a general neutrality policy, applicable to all foreign nations that might become belligerents, is significant in itself.

It is obvious that, if any nation in the Americas went to war with a powerful European or Asiatic country, the advantage would be all on the side of the countries in the other hemisphere which had natural resources or munitions plants big enough to take care of their needs. Under such circumstances, to deny a South American country, for example, the opportunity to buy arms and ammunition and other supplies from the United States with which to defend itself would be to reject the traditional policy of

friendship and special interest which the United States has always maintained toward other nations in the two American continents.

Mr. Roosevelt's doctrine specifically permits the United States to give potential aid to nations in the Americas which might become belligerents. As for wars between South American countries, or revolutionary disturbances that threaten to upset constituted governments, the state department has always had the power to allow arms to go to certain countries and not to others and even to certain sections occupied by de facto authorities or to embargo the shipments to both factions of belligerents inside a country. But this has never been part of a general policy of regulating trade with belligerents.

Countries to the south of us will view with gratification the making of an exception in our neutrality policy so far as it offers protection against attack by nations in the eastern hemisphere. The Monroe Doctrine itself does not imply that the United States must come to the aid of a South American nation when it is attacked, but merely announces that the United States will not allow any foreign power to gain a permanent foothold. The new neutrality policy tells the whole world, however, that arms and ammunition will continue to be sent to any nations on the American continent that may need them in a foreign war. This is nearer to the proclamation of a protectorate over Latin-America by the United States than any previous declaration because it is a specific promise that international and domestic law, as it will be applied by the Washington government to the world in general, will not apply to Latin America in particular.

Just what the pacific-minded persons who have hoped to eliminate all manner of foreign involvement by refusing any belligerents will say about this is too early to conjecture, but it will certainly stimulate the critics of another school of thought who believe that a nation with the raw materials like the United States possesses would be doing a grave injustice if it embargoed arms and ammunition against a weak country and particularly if the latter has all the resources, the munitions arsenals and other advantages in a military and naval combat.

Congress will have much to say on the writing of the neutrality legislation. The department of state was unquestionably influential in persuading Mr. Roosevelt to make an exception of Latin America. The president may feel so strongly about it as to insist either that the Americas be specifically exempted from possible embargoes or that at least discretionary power in sufficient amount be granted so that he can apply the Pan American policy even though it is not stipulated in the new law.

Little Benny's Note Book

By LEE PAPE

Saturday morning us fellows was around in the back street and what did we see leaning against a fence but a old bed spring, and we put it down strait to jump up and down on it, being so springy it couldn't be seen much springer even when it was new, making us feel like fleas or kangaroos or something, and Puds Simkins said, O boy this is grate, imagine anybody not having any more sense than to want to throw a thing like this away.

I got a idea, lets start a club called the Flying Trapeze Artists and nobodys aloud in it except us fellows that found this spring, I said.

Everybody admitting it was a swell idee and getting all excited, and Shorty Judge said, Aw heck look what's coming, this is the end of the club.

Meaning the ash waggon to collect ashes and other things including bed springs, and Skinny Martin said, Hay, I tell you what, let's each grab a corner of it and carry it around the block and by the time we get back again the coast will be clear.

Which it was, only by that time we was too exhausted to jump on account of the spring being pritty heavy for something with so many holes in it and probably proving it was a expensive quality, and Puds Simkins said, Well where are we going to hide it so they wont take it the next time they come around? I'd put it in my back yard only my mother is superstitious about bed springs left in the back street. How about you, Shorty? he said.

I don't know, my mother is out, Shorty said.

Being a ideal time to put it in his yard, and all helped to carry it in. Shorty looking doubtful and me and Puds and Skinny encouraging him by telling him he could tell his mother we was responsible.

In the Long Ago

From The Register Files
25 Years Ago Today

JANUARY 6, 1911

Arrangements will soon be underway for repairing the road across Sycamore Flats in Santa Ana canyon, following permission given Supervisor Struck to spend \$1000 in road repairs. This road is the main highway connecting Orange and Riverside counties.

Postal receipts published today by Santa Ana postoffice, showed a remarkable increase in business for the office, in the quarter ending December 31, 1910, over all previous years. Receipts for this quarter were \$2,162, as compared with \$7,874 for the corresponding quarter in the previous year. Postal receipts for the month of December were \$3,970.

Lou P. Hickox has his petition for nomination for city treasurer. Thus we are reminded that there is going to be a city election in April. Hickox is the first candidate in the field, and his petition when fully signed, will mean that his name goes on the ballot as candidate.

OUR CHILDREN

By ANGELO PATRI

A GOOD MOTHER

"Lately Shirley has been bothering me. She is disobedient and when I correct her she talks back. I know, I have not been as firm as I should have been with her, but I do want her to love me. I can't punish her and make her hate me. But I don't know what to do with her unless I send her away to school."

"And allow somebody else to punish her and be hated?" "O, they don't mind it so much from teachers. I know she must be trained, but I can't do it. I want to be a good mother, but I want to be the good mother who holds her children's affection. I can't bear to see the child feel bad and that's the truth."

When did a good mother ever lose the affection of her children? Even the not-so-good ones retain that in spite of everything. But good mothers are assured of it. Allowing children to go at a loose end is not being a good mother. Quite the contrary. And children are quick to learn that weakness lies behind the slackness, and take advantage of it. The result is that the children are miserable and the mother is unhappy.

True discipline never turned a child against its mother or teacher. Unjust punishment, yes. Unjust treatment and the hurt that follows injustice, will leave their traces in the child's mind and color his attitudes. But fair, firm discipline, never. Over and over we hear children say, "She is strict, but she is fair." In that situation they take what comes in the course of the day and hold no grudges.

Being a good mother is no easy matter. It requires sound health, complete self-control, seasoned spirit and the application of personal experiences to sudden emergencies. The mother's life is certain to be filled with sudden

emergencies. Quick thinking, quick decisions, courage, faith, much trust in the goodness of all phases of life are needed, not once in a while, but every hour. Strength, both physical and mental, must uphold the good mother. "I cannot correct him because he might stop loving me." Love is all powerful and knows no such wavering. The right upbringing of a child is his mother's charge, and sufficient to the responsibility her strength must be.

Speak out clearly and let the child know that he is wrong. Direct him the right way. Make him go that way if it is necessary. Children turn from timidity toward bravery, courage and strength. They lean willingly on the one who possesses such soul qualities. They are human children, and their crude stage of growth reach for the desirable thing without thought of right or wrong or future consequences. Later on when they learn that mother or teacher or guardian could have saved them a mistake they resent the attitude that allowed it.

A good mother stands up to her task and faces the unpleasant duties that arise daily. She patiently bears the tears and pouts and tempers when she must. She punishes the wrong-doer in the spirit of healing. She hides her own suffering to help her mistaken child. So she wins her title, Good Mother.

(Copyright, 1936, The Bell Syn., Inc.)

(Mr. Patri will give personal attention to inquiries from parents and school teachers on the care and development of children. Write him in care of this paper, enclosing a three-cent stamped, addressed envelope for reply.)

Things As They Are

By SAMUEL CROWTHER

The refusal of the AAA authorities to reveal the sums paid to individual farmers brings up in strong relief the very personal nature of our government today.

The public has an absolute right to know where and to whom the tax money is going. The farmers have a right to know whether the money being distributed among them is being apportioned according to law or according to whim. They are entitled to know how much their associates are getting for acting as supervisors and paymasters. The money allowances for a district ought to be spread on the walls of the post office of the district.

Likewise with relief payments. It is well known—and a cause of much dissatisfaction among those on the dole—that the allowances greatly vary and in ways that no one can account for. There are families who receive the benefit of one interpretation of the law which provides them with larger incomes than they had during the height of prosperity. Other families, by other interpretations of the law, get only enough to subsist on.

Without going into the question of the rights or the wrongs of the whole relief set-up (whatever it happens to be this week), it is certain that it should be equitable. But the petty tans of relief—and they are tans—will brook no complaints. If a family does not like what it is getting, it can try managing without anything at all. That is personal government reduced to its lowest and most detestable form.

The farmers are almost in like case. The AAA is as highly technical in its administration as some hundreds of legalistic young lawyers know how to make it. Each payment gets around to a question of fact as decided by some official and it is practically impossible to go over the head of that official officer. Moreover, it is not good policy to do so, for petty officials are vindictive and are certain to find a way of winning out.

Thus we have some billions of the public money going out on a

purely personal basis that may be changed at any moment. This is the sort of thing that the people have always fought against. For it changes the basis of government from one of laws to one of men.

The same policy runs through the income tax division. The income tax laws are complex and hazy. Many decisions of moment rest with the field auditors and office men. They can decide questions of fact even to the point of setting sums as reasonable payment for services. On the whole, the personnel of the income tax division is competent and high-minded. That is not the point. The point is that office rulings are bound to supplement and, in time, take the place of the statutes, and instead of Congress making the tax laws, the Treasury makes them. This is not of great consequence to the big taxpayer, for he can afford to hire counsel and fight the point through to a decision in the highest court. But, if a man of moderate means is assessed an extra three or four hundred dollars, he has no method of determining his rights, for it will cost him as much to fight as to pay and, if he loses, he will have his attorney fees on top of his extra assessment.

The AAA paying machinery has already been used to bring in votes on the various plans as put out by the department of agriculture. It remains to be seen if the same machinery will be used in the national election. And it remains to be seen if the personal character of the relief payments will be used in regular Tammany fashion. In Tammany, the job holders are expected each to account for a certain number of voters and to deliver them at the polls whenever the occasion demands.

In sharp contrast to the refusal to divulge the recipients of public moneys is the government attitude on corporate salaries. But again the personal element crops up. The Securities Exchange Commission has held secret some corporate salaries and revealed others. Why?

Here and There

An ancient covered wooden bridge on the Pepper turnpike, Scott county, Ky., has withstood flood waters that destroyed steel spans above and below it.

The killer whale is the only variety of whale with teeth. It is a flesh-eater, has no commercial value, and is not hunted by mankind.

Nearly 2,000,000 women are employed in British industries. They are more numerous than men in clothing manufacturing, and in textile and pottery factories.

CCC workers in Hawaii have constructed a 40-mile fence up the side of Mauna Kea, highest mountain peak in the Pacific, enclosing 63,000 acres of forest preserve, to protect the young trees from wild goats.

One much-relished Chinese dish is made partly of octopus.

Cats are 10 times better mousers than cats.

There have been more than 15,000 bank failures in the United States since 1920.

Air bubbles beat the bronze propellers of racing speedboats.

All telephone lines are being put underground in France.

In England, parents who leave their young children locked up alone in the house, while they go to the theater or other amusement, are now liable to prosecution by the Society for the Prevention of Cruelty to Children.

Not until 1901 was the action of radium on human tissue known. At that time Professor Becquerel carelessly carried a tube of it in his vest pocket and 14 days later had a severe inflammation on the skin of his chest.

Blue eyes are not blue at all, but actually colorless. There is an absence of pigment in the outer layer of the iris, thus exposing the inner layer, which appears blue because of the scattering of short-wave light rays.

The olive-backed thrush repeats its call several thousand times daily.

Maine has a 3,000-mile coastline.
